This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT

ALBANY, N. Y., *December* 31, 1904.

To the Governor:

The undersigned respectfully submit the twenty-second annual report of the State Civil Service Commission, covering the year 1904.

The work of the Commission for the past year has added to the ever cumulating mass of evidence that proves competition to be an entirely practicable and equitable method of ascertaining the merit and fitness of candidates for public offices to which the people have not retained in their own hands the power of election, or which do not involve direct responsibility for the carrying out of policies of government or other peculiarly confidential duties.

Legislation

The law with the administration of which this Commission is charged was given its existing form in 1899. The statutory provisions affecting the civil service have not been materially changed since that date, except as they were supplemented and strengthened by the provisions of chapter 521 of the Laws of 1901, popularly known as the Higgins Law. This act is effectively operating, as promotions are made and vacancies filled, to bring about a much desired degree of uniformity in the classification and grading of clerks and other minor employees in the

Digitized by Google

service of the State and in equalizing the rates of compensation of such employees.

Of several bills to amend the civil service law introduced at the last session of the Legislature, only one was enacted—that designed to protect employees in the public service of the counties embraced in Greater New York from removal without a hearing, and ensuring the retention on a list for re-employment of persons removed from such service on account of the abolition of offices (chapter 697, Laws of 1904). The decision of the Court of Appeals in the Kings county cases, referred to at length in the Commission's report of a year ago, which restored to the Civil Service Commission its judicial functions and protected its competitive classification from mandamus of the lower courts, has enforced respect for the law, and the authority of the Commission and the Governor to determine the practicability of competition has not been further attacked. The law, as thus given permanency by the Legislature and sustained by the court of last resort, has operated to steadily improve the tone of the public service and to establish the merit system in the confidence of the people.

Rules

The rules of the Commission, which when approved by the Governor have the force and effect of law, have remained unchanged during the year, except as changes have been necessitated by changes in classification or required to simplify the administration of the statute. The most important of the changes last referred to establishes the right of the appointing officer to three eligibles from which to make a selection for appointment or promotion, subject to the provision or the consti-

Digitized by Google

tution giving preference to veterans. A proposed revision of the rule governing promotions and designed to secure for them a more consistent and clearly defined procedure is now under consideration.

Classification

The criticism to which the administration of the civil service law is most frequently subjected is that of inconsistency. Some of the occasions for this criticism might be avoided by an extension of the list of positions specified in the law as exempt. Some could be removed by a thorough revision of the classification. Others are unavoidable. Conditions vary. To enforce an invariable rule of uniformity would tend to bring the law into disrepute, and the Commission recognizes the wisdom of the framers of the civil service provision of the constitution in requiring the enforcement of the rule of competition only when and only so far as is practicable. If, however, it were declared that, excepting the positions specified in the law, only those should be classified as exempt for the filling of which competition had actually been tried and had failed, it would undoubtedly more clearly express the intent of the constitutional provision, and would as undoubtedly prove that the cases are extremely exceptional in which the rule of competition is impracticable. The experience of the state officers, including the Civil Service Commission itself, affords abundant evidence that employees thus secured can be as fully relied upon for the performance of the most difficult, responsible, and confidential duties as those obtained by direct and unrestricted selection of the appointing officer. But the law as it stands practically places upon the Commission the responsibility for saying whether or no competition if tried would prove prac-

Digitized by Google

ticable in any particular case, and in determining the matter that body must perforce largely rely, except where the way is made plain by the language of the law or by its interpretation by the courts, upon the testimony of the appointing officer. The Commission therefore requires that such officers specifically state in each application made for exemption that examination, either competitive or non-competitive, is impracticable and the reason why it is impracticable.

It is well in this connection to call renewed attention to the fact that the law expressly declares that no appointment or selection to an office or employment within the classified civil service, which includes the exempt class, shall in any manner be affected or influenced by the political opinions or affiliations of any person whatever. The classification of a position as exempt in no wise removes this prohibition, but when so classified the filling of the position is practically beyond the control of the Commission. The appointing officer becomes the sole judge of the qualifications of the person selected, and upon the former's conscientious regard for the constitution and the law is the only dependence for protection against consideration of improper influences.

The Rule of Competition

How fully the wisdom of the civil service law and the practicability of its execution are recognized by the executive and administrative departments of the State government, may be seen from the reliance placed on it in the selection now going on for positions of the largest trust and responsibility in connection with the barge canal project. The examination of candidates for positions in this service, held in January through the courteous co-operation of the National Civil Service Commission in seventy-one of the principal cities of the country, was by far the largest

Digitized by Google

examination ever conducted by the State Commission, and calling out as it did no less than 2497 candidates for the 275 positions to be filled, of which 805 qualified as eligible, placed at the disposal of the State the service of a body of engineers, engineering draughtsmen, and bridge designers whose qualifications and experience especially fit them for assistance in the great undertaking. That the officers upon whom will rest the direct responsibility for the character of the work are being selected solely on account of their merit and fitness as ascertained by competitive examination affords assurance that its progress, in so far as efficient direction and supervision can secure it, will be free from the taint of jobbery.

The chief difficulties in the way of the satisfactory execution of the civil service law are those arising from misconceptions as to its scope, as to the powers and duties of this Commission, and as to the character of the tests provided to determine merit and fitness. These misconceptions are shared by those ambitious to obtain positions in the public service, by officials possessing the power of appointment, and by the public in general. They are, however, steadily disappearing.

Many of the prejudices entertained toward the law are removed as the fact is more and more clearly apprehended that competitive examination has been found by actual experience to be an entirely practicable method of ascertaining merit and fitness, that appointees under it may be required to give bonds and are subject to summary dismissal for any but political reasons, that it is a rule to which the law and the practice of the Commission recognize there must be exemptions and exceptions, that as administered it is a genuine and practical, not a mere scholastic test of qualifications for the office to be filled and is

Digitized by Google

calculated to obtain the person best fitted to perform its duties satisfactorily, and that it affords a path to honorable employment in the public service through which men and women may enter without humiliating conditions and with assurance that tenure in office will depend upon capable and faithful service rather than upon political pull.

One of the misconceptions as to the duty of this Commission that has been emphasized during the year is that in regard to the creation of offices that may be authorized but not specifically called into being by legislative enactment. In the case of the cities especially, a disposition has been manifested to throw the responsibility for the creation of certain new offices upon the State Commission. Application for the classification of offices has been made, it appears, previous to their creation by the officer or body having that power and charged with providing for their compensation, and when the application has been granted it has been given out through the press that the State Commission has created such offices. The State Commission has no power to create offices. It only classifies those already in existence. To call upon it to classify those that are in anticipation merely is to lead to the inevitable inference that unless it classifies them as is desired they will not be created. The State Commission, in the light of these facts, has deemed it advisable to require, as precedent to consideration of any application for classification, evidence to the effect that the office is in existence and that provision has been made for its salary.

The pressure on the Commission for exemptions, as vacancies occur, new offices are created, or the heads of departments are changed, is continuous. Many of the applications are meritorious, but some of them are for the sole purpose of securing for

Digitized by Google

appointing officers unrestricted freedom in the selection of subordinates.

County Service

In the case of the classified county service the pressure for exemptions has been particularly insistent. Officials whose freedom of choice in making appointments to subordinate positions was restricted by the rule of June 16, 1900, extending the civil service rules to New York, Kings, Queens, Richmond and Erie counties, have manifested a disposition to avoid the application of the competitive rule. This has been the occasion of embarrassment to the Commission. While desiring to remove, so far as lies in its power, every obstacle to efficiency in the offices in question, a conscientious regard for the law has compelled it to resist the effort to obtain wholesale exemptions. There is, of course, no reason why competition should not work as well in the county as in the State and city services. The same loyal acceptance of the rule, the same experience in its practical working, will convince the sheriffs, county clerks, registers, and other officials of any county that the good of the public service is promoted by a firm and impartial enforcement of the civil service law. A revision of the classification of the county service, with a view to securing uniformity and to extending yet further the application of the law, might be properly undertaken.

Municipal Civil Service

From New York city, following the change of administration on January 1st, came numerous requests for the approval of resolutions adopted by the municipal commission. These were almost invariably designed to effect a change in classification and

Digitized by Google

to remove restrictions from appointing officers. Some were clearly meritorious and received the State Commission's approval. Others proposed exemptions that were manifestly unjustified and were returned without approval. The most flagrant attack upon the competitive class was that contained in the effort to secure the exemption of the sixty deputy tax commissioners of the city. The municipal commission and the mayor approved the application, but it was not shown that the competitive system had worked badly in practice in the case of the office in question, and the arguments in support of the exemption were based on a decision of the Court of Appeals that was deemed to be without pertinence. The court had declared (People ex rel. Ryan vs. Wells, 176 N. Y., 462) that the deputy tax commissioners for the purposes of removal, were "deputies of an official or department," but Judge Bartlett, speaking for the same court (People ex rel. Thompson vs. Feitner, 168 N. Y., page 453), declared that "the deputy commissioners are in no sense independent officers, but perform their duties under the direction and supervision of the board and subject to its approval." The State Commission, in performance of its duty to uphold rather than weaken the law, felt justified in deciding, therefore, that these officers were not entitled to exemption as "deputies of principal executive officers authorized by law to act generally for and in place of their principals" (Subdivision 1, of section 12, of the civil service law). The deputy commissioners are in reality the city assessors, and to have made their appointment and removal subject to political or other improper influences would have opened the way to the gravest abuses and imperiled public interests.

In Buffalo, where the Civil Service Reform Association and the Municipal Civil Service Commission were both divided as to

Digitized by Google

the wisdom of certain proposed changes in the municipal rules affecting promotions in the police and fire departments, the State Commission, after a visitation and public hearing, suggested an amendment that strengthened the competitive system by placing the duty of examination where it solely belongs—in the hands of the municipal commission, but that permitted non-competitive examination in the case of the two highest positions in each department. The rules as thus amended were approved, but an effort to break down the competitive classification of subordinate offices is now making in the courts.

Investigations

A number of alleged violations of the civil service law in the city and county service has been brought to the attention of the State Commission during the year, and in several cases the Commission has called attention of the local authorities to irregularities and evasions and it reports its findings herewith. This is the extent of its authority in the matter, except as it may in an extreme case remove a local board which may have authorized such violation. The most serious charge which it has had under review is that made by the Civil Service Reform Association against the clerk of New York county. The latter is accused of having made certain transfers and appointments to clerical positions in his office on account of political considerations. The clerk declares that he is not guilty of the offense charged, and the matter is now under investigation by the Commission.

A flagrant case of attempted fraud upon the civil service law occurred at an examination for chainman held at the city of Utica in January. It was brought to the attention of this Commission that a candidate who had in his own behalf entered

Digitized by Google

the examination for the position of engineer had impersonated a friend in a subsequent examination of candidates for the position of chainman. As a result the name of the person who was impersonated was placed upon the eligible list. The Commission at once suspended certification of the name of the beneficiary of the fraud from the list, cited him to appear and answer, and placed evidence of the fraud in the hands of the Utica city attorney. The latter entered upon the prosecution with dispatch, the principal in the conspiracy was arrested, and, upon being arraigned for examination, pleaded guilty and was fined $150. The name of his accomplice was removed from the eligible list and both were ordered barred from future examinations. This is the first case of impersonation in an examination that has been prosecuted by the State Commission, and the result cannot fail to have a most salutary influence in protecting the integrity of examinations conducted under the civil service law. For its prompt and successful prosecution, credit is due to the Utica city attorney, and also to the secretary of this Commission, Mr. John C. Birdseye, who collected the evidence and represented the Commission throughout the proceeding.

Amendments to Municipal Rules

Pursuant to section 10 of the civil service law, and upon the presentation of evidence as to the need and propriety of such action, amendments to the rules and regulations governing the Civil Service of the following named cities have been approved during the year: Albany, Binghamton, Buffalo, Fulton, Geneva, Lockport, Mount Vernon, New York, Olean, Rochester, Rome, Schenectady and Watertown. Proposed amendments to municipal rules have been returned without approval in the case of the

Digitized by Google

following named cities: Binghamton, Elmira, New York, Plattsburg, Rochester and Schenectady. On March 4th the Commission approved a complete revision of the rules for the city of Geneva, which now, it is believed, embody all the requirements of the law and provide for a civil service administration along the most approved lines.

The State Commission, in pursuance of its plan to keep in touch with the municipal civil service commissions, and thus promote a more intelligent and uniform execution of the law, has made official visitation during the year of the following named cities: Amsterdam, Binghamton, Cortland, Fulton, Geneva, Gloversville, Johnstown, Kingston, Little Falls, Middletown, Mount Vernon, Newburgh, New Rochelle and Ogdensburg.

The Commission finds as a rule that the members of the municipal civil service boards, most of whom serve without pay and without adequate provision for expenses, endeavor conscientiously to discharge the duties of the office, and are invariably ready to act upon the suggestions of the State Commission as to interpretation of the law and as to methods of procedure. The duties of these officers are not onerous, though important, and it appears that in a number of the cities public spirited citizens are ready to assume them without compensation, but it would seem that the prompt and efficient administration of the law and respect for its authority would be secured by more reliable provision for expenses and for the compensation of the secretary at least of each board.

Appendices

The appendices which follow this report contain, among other things, the report of the chief examiner, and the statistical tables concerning examinations, appointments, removals, resignations,

Digitized by Google

etc., to which attention is particularly invited; also table showing the number of positions classified in each department and institution, with the exception of laborers, amendments to municipal civil service rules, amendments to State Civil Service rules and regulations, special reports, court decisions, opinions of Attorney-General, rulings of the Commission, and roster of State and county employees.

Conclusion

The Commission in conclusion gratefully acknowledges the assistance it has received from Secretary Goodwin of the Civil Service Reform Association, and from others, in the enforcement of the civil service law and rules. It also desires to place upon record its appreciation of the courtesy extended by the newspapers in publishing without compensation information as to its work and notices of its recurring examinations. The people of the State incorporated in their constitution the competitive merit system of appointment to office. In emergencies threatening its existence or efficiency and a return to the evils of the former patronage system, they have not failed to make known their will that it must be sustained. For the constant popular support which the law should have, if it is to be given its full effect, reliance must be had, however, upon the informing and awakening power of the organized friends of the system and of the newspaper press.

Respectfully submitted,

CUTHBERT W. POUND,
JOHN E. KRAFT,
CHARLES F. MILLIKEN,

CHIEF EXAMINER'S ANNUAL REPORT

ALBANY, N. Y., *December* 31, 1904

To the State Civil Service Commission:

GENTLEMEN—I have the honor to submit the following report of the examination division for the calendar year 1904:

Organization of the division

No changes have occurred during the year in the permanent staff of the examination division. Temporary examiners in the office were employed during the examinations for civil engineering positions as follows: Miss E. Christina Race from January 26th to March 31st at $75 per month and Miss Anna E. Fletcher from January 30th to March 9th at $60 per month.

Special expert examiners outside of the Commission's regular staff have been employed for work in architecture, bookkeeping, civil engineering, Latin, law, library science, medicine, pharmacy, science and social science. The total cost for this work for the fiscal year ending September 30, 1904 was $1,175.77. This amount is substantially the same from year to year and probably represents a minimum for this kind of work. As it would not equal the salary of a single permanent examiner in any one of the subjects mentioned, it is evident that it is more economical to employ from time to time such experts as are needed for work that cannot be well done by the permanent staff of examiners than it would be to increase the staff.

Open competitive examinations

The feature of the year's work in competitive examinations has been the large examinations held for civil engineering positions on the barge canal work. These have included eighteen separate examinations for which 2,494 candidates were notified and 2,169 examined. Of those examined 825 were successful and 1,344 were unsuccessful. By the co-operation of the United States Civil Service Commission, which delegated its local examiners to our service, we were able to hold the examinations in nearly fifty places outside of New York State, reaching from Bangor and Duluth on the north to Savannah and Nashville on the south. A total of 316 applicants were provided for in this way. The positions covered by these examinations were mainly those for which the Commission had held previous examination and therefore had well established requirements and precedents. Such positions are assistant civil engineer, leveler, rodman, chainman, civil engineering draughtsman, bridge designer, bridge draughtsman, junior bridge

Digitized by Google

draughtsman and tracer. In addition to these positions new examinations were held for the following positions:

Resident Engineer. The barge canal law provides for the appointment of resident engineers and the State Engineer in his request for examinations stated that he expected to fill about fifteen such positions at $2,400 a year. The competition was limited to civil engineers of at least five years' experience, three years of which must have been in responsible charge of work. They were not assembled at any place for examination but were rated upon their experience, education and personal qualifications as shown by their own statements and the answers to inquiries made by the Commission from their previous employers and superiors and upon two theses written by the candidates, one of which was to be a report upon some work of importance carried out under the charge of the candidate and the other a discussion of some assigned topic relating to the problems to be handled in the construction of the proposed barge canal. The theses were rated by Messrs. E. R. Cary and T. R. Lawson of the faculty of the Rensselaer Polytechnic Institute. From the nature of the test the individual judgment of the examiners must be relied upon in the matter of the rating, and although many of the candidates appealed from the rating of the theses, the re-examination of the papers on which appeals were taken resulted in only slight fractional changes from the original ratings and demonstrated that the original rating was substantially correct. The general subject of experience was given a weight of 50 per cent. in rating the examination and on account of the large number of candidates it was necessary to reduce this part of the rating to an exact standard and a very severe standard was warranted by the large number of candidates and by the excellent experience records

Digitized by Google

given by the best of them. I undertook this rating personally and after some study of the records submitted settled upon the following scheme:

Age, maximum, 20.

Length of experience, maximum, 30.

Special experience, maximum, 10.

Salary, maximum, 20.

Answers to letters of inquiry, maximum, 20.

No rating was given for education, either general or special, as after a consideration of the general character of the candidates' experience it seemed clear to me that the best of the men had so much and so good experience that they must have discounted whatever differences there might have been in their education and that it would be fair to neglect this element altogether. The other special qualifications were rated as follows:

1. *Age.* The maximum of 20 was allowed for ages from 35 to 50 inclusive. Other ages were given ratings indicated below:

34=19	51=19
33=18	52=18
32=17	53=17
31=16	54=16
30=15	55=15
29=12	56=13
28= 9	57=11
27= 5	58= 9
26= 0	59= 7
	60= 5
	61= 3
	62= 0

Digitized by Google

2. *Length of experience.* In estimating the length of experience no rating was given for work in the state service below the grade of rodman, and in comparing experience outside of the state service with that in the state service the salary earned was accepted as the best indication of the character and responsibility of the work done and no credit was given for any experience which did not pay over $90 per month, which is an equivalent of the lowest salary paid rodmen in the state service. For experience above this grade a maximum of 30 was allowed for 20 years' experience and a variant of 5 was reserved for the estimate of the examiner as to the value of the experience for each period rated. The maximum and minimum for each period of experience is shown in the table below:

	According to value
20 years	30—25
19 years	29.5—24.5
18 years	29—24
17 years	28.5—23.5
16 years	28—23
15 years	27—22
14 years	26—21
13 years	25—20
12 years	24—19
11 years	23—18
10 years	22—17
9 years	20—15
8 years	18—13
7 years	16—11
6 years	13— 8
5 years	10— 5
4 years	6— 2
3 years	2— 0

Digitized by Google

3. *Special experience.* A maximum of 10 in addition to the rating given for length of experience was allowed to candidates whose papers showed that they had experience in responsible charge of work especially related to the problems to be solved upon the canal. The basis of this rating according to the length of time covered by such experience is shown below, and in cases where there was doubt as to the responsible charge of a candidate of the work stated, less than the amount shown in the table was given for the corresponding length of the special experience.

Maximum additional credit for direct experience in canal, hydrographic, dock, drainage and reservoir engineering, etc.:

7 years=10	3 years= 7
6 years= 9.5	2 years= 5
5 years= 9	1 year = 3
4 years= 8	

4. *Salary.* This was rated upon the average salary for the last three years. The grading for the different average salaries was as follows:

$200 per month or over, 20
175 per month, 17
150 per month, 12
125 per month, 7
100 per month, 2

5. *Answers to letters of inquiry.* Where the letters received were direct recommendations of excellent capacity in the charge of important work, without reservation, recommending the candidate for the position in question, they were rated as "direct and excellent" and the maximum of 20 was given. Other letters were rated according to their value in the opinion of the examiner and

Digitized by Google

classified as high, good, fair, etc., no exact rating being attached to these different valuations, but letters which recommended the candidate generally as a good engineer without specific assertion as to his capacity for charge of work, etc., were estimated as "good" with a rating of about 15. Letters which disclosed some defect of habits, temperament or character were rated comparatively low.

The sum of the ratings under these different headings constituted the rating for experience.

Mechanical Engineer and Draughtsman. This examination was called for the selection of a mechanical engineer to have charge of the drafting and designing of the various mechanical appliances in connection with the locks and bridges for use on the barge canal and the salary was fixed from $1,500 to $1,800. Questions for examination were prepared by Prof. H. Wade Hibbard of Cornell University, who rated the papers of the written examination. The examination was a very severe one but the best of the candidates received satisfactory ratings.

Foreman of Borings. At a later date an examination was called for the position of foreman of earth borings and foreman of rock borings to take charge of the boring parties sent out to determine the nature of the soil and rock to be handled in the construction of the barge canal, in order that the engineer's estimates might be as near as possible to the actual conditions existing upon each contract. For these positions candidates were not required to appear at any place for examination but were rated upon their experience, education and personal qualifications as disclosed by their applications and detailed experience statements and the replies received by the Commission to letters of inquiry sent to their former employers.

Bridge-Draughtsman. Difficulty was experienced in securing a sufficient number of qualified applicants for bridge draughtsmen and bridge designers who would accept the salaries offered by the state engineer and repeated examinations were held for both positions until a sufficient number was obtained.

Medical Examinations. Another important change in our methods of examination was the appointment by the conference of superintendents of state hospitals of a committee consisting of Superintendent Pilgrim of the Hudson River State Hospital, Superintendent Hurd of the Buffalo State Hospital and Dr. Russell, medical inspector of the State Commission in Lunacy, to revise the schemes of examination, prepare questions and rate the candidates for medical positions in the state hospital service. Incidentally the committee was to devise means for securing broader competition for these places. We have surrendered the examination wholly to the committee and they have given a great deal of labor to the work. In some cases they have made out to see each candidate personally and obtain additional information concerning his experience and personal qualifications by interview. I believe the result of the committee's work has been satisfactory to the superintendents generally except in the way of securing greater competition for the medical positions. The competition is small and the eligible lists are rapidly depleted by appointments. I think the only cure for this condition is a substantial increase in the compensation for the medical service which is now comparatively much smaller than is allowed in the ward service or the mechanical departments of the hospital. The increase in the compensation allowed for apothecaries and engineers has resulted in a great increase in the number of applicants and a substantial improvement in the quality of the eligible lists. Since

the appointment of the committee of superintendents they have prepared and rated two examinations for physician, sixth grade; three for physician, fourth grade, and two promotion examinations for first assistant physician, involving a total of seventy-five candidates.

Examinations for the State Hospital for Tuberculosis at Ray Brook. Three special examinations have been held for positions at the new state hospital for the treatment of tuberculosis at Ray Brook. An examination for the superintendent of the institution was held at Albany, February 12 and 13, the preliminary requirements being those laid down in the statute governing this institution and the examination covering experience, a written examination in general medicine, hospital administration, pathology, bacteriology and therapeutics of pulmonary tuberculosis, dietetics and sanitorium treatment, and a practical examination covering microscopic examination of specimens of sputa and actual physical examination of patients for diseases of the chest. The results of the practical examination were completely written out by the candidates so as to form a perfect written record of his examination. The examination was prepared by Dr. Samuel B. Ward and carried out at the Albany Hospital, which kindly granted its facilities for the purpose. In May an examination for resident physician was held at Albany which included a written examination in anatomy, physiology, materia medica, therapeutics, chemistry, theory and practice, pathology of pulmonary tuberculosis, bacteriology and descriptive laboratory methods, and a practical examination in the physical diagnosis of diseases of the chest and the examination of sputum, blood, urine and other pathological material. Dr. Ward prepared this examination also and the practical examination was conducted at the Albany Hospital. On

May 21 an examination for the position of matron and superintendent of nurses was held to fill the combined position at the Ray Brook Hospital.

New Examinations. Other new or unusual examinations held during the year were for barber examiner, superintendent of the state reservation at Niagara, photographic assistant at the pathological institute, librarian of the court of appeals law library in Syracuse, inspector for the state board of pharmacy, assistant state geologist, assistant in biology and histology, heating engineer in the state architect's office, assistant secretary in the office of the commissioner of elections for Erie county, resident physician and organist and guide at the state industrial school, and preparator in the office of the state paleontologist.

Clerks. On the occasion of the recent examination for clerks a further development of the scheme of graded examinations was made by allowing candidates for positions of junior clerk and clerk to enter the same examination and have their names entered upon both eligible lists, if desired, but limiting certification for positions at salaries of $480 or less to the junior clerk list. The preparation of the eligible list is considerably simplified in this way and persons over twenty-one years of age are made eligible for minor positions if they care to accept them. Under the former arrangements the junior clerk list was strictly limited to persons under twenty-one. By the new arrangements persons under twenty-one are eligible for junior clerk only, persons over twenty-one who are willing to accept salaries of $480 or less may have their names placed upon the eligible lists, and those who will not accept the small salaries have their names placed upon the clerk list only and are saved the annoyance of repeated certification and inquiry concerning positions at low salaries.

Methods. In developing the methods of examination we have given more attention to the rating of experience, including education, personal history and special qualifications and we are inclined to give more and more weight to this element in examinations. Experience should be given a relatively high weight in those cases where direct experience in the work to be done for the state can be gained in outside employment. Where no such direct connection exists between the work done commercially and that to be done for the state, experience is not so valuable a criterion of qualification and the rating in the examination must depend more upon a test of general ability along the lines of knowledge required for the duties of the position. For example, there is no way that a person can learn the routine of duties of a prison guard outside of the public service and therefore few candidates have any experience directly in line for the work to be done. The same is true of many other positions. The duties of a steam or electrical engineer, however, are substantially the same in the state service as out and experience is therefore specially valuable as a criterion of the merit and fitness of the candidate. In fact, for many positions involving a knowledge of established mechanical trades or professional attainments in recognized professions, practically the whole rating in the examination can safely be made to depend upon the experience, education and special training of the applicant. This plan has been pursued by the federal commission to a great extent, especially in connection with positions in mechanical trades and in the custodian service in public buildings situated throughout the country. For all this class of positions they rate the candidates only upon their experience, age and physical condition, and I believe that the further development of this plan of examination will open the way for competitive tests for many positions which have heretofore been

Digitized by Google

placed in the non-competitive class because they were not highly compensated and because the personal element was paramount in determining the fitness for appointment, including especially large classes of positions which are easily filled by persons of very limited general education and fitness for which depends almost entirely upon physique, temperament, experience and knowledge of certain mechanical trades or employments. With the facilities at our disposal for conducting this kind of examination, I think the Commission may well consider whether competitive tests cannot be successfully carried out for many positions of a minor grade which have heretofore been deemed below the competitive class and placed in the non-competitive class, mainly on account of their limited compensation.

Non-Residents. Under the provisions of Rule IX, Section 2, and Regulation X, non-residents and non-citizens have been admitted to examinations for the higher civil engineering, scientific and trade positions in cases where the previous experience of the Commission or the special nature of the examination indicated that there was uncertainty of securing sufficient qualified candidates who were residents and citizens of the state. I think it is a wise provision which allows the Chief Examiner discretion in this matter and the present regulation avoids the possibility of abuse by giving preference to those who are residents and citizens of the state whenever there are three or more such persons eligible.

Repeated Examinations. On account of the lack of qualified applicants who would accept appointment, due in most cases to the low compensation offered, it has been necessary to repeat examinations within the year in many cases, including the following: Guard, Elmira Reformatory, 2 examinations; pupil nurse,

Erie County Hospital, 6; apothecary, 6; assistant electrical engineer, 2; assistant steam engineer, 3; physician, fourth grade, regular school, 5; physician, fourth grade, Homeopathic school, 2; physician, sixth grade, regular school, 3; physician, sixth grade, Homeopathic school, 3; teacher, 2; woman officer, 4; assistant civil engineer, 2; bridge designer, 3; bridge draughtsman, 4; stenographer, state hospitals and institutions, 3; library assistant, 2; male officer, 2; architectural draughtsman, 3; physical instructor, 2.

Promotion examinations

There is a steady increase in the demands upon the Commission for competitive promotion examinations, as appointing officers recognize the propriety of filling higher positions by promotion of those whom they have already in their employment and whose personal qualifications are therefore well known to them. There have been twenty-one such examinations, involving sixty-two candidates during the year. In most cases, of course, the competition for these places is small as the subdivision of the state service into a great many small departments limits the number who are eligible for any particular promotion. In the proposed revision of the promotion rule it might be well to consider whether some general system can be devised for opening promotions more frequently to persons who are in the same line of work, but in other departments or institutions. Among the important positions so filled are those of kitchen keeper, yard keeper and storekeeper in State prisons; first assistant physician in State hospitals; chief of law division, education department; steward, Rome State Custodial Asylum; medical superintendent, Dannemora State Hospital; administration clerk and first assistant administration clerk, Surrogate's office, New York County.

Provisional examinations

A total of 55 persons have been examined and appointed provisionally in the absence of an eligible list under the provisions of Rule VIII, Section 4. It is impossible to foresee the needs of the service so as to provide eligible lists in advance for new positions created and it frequently occurs that an eligible list apparently ample for some time is suddenly exhausted by the declination of all or nearly all the eligibles to accept a position when offered. In such cases every effort is made to establish an eligible list within the two months allowed by the law and such effort would be successful in nearly all cases if the examination division were apprised of the necessity for provisional employments as soon as it is known to the appointing officer. Such notice is frequently delayed from two to four weeks after the beginning of provisional employment, and it has not always been possible to provide the lists within the time limit. In such cases there would seem to be no practicable course for the Commission to pursue other than to allow the provisional employment to continue until an eligible list can be prepared. The difficulty in most cases arises under a ruling of the Commission adopted in 1900 and printed on page 250 of the report for that year allowing certification of payrolls from the date of the nomination for provisional appointment. If this ruling were modified so as to provide for certification from the date of *receipt* of the nomination by the Commission most of the difficulty referred to would be avoided.

Non-competitive examinations

The non-competitive examinations held during 1904 include 2,624 persons examined by the local boards of examiners in the

various institutions and 62 by the Commission's staff for original appointment to non-competitive positions, and 20 persons examined non-competitively for promotion in the Department of Education under special ruling of the Commission to carry out the provisions of the law consolidating the former departments of the Regents and Superintendent of Public Instruction. In my opinion comparatively few of the persons so appointed or promoted on non-competitive examination would measure up to the standard required in competitive examinations for positions of similar grade and still less of them would have been high enough to be reached for appointment on competitive eligible lists. This is especially true of the higher grade positions which have recently been put in the non-competitive class, such as the clerks and searchers in the New York county clerk's office, bank examiners, and court crier. I recommend to the Commission a careful revision of the present non-competitive classification, with a view to the restoration to the competitive class of a large proportion of the positions now contained in it.

Appeals

During the year 1904 the Commission has considered 63 appeals with the results shown in the following table:

Class of examination	Competitive	Non-competitive
Total number of appeals	55	8
Number dismissed	30	3
Re-examinations granted	.....	5
Successful in re-examination	.....	2
Unsuccessful in re-examination	.....	3

In five of the cases, including three of the seven who were made eligible as a result of their appeals, the only changes in rating were based upon a revision of the markings of the entire examinations for assistant civil engineer and leveler brought about by the appeals of the five candidates. The number of cases in which appeals made any difference in the chances of appointment was less than two-tenths of one per cent. of the whole number of persons examined. This record indicates that the work of the Commission's examiners is very well done on the whole and is as free from error as can be expected, considering the great number and variety of questions and answers involved. One principle that should be borne in mind in considering appeals is that it is not fair to substitute the judgment of a new examiner for that of the original examiner as to the value of a partially correct answer unless the original rating is so far in error as to create a presumption that the original examiner did not correctly comprehend the answer or else made a palpable error in assigning or recording the value of it. The original examiner has before him the papers of all the candidates and presumptively applies the same scheme in rating them all, and unless there is evident error in a single rating or a radical defect in the scheme used of such a serious character as to demand a re-rating of all the papers, changes in rating should not be favored on appeal.

Municipal Inspection

During the year I have made inspections of the records of the municipal civil service commissions and of the administration of the civil service law and rules in the cities of Amsterdam, Gloversville, Johnstown and Little Falls, of which special reports have been presented. I also assisted the Secretary in his inspection

at Yonkers. These inspections are universally welcomed by the municipal authorities and they give opportunity for counsel and suggestion of improvement in method and instruction as to the provisions of the law. They will be continued by the Secretary and myself as opportunity offers to all the cities of the State.

Expenses

The funds for the examination division for the fiscal year ending September 30, 1904, other than those for salaries, are accounted for as follows:

Expenses of chief examiner

Appropriation and balance, October 1, 1903		$684 57

ent, was again considered, together with communication from Ansley Wilcox, dated April 1, 1904, and report of a special committee of the Buffalo civil service reform association under date of March 31, 1904, relative thereto. On motion the following resolution was adopted:

Resolved, That the application of Martin Heilbronn, superintendent, Erie county almshouse, under date of February 10, 1904, for the classification in the exempt class of the position of farm superintendent, be and hereby is denied.

(April 7, 1904.)

Forest, fish and game commission

A communication from D. C. Middleton, forest, fish and game commissioner, dated June 3, 1904, applying for the classification in the exempt class of the positions of two oyster protectors, was read. On motion it was

Resolved, That the secretary be directed to notify Commissioner Middleton that there is nothing in his application which shows that a non-competitive examination for the position is impracticable; that the reasons given by him why a competitive examination is not practicable, to wit, that difficulty might be experienced in selecting a person qualified to perform the arduous and manual labor necessary, may be met by establishing a standard of physical ability which is satisfactory to the commissioner.

(June 3, 1904.)

District attorney, Kings county

Communications dated June 2, 1904, from District Attorney Clarke, Kings county, and Joseph A. Burr, as counsel for the Kings county civil employees association, were read, requesting that the positions held by ten county detectives in the office of the district attorney be transferred from the exempt to the competitive class. On motion the communications were ordered placed on file and the following memoranda adopted:

The Commission has ruled in several cases in accordance with what seems to be the ruling of the court of appeals, that the position of county detective is properly in the exempt class; that if the district attorney has other officers employed under that title

opportunity to compete in an open competitive examination for the position of surgeon at the soldiers and sailors' home, was read. On motion, the letter of Dr. Burdick was ordered placed on file and the secretary was directed to inform him that the civil service law and rules do not entitle a person outside the service to be examined for a position which can be filled by promotion.

A communication from Commandant Ewell, soldiers and sailors' home, Bath, dated April 25, 1904, requesting approval of the promotion of Dr. Clayton K. Haskell from the position of assistant surgeon at $1,200 per annum, to the position of surgeon at $1,800 per annum, was considered. On motion, the following resolution was adopted, Dr. Gerold, the only other person entitled to said promotion, having waived his rights thereto:

Resolved, That the promotion of Dr. Clayton K. Haskell from the position of assistant surgeon at $1,200 per annum, to that of surgeon at $1,800 per annum, soldiers and sailors' home, Bath, be and hereby is approved under the provisions of civil service rule XIV, subdivision 9.

Health officer, town of Grafton, N. Y.

A communication from A. B. Jones, secretary, board of health, of the town of Grafton, N. Y., requesting waiver of the two year requirement in the case of Dr. Millard Shafer, an applicant for the position of health officer, was considered. On motion the application was denied for the reason that the Commission has no authority to waive the provision of the rule. The chief examiner was, on motion, directed to hold the necessary competitive examination, if requested, and to advise Mr. Jones that pending the holding and reporting of the examination Dr. Shafer may be nominated for provisional examination.

Assistant to advisory board of consulting engineers

Resolved, That the request of State Engineer Bond to assign William B. Landreth, resident engineer, to act as assistant to the advisory board of consulting engineers for the construction of the barge canal, with increase in salary by the sum of $1,500 per annum for extra work performed by him as such assistant, be and hereby is approved, provided the other resident engineers in the department of the state engineer and surveyor waive their rights to compete for said position.

(Adopted May 6, 1904.)

Secretary of commission authorized to approve certain promotions

The Commission adopted the following directions to the secretary as to what promotions he should bring before the Commission for action:

In cases where the promotion does not conflict with the rights of any other person to promotion or to enter a promotion examination, the secretary may, upon satisfactory evidence that there is no change in duties but merely an increase in salary, approve the same; but in other cases the secretary will present the matter to the Commission.

Ruling relative to promotion without examination

Communications dated May 9 and 12, 1904, from Jacob Brenner, commissioner of jurors of Kings county, requesting the approval of the promotion of Christopher Byrnes, clerk, from $1,200 to $1,300 per annum, to take effect May 1, 1904, were submitted. On motion the secretary was directed to call the attention of Commissioner Brenner to section 15 of the civil service law, which provides that an increase in salary beyond a grade shall be deemed a promotion, and to inform him that for this reason the

Special deputy state engineer and surveyor

Communications from H. A. Van Alstyne, state engineer and surveyor, dated May 13, 25 and 26, 1904, in relation to the promotion of Henry C. Allen to the position of special deputy state engineer and surveyor, were read. On motion the following resolution was adopted:

Resolved, That the promotion of Henry C. Allen, resident engineer, $2,400 per annum, to the position of special deputy state engineer and surveyor, $5,000 per annum, to take effect May 12, 1904, be and hereby is approved, without examination, it appearing that for original entrance to the position to which promotion is made there is not required an examination involving essential tests or qualifications different from or higher than those required for the position of resident engineer, and it further appearing that Resident Engineers Landreth and Wilbur have waived their rights to compete for said promotion.

Junior clerks

Resolved, That the scheme of examination for the position of junior clerk be amended to read as follows:

"Candidates must be between sixteen and twenty-one years of age at the time of examination and also at the time of appointment. They will be eligible for original appointment at salaries not exceeding $480. Promotion from the position of junior clerk to that of clerk will be allowed under the rules governing promotion when the appointee shall have attained the age of twenty-one years. Eligibles becoming twenty-one years of age during the period of eligibility will be transferred to the clerk list with the same rating."

Resolved, That persons will not be eligible for transfer to the position of junior clerk under the provisions of rule XV, subdi-

Request for promotion examination denied, Rome state custodial asylum

A communication from Charles Bernstein, acting superintendent, Rome State Custodial Asylum, dated May 4, 1904, requesting the Commission to hold an examination of firemen (non-competitive class) at said institution, for promotion to the position of assistant engineer (competitive class), was considered. On motion the following resolution was adopted:

Resolved, That the application of Dr. Bernstein be denied on the ground that the firemen can enter the open competitive examination for assistant engineers on terms of equality with others and that there is no reason for giving them preference.

Account for extra services of laborer, comptroller's office

A communication from Comptroller Kelsey, dated May 14, 1904, submitting for approval a bill of Michael T. McGrath for extra services as laborer in the comptroller's department, was read, together with an opinion upon the matter submitted by the attorney-general upon request of the Commission. The attorney-general held that the provisions of chapter 521 of the laws of 1901

do not apply to laborers, and that as the papers submitted failed to show any agreement by or with the state upon the part of Mr. McGrath to perform the services for which he asks compensation, section 3 of the labor law would not prevent his obtaining pay for the work performed. On motion the secretary was directed to ask the comptroller to furnish evidence that there was no agreement or contract with Mr. McGrath that he should receive pay for the work performed by him out of and beyond the hours when he was employed as laborer by the department, and upon receipt of such evidence to approve the account of Mr. McGrath in accordance with the opinion of the attorney-general.

Change in title of employee of commissioner of records, Kings county, denied

A communication dated May 19, 1904, from G. E. Waldo, the then commissioner of records of Kings county, requesting that the designation of Peter J. Kenna be changed on the official roster of the office of the commissioner of records from messenger to clerk, was considered. On motion the secretary was directed to inform the commissioner of records that if Mr. Kenna has been employed under a title not appropriate to the duties to be performed, his employment has been illegal under section 13 of the civil service law, and the Commission has no power to validate such employment or to change the title so as to make it appropriate to the duties performed in the future, without condoning the violation of the law as to the employment of Mr. Kenna in the past.

Employment of street sweepers, city of Troy

President Pound, to whom had been referred several communications from A. J. Nugent, Troy, N. Y., relative to the administration of the civil service law and rules in said city in the matter of the employment of street sweepers by contract, reported and recommended that the municipal civil service commission, the corporation counsel, the commissioner of public works and the city treasurer be advised that if it is claimed that the employees in the street department who render personal services under an agreement to be paid by the piece, are not subject to the civil service act and rules but have a contract engagement outside of the rules, it is the opinion of the State Civil Service Commission that no such distinction between an "employment" and a "contract engagement" could be maintained. A case which the law intends to include is not to be taken out of it, nor taken from the class in which it belongs and put in another, merely by the form under which the person may be selected or engaged for the service, especially if such form is adopted for the purpose of evading the law. If the position is a position of employment, in the sense of the statute, the precise form of the contract of employment is immaterial.

On motion the report was adopted.

Resident engineers

The secretary stated that he had received from the State engineer notice of the appointment of Fred W. Sarr and Guy Moulton as resident engineers; that Mr. Sarr's name appeared seventh upon the eligible list and Mr. Moulton's ninth upon the list; that Moulton had heretofore been employed in the department of the state engineer as first assistant engineer at $7 per day, and Sarr as assistant engineer at $6 per day. On motion the secretary was directed to accept the appointment of Mr. Moulton as a promotion from the next lower grade, he being the only first assistant engineer upon the list for resident engineer, and to refuse to recognize the appointment of Mr. Sarr until such time as his name is reached in the regular order of certification.

"Whereas, Only one application for assistant engineer was filed, only three applications for chainman were filed, and only three applications for levelers were filed; and

"Whereas, Two levelers and one chainman and one assistant engineer are to be appointed;

"Resolved, That pursuant to rule 40 of the rules for the classified service of Watertown, N. Y., the names of all the applicants be certified and appointments be made therefrom."

On motion the following resolution was adopted:

Resolved, That the municipal civil service commission of the city of Watertown be informed that under its rule No. 40 the action taken by it was unauthorized and that in the opinion of the State Commission a non-competitive examination should have been given to the one applicant for assistant engineer; that all the applicants for chainman and leveler should have been allowed to compete for the purpose of having their names upon the eligible list, and that in no event should an appointment be made without examination.

Civil Service Rules of the city of Geneva, N. Y.

Pursuant to the statutes of the State of New York, providing for examination to ascertain and determine the merit and fitness of persons seeking to enter the civil service of the State of New York and the cities thereof, and the regulation of the same, we, A. L. Sweet, William O'Hanlon and Perry Jacobs, duly appointed by the mayor of the city of Geneva to prescribe, amend and enforce rules for the classification of the offices, places and employments in the classified service of the said city of Geneva, and for appointments and promotions therein and examination therefor, do hereby prescribe the following rules for the classification of the offices, places and employments in said classified service, and for the registration and selection of laborers for employment to the said service which shall take effect when approved by the State Civil Service Commission.

Rule I

Application of rules

These rules shall apply to all positions in the public service of the city of Geneva, with the exception of those hereinafter enumerated in the unclassified service.

Rule II

Municipal civil service commission

For the purpose of ascertaining the merit and fitness of persons seeking or named for positions in the departments and offices of the municipal government to which these rules apply, there shall be a municipal civil service commission, which shall be composed of three citizens of the city of Geneva, designated and appointed by the mayor, each of whom shall be known as a Civil Service Commissioner of the city of Geneva, and not more than two of whom shall belong to the same political party. The mayor may, at any time, by filing with the city clerk a written notification of the change, appoint another citizen in the place of anyone so desig-

nated. The Commissioners shall serve without pay, and the mayor shall detail or employ a clerk, who shall act as secretary of the Commission, and whose compensation shall be fixed by the common council. It shall be the duty of such commission to conduct all examinations called for under these rules to ascertain the merit and fitness of candidates for admission into the civil service of the city in respect to character, knowledge and ability for the particular branch of the service into which they seek to enter; to estimate and determine the relative excellence or standing of the persons examined, and to certify the same in such manner and form as may be prescribed.

The secretary of the Commission shall keep the minutes of its proceedings and all necessary records of applicants, their examinations and standings, and a complete record of all persons employed in the several departments and offices to which these rules apply, and of all appointments, promotions, transfers, dismissals, resignations and changes of any sort therein.

The Commission shall prescribe and enforce suitable regulations for carrying into effect the provisions of these rules, the civil service law and section 9 of article 5 of the Constitution, not inconsistent therewith, and shall prescribe blank forms for all applications, certificates, reports, records and returns required under these rules and the regulations prescribed thereunder.

RULE III

Classification of positions

The civil service of the city of Geneva is divided into the unclassified service and classified service.

The unclassified service includes:

First, all officers elected by the people; second, all election officers; third, the head or heads of any department or office of the city government; fourth, persons employed in or who seek to enter the public service as superintendents, principals or teachers in the educational department of the city.

The classified service includes all positions not in the unclassified service. The positions in the classified service are hereby classified into four classes to be known as the exempt class, the competitive class, the non-competitive class and the labor class.

Digitized by Google

RULE IV

Exempt class

The exempt class shall include:

First, the deputies of principal executive officers authorized by law to act generally for and in place of their principals; second, one secretary to each officer, board or commission, authorized by law to appoint a secretary; third, one clerk, and one deputy clerk if authorized by law, of each court, and one clerk of each elective judicial officer; fourth, such other position as are specially named in the schedule hereunto annexed as the Commission may deem it impracticable to fill by competitive or non-competitive examinations. No office or position shall be deemed to be in the exempt class unless it is specially named in such class in schedule hereto annexed. Not more than one appointment shall be made to or under the title of any such office or position, unless a different number is specifically mentioned in such schedule.

The appointments to positions comprised in the exempt class may be made without examination under these rules but an examination may be held upon the request of the appointing officer. Appointing officers must notify the municipal civil service commission, in writing, of all appointments to such positions within five days after same are made, setting forth the full name of such appointee, date of beginning of service and term for which appointed, salary, and the name of person in whose place appointed; all of which shall be duly certified by the appointing officer. In these rules the term "appointing officer" shall be construed to include any person, board or commission having the power to appoint to any position in the civil service of the city of Geneva.

RULE V

Application for examination—competitive class

Applications of competitors for positions included in the competitive class must be addressed to the municipal civil service commission of the city of Geneva, at the office of the city clerk. The application must be in the handwriting of the applicant and must state under oath:

1. His full name and residence, giving street and number.
2. His term of residence in the city of Geneva.

3. His citizenship.

4. His age, giving date of birth.

5. His place of birth.

6. His previous employment in the public service, if any, and whether he has ever been discharged therefrom, and if so, the reason thereof.

7. His health and physical capacity for the public service.

8. His business or employment and residence for the last preceding five years.

9. The extent, place and nature of his education.

10. If in the military or naval service of the United States in the late civil war, the name of the organization or vessel to which attached, date of enlistment or commission, position or rank, date and cause of discharge from the service, and any physical disability incurred in such service.

Such other information must be furnished as the Commission may reasonably require touching the applicant's fitness for the public service. The application must be accompanied by the certificate of not less than two or more than four reputable citizens of the city, that they have been personally acquainted with the applicant for at least one year, and believe him to be of good moral character, of temperate and industrious habits, and in all respects fit for the service which he wishes to enter, and that they are willing such certificates shall be published for public information, and will, upon application, give such further testimonials in regard to such applicant as may be required. The applicant must also state in his application the position he seeks. Where the applicant is a non-resident, but eligible for appointment under the provisions of rule XIX, one of the citizens making the certificate herein above referred to, may be a resident of the applicant's place of residence. Application forms shall be furnished to intending applicants, upon personal or written request, at the office of the city clerk.

RULE VI

Defective applications—age qualification

Defective applications may be suspended by the Commission and applicants notified to amend the same, but the Commission

Digitized by Google

need not give such notice or grant such opportunity a second time. Whenever the application does not show that the applicant is within the prescribed limits of age, and is otherwise qualified under the rules, the application will be rejected. All candidates shall be at least twenty-one years of age and not more than sixty-five years of age at the date of their examination, except as hereinafter prescribed in rule XXXI, and except that candidates for the position of clerk, bookkeeper, stenographer or typewriter shall not be less than eighteen years of age. Whenever it may be deemed desirable, in case of candidates for other positions, the age limit may be reduced below twenty-one years by the Commission, but such reduction shall be general and apply to all applicants, and the reasons for the same shall be set forth in the minutes of the Commission.

RULE VII.

Notification of examination

Whenever the demands of the service may require, the Commission will notify by mail, all applicants whose applications have been filed and are on record, to appear for examination, giving at least five days notice of the place, date and hour for such examination.

The place and date of each competitive examination and any other material information in regard thereto will be posted on the bulletin board of the city clerk in the city of Geneva, at least five days prior to date of the examination. When deemed expedient by the Commission, advertisement of examination will be made in a newspaper of the city of Geneva, but the notice posted on the bulletin board as above provided shall be the only public notice of any examination required.

RULE VIII

Examination

In all examinations for appointment and promotion in the civil service of the city of Geneva, merit and fitness shall be determined by and upon competitive examinations for all positions in the competitive class, as herein provided. The merit and fitness of all applicants shall be determined by examination con-

ducted by the Commission. Upon all such examinations no rating higher than one hundred per centum shall be given to any person. Lists containing the names and rating of all applicants, found upon such examination to be eligible for appointment and promotion for merit and fitness, shall be made up for certification to the person or persons holding the power of appointment or promotion, in the manner provided in these rules. The minimum percentage of rating necessary to entitle an applicant to a place upon such eligible list shall be seventy per centum.

RULE IX

Conduct of examination

The actual conduct of every examination for merit and fitness shall be under the responsible direction of the Commission or its designated members, free from the interference or participation or influence of the appointing officer or of any person other than the assistant examiners or experts directly employed by the Commission. No person employed in a department for whose benefit an eligible list is to be prepared shall be employed as an expert upon the examination for such eligible list. The Commission may in the examination give such relative importance to the different subjects or matters of examination, whether mental or physical, or to experience, occupation or training as to it may seem fit. At or before the commencement of every examination the weight to be given to every subject included in the examination and the general or average minimum, and the minimum, if any, allowable upon each subject, shall be announced to the applicants. The appointing officer shall state to the Commission, upon request, and so far as is consistent with these rules, the general qualifications or attainments, physical or mental, or both, and the experience he deems necessary or proper to be possessed by persons filling the positions for which an eligible list is to be formed, and also of what age such persons should be.

RULE X

Character of examination

All examinations shall be public and practical in their character and shall relate to those matters which shall fairly test

the intelligence, competency, suitability, and character of the applicants to discharge the duties of the service into which they seek to be appointed. The Commission with the approval of the State Civil Service Commission, shall determine when examinations are not practical in cases relating to the civil service of the city of Geneva.

RULE XI

Physical examination

Whenever physical qualifications are of prime importance to the proper discharge of the duties of any position, applicants must pass an additional examination as to their physical condition and capacity and be certified as qualified in such respects before they shall be accorded a mental examination.

RULE XII

Political opinions of candidates

No question in any examination or proceeding shall call for the expression or disclosure of any partisan, political or religious opinions or affiliations of any person whatever, nor shall any discrimination be made by reason thereof. No such opinion or affiliation shall be disclosed by any applicant for appointment or promotion, and the examiners shall, and this Commission will, discountenance any such disclosure by any other person in behalf of any such candidate. It shall be ground for the rejection of any candidate that he has disclosed or caused to be disclosed to the examiners or to the appointing power his political or religious opinion or affiliations with a view to inducing his appointment. In the appointment and promotion of persons to fill positions in the public service, no regard shall be paid to partisan, political or religious opinions or affiliations of any candidate.

RULE XIII

Eligible list

1. Every competitor who attains an average percentage of seventy or over on all of the obligatory subjects in any examination and whose standing on every such obligatory subject is fifty or

Digitized by Google

over, shall be eligible for appointment to the position for which he is examined; and the names of eligibles shall be entered in the order of their average percentages, on the proper register of eligibles, provided that the names of competitors who have passed as above and whose claims for preference under section 9 of article 5 of the constitution have been allowed by the commission, shall be placed in the order of their respective average percentages at the head of the proper register of eligibles.

2. When two or more eligibles on a register have the same average percentage, preference in certification shall be determined by the order in which their applications were filed, but neither priority in the date of application nor of examination will give any other advantage in position on the register of eligibles.

3. The Commission shall prescribe the character of the distinct eligible lists, designating the positions that may be filled by certification from each of such lists.

4. The term of an eligible list is fixed at not less than one year or more than four years from the date of establishment of such list.

An eligible list which has been in force for a period of one year shall terminate, provided a new examination has been held and a new list prepared for the same position.

Persons whose names appear upon any such eligible list shall be notified by mail when a new examination is to be held for the same position and informed that their eligibility will cease upon the establishment of the new eligible list as the result of the new examination.

RULE XIV

Re-grading

Where an examination for any position is had before the eligible list for that position is exhausted, a new list shall be prepared after such examination. The names of the persons upon the former eligible list who are not reexamined shall be respectively placed upon the new eligible list in the position to which the percentage of their aggregate markings upon their former examination would entitle them if such markings had instead been given them upon the new examination and shall be continued thereon until the end of their term of eligibility.

Digitized by Google

In the creation of new eligible lists the rating shall be based upon such written or oral examination, or both, as the Commission shall determine, which oral examination shall be stenographically recorded.

RULE XV

Correction of errors

The Commission shall have power, in its discretion, whenever in its judgment the interest of the public service requires it, to order a re-examination of applicants for any position, and shall have the power to correct any error and amend or revoke any schedule, list or other paper or record where it appears that any error or injustice has been done, or where any person whose name appears on any eligible list has for any reason become incapacitated for appointment in the public service, to strike such name from said list, provided, however, that after an eligible list is prepared and certified it shall not be altered or revoked except on notice by mail or otherwise, as the Commission may direct, to all persons whose standing may be unfavorably affected by the alteration. The reason for every such action shall be recorded in full in the minutes of the Commission.

Any appeal from a rating must be taken by an applicant within ten days after receiving notice of his standing.

RULE XVI

Certification for appointment

1. Appointments shall be made to or employment shall be given in all positions in the competitive and labor classes that are not filled by promotion, reinstatement, transfer or reduction, under the provisions of the civil service law and these rules, by appointment from among those standing highest on the eligible list prepared by the Commission, except as otherwise provided in the civil service law.

2. Wherever a vacancy shall occur within any grade of the competitive or labor class, which in the opinion of the appointing officer the business of the city requires to be filled, he shall forthwith notify the secretary of the vacancy and state whether the same is to be filled by appointment or by promotion or by reinstatement and the title of the position, the duties to be performed,

Digitized by Google

the number of vacancies to be filled and the compensation to be paid.

3. The secretary shall thereupon, as soon as practicable, certify to the appointing officer for appointment or for promotion or for reinstatement from the eligible list most nearly appropriate to such position as it may then exist, the names of the three persons standing highest on the eligible list, indicating such of them, if any, as are honorably discharged soldiers, sailors or marines of the army or navy of the United States in the late civil war, citizens and residents of this state. The certificate of the secretary shall in all cases state the relative standing of each of the persons certified.

4. The appointing officer shall thereupon fill such vacancy or vacancies by the appointment of one or more of the persons so certified. Until an appointment has been made from said certification or until such certification has been cancelled, no new certification shall be made to fill said vacant position or positions. In all cases the vacancies shall be so filled within fifteen days after the receipt by the appointing officer of the names certified by the secretary, and the secretary shall be notified within twenty-four hours by the appointing officer of the appointments or promotions so made. No certification shall be in force for a longer period than fifteen days.

5. When a requisition is made to fill a position for which no eligible list exists, the Commission shall make certification from the eligible list most nearly appropriate for the group in which the position to be filled is classified, and wherein the qualifications demanded have been determined by examination.

6. No person on an eligible list shall be certified more than three times to the same appointing officer for the same bureau or institution, except at the request of said appointing officer, unless the person so certified is a veteran, in which case his name shall continue to be certified so long as it remains on the eligible list under these rules. If the appointing officer shall certify that a person named in a certification has declined to accept a position offered, the secretary may certify the name of the person standing next highest upon the eligible list to those already certified. If a person who is not entitled to certification is certified and appointed, his appointment shall be immediately revoked by the appointing officer upon notification by the Commission.

Digitized by Google

7. No person whose name is upon an eligible list may waive his right to certification or appointment except for one of the following reasons, stated in writing to the appointing officer and to the Commission:

(a) Insufficiency of the salary attached to the position offered; or,

(b) Temporary inability, physical or otherwise, to accept the position offered, the proof of which shall be accepted by the Commission.

The Commission shall enter upon its minutes the reasons for its action in each case, and the waiver shall not continue in effect for a period longer than thirty days from the date of certification. The name of any eligible who shall decline certification or appointment for any reason other than those above specified shall be stricken from the list. Whenever an eligible certified for appointment shall fail to accept an offer of appointment sent to him by mail at his post office address within four business days next succeeding the mailing of such offer of appointment, he shall be deemed to have declined such appointment. An eligible who has declined an appointment on the ground of the insufficiency of the salary offered shall not thereafter be certified for a position at the same or any less salary. Whenever one or more eligibles shall have declined any appointment offered, and an eligible whose relative standing is lower shall have been appointed to the position, the salary or compensation of such appointee shall not be increased within a period of one year after his appointment, beyond that offered to the persons so declining.

8. If the appointment shall be made of any person other than one of the three standing highest on the eligible list, the appointing officer shall forward to the Commission, with the notice of appointment, copies of all correspondence to and from the persons declining such appointment.

RULE XVII

Suspension of rules

In case of a vacancy in any position in the competitive class where peculiar and exceptional qualifications of a scientific, professional or educational character are required, and upon satisfactory evidence that for specified reasons competition in such

special case is impracticable, and that the position can be best filled by the selection of some particular person of high and recognized attainment in such qualities, the Commission may, upon obtaining the approval of the State Civil Service Commission, suspend the provisions of the rule requiring competition in such case, but no such suspension shall be general in its application to such place, and all such cases of suspension shall be reported to the State Civil Service Commission in the annual report made to them, with the reasons for the same.

RULE XVIII

Requirements in exceptional cases

In applications for examinations for positions requiring scientific, professional or technical qualifications, the Commission may require evidences of special education for or of practical experience for a satisfactory term in such profession, art or trade; and shall require the production of such certificates of competency and license as are provided by the statutes of this State as necessary to enable the practice of any profession, art or trade.

RULE XIX

Qualifications as to residence and citizenship

Every applicant for examination for appointment to any of the positions enumerated in the competitive or non-competitive class, or for registration for employment in the labor class, must be a citizen of the United States and an actual resident of the city of Geneva at the time of his application; provided that such requirements as to citizenship and residence may be specially suspended by the Commission as to any position requiring high professional, scientific or technical qualifications, but all such cases, with the reasons therefor, shall be entered on the records of the Commission opposite the name of the candidate.

RULE XX

Candidates unfit for appointment

The Commission may refuse to examine an applicant, or after an examination to certify an eligible, who is found to lack any

Digitized by Google

of the established preliminary requirements for the examination of the position for which he applies, or who is physically so disabled as to be rendered unfit for the performance of the duties of the position to which he seeks appointment, or who is addicted to the habitual use of intoxicating liquors to excess, or who has been guilty of a crime or of infamous or notoriously disgraceful conduct, or who has been dismissed from the public service for delinquency or misconduct; or who has intentionally made a false statement of any material fact, or practiced or attempted to practice any deception or fraud in his application, in his examination or in securing his eligibility or appointment. Any of the foregoing disqualifications shall be good cause for the removal of an eligible from the service after his appointment.

In case any appointing officer shall become satisfied that the character or reputation of any person named on an eligible list is such as to make it unfit or improper to appoint him to a position in the civil service of the city of Geneva, he shall so state to the Commission.

When the position to be filled involves fiduciary responsibility, the appointing officer, where otherwise permitted by law, may require the appointee to furnish a bond or other security and shall notify the Commission of the amount and necessary details thereof.

No person who has entered upon any examination for any position shall be entitled to be admitted within nine months from the date thereof to a new examination for the same position, except upon vote of the Commission.

RULE XXI

Temporary appointments

When there are urgent reasons for filling a vacancy in any position in the competitive class and there is no list of persons eligible for appointment after competitive examination, the appointing officer may nominate a person to the Commission for non-competitive examination, and if such nominee shall be certified by such Commission as qualified after such non-competitive examination, he may be appointed provisionally to fill such vacancy until a selection and appointment can be made after

Digitized by Google

competitive examination, but such provisional appointment shall not continue for a longer period than two months, nor shall successive temporary appointments be made to the same position under this rule.

In case of exigency, special patrolmen may be appointed with the approval of the Commission, for a period of not exceeding one month, without examination, provided there is no one upon the appropriate eligible list willing to accept such appointment.

RULE XXII

Method of examination—non-competitive class

Positions in the non-competitive class may be filled by the appointing officer in his discretion in respect to the method of examination. The discretion of the officer in such case shall be limited as follows:

First. He may select from the eligible list prepared as the result of an open competitive examination; or

Second. He may name to the Commission three or more persons for competitive examination, and appoint the one graded highest as the result of an examination for merit and fitness; or

Third. He may appoint or employ any person named by him, who, upon a non-competitive examination by the said Commission, shall be duly certified as qualified to discharge the duties of the position.

RULE XXIII

Certificate of qualification—non-competitive class

Upon the non-competitive examination into the qualifications of a person named for a position of this class the Commission will give a certificate to such person only when satisfied:

First. That he is within the limits of age prescribed for the position or employment to which he has been named.

Second. That he is properly certified as free from any physical defect or disease which is likely to interfere with the proper discharge of his duties.

Third. That his character is such as to qualify him for such position or employment.

Fourth. That he possesses the requisite knowledge and ability to enter on the discharge of his official duties.

An officer naming a person for examination will at the same time transmit his certificate, that after due inquiry he is satisfied that the character and habits of the person named fit him for the public service, and will append to the certificate such formal vouchers or credentials as to character as he may desire to have considered or put on file. In the determination of the character or habits of the nominee, the certificate thereof by nominating officer will be considered as essential.

RULE XXIV

Selection of method of examination

Whenever a vacancy in the non-competitive class in any department or office is to be filled, the officer having the authority to fill the same shall notify the Commission which of the three methods, in his discretion, under rule XXII, he selects; and if the choice be by an open competition, the Commission will proceed as for an examination under the competitive class, but if the choice be by a limited competition, or by the appointment of a person to be duly certified by the Commission as qualified, the officer aforesaid shall name in such notification the person or persons to be examined, and thereupon the Commission shall notify the person or persons so named of the time, place and special rules of the examination.

RULE XXV

Registration and appointment—labor class

1. Applicants for positions under the labor class, who produce satisfactory evidence of their capacity for labor, and their habits as to industry and sobriety, shall be registered in the order of their application. The register shall state (1) name, (2) age, (3) residence, (4) citizenship, (5) number and relationship of persons depending for support upon the applicant, (6) service in the army or navy in the late civil war, (7) previous occupation, (8) reference, and such other information as may be required.

2. When the services of employees in the labor class are required, the officer or person having the appointment or selection, shall notify the Commission, stating the number of men wanted, kind of labor for which they are wanted, and the time and place

of employment; and the Commission shall thereupon send to the officer or person making the requisition the names and residences of the number of men called for as provided in chapter 370 of the laws of 1899 (if the register contains that many), giving preference to those who have served in the army or navy of the United States in the late civil war and been honorably discharged therefrom.

3. Such appointing officer shall forthwith return to the Commission the names of those employed with the date of the employment, provided that if a less number than those certified shall be so employed, they shall be those standing highest on the register.

4. All registry lists shall remain in force for not less than one year nor more than four years, and on the last day of February of each year, new lists, where necessary, shall be established.

5. There shall be separate applications for the different kinds of labor and employment, and the Commission may establish separate labor lists for the various institutions and departments. The Commission shall have power to limit the number of lists upon which an applicant's name shall be registered at the same time. The Commission shall require an applicant for registration for the labor service to furnish such evidence as to his fitness, etc., or pass such examination as may be deemed proper by them, not inconsistent with the law.

6. In case the Commission is not able to fill a requisition for laborers, the fact shall be certified to the officer making the requisition, who shall then make the selection under such regulations as the Commission may from time to time prescribe.

7. The Commission may make such rules as may be necessary to identify the registered applicants and to preserve a record of their conduct.

8. In case of an emergency the appointing officer may hire or employ temporarily such and so many persons as shall be rendered necessary by such emergency, forthwith reporting such action, with the full particulars thereof, and with the names of the persons so employed to the Commission, but no person shall be so hired or employed for a longer period than three days.

RULE XXVI

Probationary appointments

Except in the case of veterans of the civil war, honorably discharged from the military or naval service of the United States, every original appointment to or employment in any position in the competitive class shall be for a probationary period of three months, and an appointing or nominating officer in notifying a person certified to him for appointment or employment shall specify the same as for a probationary period only; and if the conduct, capacity or fitness of the probationer are satisfactory to the appointing officer, his retention in the service, at the end of such term, shall be equivalent to his permanent employment, but if his conduct, capacity and fitness be not satisfactory he may be discharged at the end of such term. Whenever two or more persons appointed from the same eligible list are serving as probationers in the same department, and there is necessity for reduction of the force of such department, affecting such persons, they shall be preferred for retention in the order of their original standing upon such list.

RULE XXVII

Promotions

1. Vacancies in positions in the competitive class shall be filled as far as practicable, by promotions of persons holding positions in a lower grade in the department or office in which the vacancy exists.

2. Promotions shall be based upon merit and competition and the superior qualifications of the person promoted as shown by his previous service, due weight being given to seniority in office.

3. When it becomes known to the head of a department that there is, or is to be, a vacancy in a position in the competitive class in such department or office, it shall be his duty to notify the commission thereof, and at the same time to certify to the Commission the names of all persons in such office or department who have held positions in the next lower grade for a term of six months, together with a record of each of such persons for efficiency, punctuality, attention and general good conduct. If,

in the opinion of the Commission, the promotion examinations should be open to other persons than those in the next lower grade, it may require the head of the department or office to certify the names of all persons who have for at least six months held positions in two or more successively lower grades in such department or office.

4. The Commission shall forthwith arrange to hold a promotion examination and shall notify the persons entitled to compete therein of the time and place thereof. But in case the duties of the position in which there is a vacancy do not require, in the opinion of the Commission, qualifications essentially different from those required for the subordinate positions held by those who have the right to compete in the promotion examination, and in case it is unnecessary, in the opinion of the Commission, to determine the qualifications of persons to fill the vacancy by an examination involving essentially different tests than those required in the examination for original entrance to the position held by the person to be promoted, then in such case the Commission may determine that no promotion examination is necessary, and that the person, if any, who by the records kept by the appointing officer appears to have the highest rating for efficiency, punctuality, attention and general good conduct in the discharge of his duties in the subordinate positions shall be promoted to fill such vacancy.

5. The test of actual service being the main factor in fitness for promotion, there shall be kept in every office continuous and comparative records of efficiency, punctuality, attention and general good conduct of all persons employed therein. Such records shall at all times be open to inspection by the Commission, and, if the same have been regularly and properly kept, they shall constitute one of the elements in such promotion examination with such relative weight as shall be assigned to them by the Commission. If such records have not been regularly and properly kept, the Commission shall prescribe such tests as may be best calculated to determine the relative merit and fitness of the persons entitled to enter the promotion examination.

6. The conduct of such examination and the preparation of the eligible list shall be subject to the general provisions of rules X, XI and XIII.

Digitized by Google

7. As provided by the civil service law, an increase in the salary or other compensation of any person holding an office or position within the scope of these rules beyond the limit fixed for the grade in which such office or position is classified, shall be deemed a promotion.

8. No recommendation of any person for promotion, whether verbal or written, shall be entertained or received, unless made in the ordinary course of duty by his immediate official superiors and the presentation of any recommendation other than that of such superiors shall be considered an unwarrantable interference with the public service, and the person so recommended may be required to show, before being certified for promotion, that such recommendation was not made by his request or connivance.

RULE XXVIII

Transfers

Transfers of clerks and others included in the competitive and non-competitive classes may be made from one office or department to a similar position in another, by the mutual consent of the heads of such offices and departments; every such transfer must be reported to the Commission for record, within five days from the date thereof. No such transfer shall be permitted from a position enumerated in the competitive class to a position in the non-competitive class, unless the person so transferred passes the non-competitive examination for such position, or from a position enumerated in the non-competitive class to a position in the competitive class, unless the person so transferred has such standing upon a proper eligible list as would entitle him to original appointment to such position.

RULE XXIX

Political services or contributions not required

No person in the public service is, for that reason, under any obligation to contribute to any political fund or purpose, or to render any political service, and no person shall be removed or otherwise prejudiced for refusing so to do.

Digitized by Google

RULE XXX

Political action unaffected

No person in the public service has the right to use his official authority or influence to coerce the political action of any person or body, or shall dismiss, or attempt to procure the dismissal of, or in any manner change the rank or compensation of any person in such service because of his political or religious opinions, preference or affiliations.

RULE XXXI

Preference for veterans

Honorably discharged soldiers, sailors and marines from the army or navy of the United States in the late civil war, who are citizens and residents of the city of Geneva, shall be entitled to preference in appointment and promotion without regard to their standing on any list from which such appointment or promotion shall be made, provided their qualifications and fitness shall have been ascertained as provided in these rules; and the person thus preferred shall not be disqualified from holding any position in the civil service on account of his age, nor by reason of any physical disability, provided such age or disability does not render him incompetent to perform the duties of the position applied for.

RULE XXXII

Dismissals

No one dismissed from the service for misconduct shall be admitted to examination for appointment in any capacity in any department of the municipal service within two years from the date of such dismissal.

RULE XXXIII

Power of Removal

Subject only to the qualifications required to be ascertained in accordance with these rules, the power of appointment and the responsibility of selection are in all cases in the appointing officer. The power to remove existing by law on the part of any officer is not impaired by anything contained in these rules.

RULE XXXIV

Report of term of employment

1. It shall be the duty of each city officer, or board of city officers, appointing or employing an officer, clerk or other person in the service of the city, forthwith on such appointment or employment to report to the municipal civil service commission the name of such appointee or employee, the title or character of his office or employment, and the date of commencement of service by virtue thereof, and forthwith on the termination of such service, to report to said Commission the fact and the date and cause of such termination.

2. The Commission shall keep in its office an official roster of the classified city service and shall enter thereon the name of each and every person who has been appointed to, employed, promoted or reinstated in any position in such service, upon such evidence as it may require or deem satisfactory, that such person was appointed to, or employed, promoted or reinstated in the service in conformity with the provisions of law and of these rules. The official roster shall show opposite, or in connection with each name, the date of appointment, employment, promotion or reinstatement, and the office in which and the compensation of the position, date of commencement of service, and the date of transfer in or separation from the service by dismissal, resignation, cancellation of appointment or death.

RULE XXXV

Reinstatement

1. Any person who held a position by appointment under the civil service rules, and who has been separated from the service through no delinquency or misconduct on his part, may be reinstated without re-examination in the same or a similar position in the same office and grade within one year from the date of such separation, provided that for original entrance to the position proposed to be filled by reinstatement there is not required by these rules, in the opinion of the Commission, an examination involving essential tests or qualifications different from or higher than those

Digitized by Google

involved in the examination for original entrance to the position formerly held by the person proposed to be reinstated.

2. Whenever in any department or institution an office or position is abolished, or whenever the number of positions of a certain character is reduced, or whenever by reason of a lack of appropriation or otherwise it becomes necessary to discharge or suspend one or more of several persons holding the same position, veterans of the civil war, veterans of the volunteer army or navy of the United States in the Spanish war, and exempt volunteer firemen shall be entitled to preference in retention in such positions over other persons.

3. Persons legally holding such positions at the time of such reduction or discharge shall be entitled to reappointment or reinstatement in the same position or positions if they are thereafter within one year re-established under the same or any other designation. The names of such persons shall be entered upon lists of suspended employees and shall remain thereon for a period of one year, and upon notice of a vacancy in the same or a similar position in any department, names from such lists of suspended employees shall be certified to the appointing officer in preference to names from eligible lists. Preference in certification from such lists of suspended employees shall be given in the following order:

First. Veterans of the civil war in the order of their separation from the service.

Second. Veterans of the Spanish war and exempt volunteer firemen in the order of their separation from the service.

Third. Other persons in the order of their separation from the service.

Persons specified in the first and second classes above mentioned shall be entitled to certification for positions to which they are eligible in any department or institution, but persons specified in the third class shall be entitled to certification only to the department from which they were discharged.

RULE XXXVI

Certification of pay rolls

For the purpose of certification of pay rolls and accounts as required by section 19 of the civil service law, appointing officers and heads of departments of the city of Geneva, shall furnish the

Commission with pay rolls, accounts and certificates in form and manner as follows:

1. Heads of departments, boards and officers, whose employees are paid individually direct from the treasury of the city, shall furnish the Commission, at least five days before payment is to be made, a pay roll in duplicate showing the name of each person to be paid, the title of the position held or kind of service performed by each person, the rate and amount of compensation to which he is entitled, and the period for which he is to be paid, and shall certify that the persons named therein are employed solely in the proper duties of the positions and employments indicated, and persons described as or proposed to be paid as laborers, are employed at ordinary unskilled labor only. After examination and certification as hereinafter prescribed, such pay rolls shall be transmitted to the treasurer or other fiscal officer for further examination and payment, as required by law, and one of said duplicates shall accompany the warrant of the treasurer or other disbursing officer.

2. For payment for irregular or occasional services, and for advances for salary to regular employees, the head of such a department, board or office, shall transmit to the Commission the original account or a specified pay roll or a request for advance payment in duplicate, bearing his written approval, which approval shall be deemed to be a certificate of the facts required by the preceding section to be certified on the regular pay rolls.

Upon examination and certification as hereinafter prescribed, such account shall be forwarded to the treasurer or other fiscal officer.

3. Heads of departments, boards or offices whose employees are paid directly by the department from funds drawn from the treasury for that purpose, shall at least five days before making draft upon the treasury, furnish the Commission with a pay roll in duplicate, certifying the facts required by section No. 1 of this rule. After examination and certification as hereinafter prescribed, such pay roll shall be transmitted to the person, boards or officers from whom the same was received, and one of said duplicates, so certified, shall accompany the order or warrant upon the treasurer.

4. The secretary of the Commission shall compare such pay roll, estimate or account for services with the official roster, and if found correct shall attach thereto, or place thereon, a certificate substantially in form as follows:

I hereby certify that the person (or persons) named in this (pay roll, estimate or account) as employees of the city of Geneva, have been appointed or promoted to or employed in the positions or places indicated, in pursuance of the civil service law and the rules made in pursuance thereof, as shown by the official roster of the municipal service, except (here insert names in regard to which the pay roll, estimate or account disagrees with the official roster).

The Commission may designate one of its members to make certification in the absence of the secretary.

5. Upon satisfactory evidence that, with intent to evade the provisions of the law and of these rules, any person appointed to or employed in any position of the classified service has been assigned to perform duties other than those for which he was examined and certified, or any title not appropriate to the duties to be performed, the Commission may refuse certification of such person for payment or compensation, and remove his name from the official roster.

Buffalo

The following resolution was adopted by the municipal civil service commission, March 7, 1904, and approved by the mayor:

Resolved, That rule 25 of the rules for admission to the civil service of the city of Buffalo be amended by striking out the following, to wit: "In the same manner the board of police commissioners may designate from the eligible list for desk sergeants two persons to act as permanent substitutes for such positions. Their designation for the purposes of these rules shall be deemed a permanent appointment, and such substitutes shall be eligible to promotion to permanent positions of desk sergeants when vacancies occur," and inserting in its stead the following, to wit:

"In the same manner the board of police commissioners may designate from the eligible list of desk sergeants four persons to act as permanent substitutes for such positions. Their designation for the purposes of these rules shall be deemed equivalent to a permanent appointment, and certification for appointment to regular and permanent positions in the police department shall be made from such substitutes in the same mode and manner as that prescribed for certification from the substitute corps to permanent positions in the fire department."

(Approved April 7, 1904.)

The following resolutions were adopted by the municipal civil service commission July 11, 1904, and approved by the mayor July 13, 1904:

Resolved, That rule XXII be amended by striking out the entire present rule and substituting therefor the following, to wit:

RULE XXII

1. Vacancies in positions above the lowest grades in the competitive class that are not filled by original appointment, trans-

fer, reinstatement or reduction, shall be filled so far as practicable by competitive tests, but no promotion from one position to a higher one, or to a position paying a higher salary of the same class in the competitive class, shall be made until after the person promoted has, for at least one year, occupied a lower position, nor unless the applicant for promotion shall have given evidence of fitness by meritorious service.

2. Such examinations for promotion shall be conducted by and under the control and direction of the civil service commission.

3. Examinations for promotion shall be ordered as often as may be necessary to meet, or to anticipate, the needs of the higher grades, and so far as practicable, shall be held periodically. Except where otherwise provided by law, such examinations shall be open, in each case, to all persons who shall have served with fidelity for not less than one year in positions in the same group or general character in the grade next lower, in the same department, office, bureau or institution.

Notice of such examination shall be given by the secretary to all eligible persons in the grade or grades from which promotion is to be made at least one week in advance of the date thereof.

4. The subjects of rating and the relative values and weights thereof, in any competitive examination for promotion shall be fixed by the civil service commission.

5. To enable the commission to grade applicants for promotion as relates to their past record and efficiency in the service, the said commission shall have the right to call on the respective departments, bureaus and superior officers to report to the commission the record of each applicant for promotion, and to give to the commission information required by it as to the past service and efficiency of such applicants, and of their ability as shown by such past service to fill the higher position for which such examination is held. The records of such departments shall be open to the inspection and examination of the commission, or those designated by it for such purposes.

6. Wherever there are less than three persons eligible for promotion to fill a vacancy in a graded position, and willing to compete therefor, an eligible nominated by the appointing officer may be promoted to the grade next higher upon a statement of the facts to the Commission, and, on passing a non-competitive exam-

ination similar in scope, subjects and preliminary conditions to such examinations as would have been prescribed in case of competition.

7. Promotions in the police and fire departments shall be from the lower to the higher grades by competitive examinations, except that competitive examinations shall not be required for filling the positions of superintendent in the police department or of chief and assistant chief in the fire department, but such positions must be filled by promotion as follows: In the police department, of superintendent of police from inspectors and captains. In the fire department, of chief of the fire department from assistant chief and battalion chiefs; of assistant chief from battalion chiefs; but the person or persons selected for promotion to any of such positions shall first before such appointment, pass a qualifying examination to be conducted by or under the direction of the civil service commission.

8. Except as this rule otherwise provides, the conduct of an examination for promotion and the making of selections therefor from any eligible list formed as the result of such examination, shall be governed by the rules relating to original appointment.

Schedules

Resolved, further, that the schedules annexed to said rules and forming a part thereof, be amended as follows, to wit: By striking from schedule B in the department of police, the position of "superintendent," "assistant superintendent," and by placing said position of superintendent in schedule C as follows, to wit: "Superintendent, open only to persons occupying the position of inspector or captain." Also in the department of fire, by striking the positions of chief of department and of assistant chief from schedule B and by placing said positions in schedule C as follows, to wit: "Chief of department, open only to persons occupying the position of assistant chief or of battalion chief. Assistant chief, open only to persons occupying the position of battalion chief."

Resolved, That said amendments be submitted to the mayor and State Civil Service Commission for approval in the place and stead of the proposed amendment heretofore submitted.

sioners, department of taxes and assessments, the Commission adopted the following memorandum:

The Court of Appeals has just held, that for the purposes of removal these officers were "deputies of an official or department", within the meaning of the last sentence of section 21 of the civil service law, which reads: "Nothing in this section shall be construed to apply to the position of private secretary, cashier or deputy of any official or department." (People ex rel. Ryan v. Wells, 176 N. Y. 462.)

The court did not hold that the positions were confidential but held that all deputies, confidential or otherwise, might be removed without a hearing on stated charges under section 21 of the civil service law which restricts the removal of veteran soldiers, sailors and volunteer firemen, except from the positions of private secretaries, cashiers and deputies. There is nothing in this decision which justifies the claim that the courts have held that these positions are properly in the exempt class. The decisions on that point are all the other way.

The only deputies exempted by law are "*deputies of principal executive officers authorized by law to act generally for and in place of their principals.*" (Civil Service Law, sec. 12, paragraph 1.)

Judge Bartlett said of these deputy tax commissioners, in People ex rel. Thompson v. Feitner (168 N. Y. at page 453), that "the deputy commissioners are in no sense independent officers but perform all their duties under the direction and supervision of the board and subject to its approval."

The use of the above removal case to justify a claim for exemption is not justified. Furthermore, if there is any doubt on the point, it is the duty of the civil service commission to uphold the law and not to weaken it.

Geneva

A communication from G. R. Watson, secretary municipal civil service commission, Geneva, dated April 29, 1904, in relation to suspension of competition in the case of a temporary assistant to the city engineer, was considered. The following resolution was on motion adopted:

Whereas, The municipal civil service commission of the city of Geneva requests a suspension of the rule requiring competition in the case of James C. McGonagle, employed as temporary assistant to the city engineer, under the provisions of rule 17 of the civil service rules for said city; therefore be it

Resolved, That for the reasons stated in the communication of the secretary of the municipal civil service commission of the city of Geneva, dated April 29, 1904, the application for the suspension of the rule be and hereby is approved.

(May 5, 1904.)

New York

The following resolution was adopted by the municipal civil service commission July 27, 1904, and approved by the mayor September 7, 1904:

Resolved, That, subject to the approval of the mayor and the State Civil Service Commission, Mr. H. De B. Parsons, consulting engineer, employed in the fire department of the city of New York, be and hereby is excepted from examination under the provisions of municipal civil service rule XII, paragraph 6, it appearing that Mr. Parsons is a person engaged in private business and that the services to be rendered are professional, scientific, technical or expert, and of an occasional and exceptional character; provided, however, that his compensation shall not exceed the sum of $1,350.

Schenectady

The following resolution was adopted by the municipal civil service commission February 4, 1904, and approved by the mayor February 5, 1904:

Whereas, Dr. N. B. Saunders has for the past six months or more filled the office or position of bacteriological examiner to the board of health of the city of Schenectady in an eminently satisfactory manner, and

Whereas, The said Dr. N. B. Saunders is a graduate of Columbia college with diplomas from several hospitals as post-graduate courses, and

Whereas, He has gone to considerable expense in providing himself with implements pertaining to his profession in this special branch, and we believing that competition in this particular case to be impracticable, and that the position can be best filled by the selection of the said Dr. N. B. Saunders to continue to occupy the office under a legal civil service appointment, we, the civil service commissioners of the city of Schenectady, N. Y., ask the approval of the State Civil Service Commissioners to the suspension of the provisions of the rule requiring competition.

(Approved February 5, 1904.)

Watertown

The following resolution was adopted by the municipal civil service commission November 4, 1904:

Whereas, The water board of the city of Watertown, N. Y., is desirous of appointing a person to a position of superintendent of the filtration plant of said city and have proposed the name of Francis F. Longley and ask for his appointment under rule 19 of the rules of classified service of the city of Watertown, and

Whereas, This commission has examined into the qualifications of said Longley and believes the position to be one requiring high professional, scientific and technical qualifications and that it comes within the provisions of said rule, it being necessary that the person holding said position should be a chemist;

Resolved, That the said rules are hereby suspended and the appointment of said Longley is hereby allowed without further examination or competition, subject to the approval of the State Civil Service Commission.

PROPOSED SUSPENSION OF COMPETITION UNDER CIVIL SERVICE RULES FOR CITY OF NEW YORK DISAPPROVED

President Pound reported that on October 24, 1904, he had ordered returned without approval the following resolution, adopted by the municipal civil service commission of New York city July 27, 1904, and approved by the mayor September 7, 1904:

"Resolved, That, subject to the approval of the mayor and the State Civil Service Commission, Mr. John H. Meyer, architect's assistant, employed in the College of the City of New York, be and hereby is excepted from examination under the provisions of municipal civil service rule XII, paragraph 6, it appearing that Mr. Meyer is a person engaged in private business and that the services to be rendered are professional, scientific, technical or expert and of an occasional and exceptional character; provided, however, that his compensation shall not exceed the sum of $1,800 per annum."

On motion the report of President Pound was received and his action ratified and confirmed.

STATE OF NEW YORK

OFFICE OF STATE CIVIL SERVICE COMMISSION

ALBANY, *December* 30, 1904.

Municipal Civil Service Commission of the City of ——

GENTLEMEN:—Under the provisions of section 10 of the civil service law (chapter 370, laws of 1899, as amended by chapter 675, laws of 1900), municipal civil service commissions are required to make reports from time to time to the State Civil Service Commission, of such matters as said State Commission may require, and to make an annual report to the said State Commission on or before the 15th day of January of each year. The same section of the law also provides that the State Commission shall set forth in its annual report either the reports of the municipal commissions, or a sufficient abstract or summary thereof to give full and clear information as to their contents. A copy of the roster of the classified service shall also accompany the annual report of each municipal commission.

Pursuant to law, you are hereby requested and required to prepare and forward to the State Commission on or before the 15th day of January, 1905, a report of the manner in which the civil service law, and the rules and regulations thereunder have been administered, and the results of their administration in your city during the year 1904, together with specific answers to the following questions, viz.:

1. Give names, occupation, dates of appointment and salary of commissioners.

2. Give names, titles of positions, dates of appointment and salary of all employees of commission.

3. How many meetings of the commission have been held during the year?

4. How many persons in the unclassified service?

5. How many persons in the exempt, competitive, non-competitive and labor classes of the classified service? (Specify number in each class.)

Digitized by Google

6. Number of competitive examinations held during the year; titles of positions; number passed and failed in each examination. If the number of successful candidates in any examination did not exceed three, to what in your opinion was the lack of competition due?

7. What notice is given of the time and place of receiving applications and holding competitive examinations? By whom are the examination papers prepared and rated? Are the applications, examination answer papers of candidates, ratings and eligible lists preserved and open for public inspection?

8. Number of non-competitive examinations held during the year; titles of positions; number passed and failed in each examination.

9. Number of non-competitive provisional or emergency examinations held during the year; titles of positions. Were competitive examinations subsequently held and eligible lists established in each case?

10. Give titles of positions or kinds of labor for which registration in the labor class was made during the year, together with number registered and number appointed.

11. Number of appointments:

(a) To exempt positions.

(b) To competitive positions.

(c) To non-competitive positions.

12. Number of removals in each class.

13. Number of resignations in each class.

14. Give list of transfers approved by the commission, with titles of positions, salaries and departments.

15. Give list of promotions approved by the commission, with titles of positions, salaries and departments.

16. Number of appeals from ratings and action thereon.

17. List of exceptions from examination with reasons for the same. (See civil service law, section 14, paragraph 2.)

18. Have the provisions of the law giving preference to veterans been strictly complied with by the appointing officers?

19. Has the provision of the law regarding certification of payrolls and accounts for services been strictly complied with? By whom are the payrolls and accounts reviewed and certified?

Digitized by Google

20. Are there any employees in departments or divisions of public service in the city whose accounts for services are paid without certification by the commission? If so, explain fully.

21. Has the provision of the law regarding the registration of laborers been strictly complied with, and are all employments in the labor class made after certification by the commission from the registration list? If not, explain fully.

22. Has the commission a complete roster of all the city employees, showing names, titles of positions, dates of appointment and salaries?

23. Are the roster and other records of the commission sufficiently complete so as to make it possible to establish the legality of the appointment of all persons now in the classified service?

24. Do all the fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services? (See opinion of the attorney-general holding that the treasurer of the state board of barber examiners is a fiscal officer subject to section 19 of the civil service law. Page 542 of twenty-first annual report of State Civil Service Commission.)

You will also please forward, with your replies to the above questions, a copy of the roster of the classified service of your city, giving names, titles of positions, dates of appointment, classification and salaries. It is also desired that you furnish a copy of the roster of the unclassified service, giving names, titles of positions, dates of appointment or election, and salaries, so that the Commission may have a complete list of municipal officers and employees corrected to January first.

Blank upon which to submit your report is enclosed herewith.

By order of the Commission,

JOHN C. BIRDSEYE,

Secretary.

SUMMARY OF REPORTS OF MUNICIPAL CIVIL SERVICE COMMISSIONS FOR THE YEAR 1904

Albany

The commissioners are Donald McDonald, gas meter manufacturer; William V. R. Erving, attorney at law, and Frank A. McNamee, local manager of Equitable life assurance society. The commissioners were appointed January 1, 1902, and serve without compensation. The secretary of the commission is Hiram D. Brumaghim, appointed January 1, 1900, salary $1,000 . annum.

At least five days notice is given of each competitive examination. Examination papers are prepared and rated by the commissioners themselves. Applications, examination answer papers of candidates, ratings and eligible lists are open for public inspection. During the year seventeen candidates in examination for patrolman appealed from ratings given. The appeals were all dismissed. There have been no cases of suspension of competition under the provisions of section 14, paragraph 2, of the civil service law.

The provisions of the law giving preference to veterans have been strictly complied with; also the provision regarding registration of laborers and employment from the registration list. The provision of the law regarding certification of payrolls and accounts for services has been strictly complied with, no employees in any department or division of the public service being paid for services without the certification of the commission. Payrolls are reviewed and certified by the secretary, and all fiscal or disbursing officers of the city require all payrolls or accounts for services to be certified. The commission has a complete roster of all the city employees, and states that the roster and other records of the commission are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

Amsterdam

The commission consists of Fred Aschoff, cigar manufacturer; Edward Farrel, broom salesman, and Julius W. Kimball, teacher; all appointed January 1, 1904. The commissioners each receive $5 per meeting up to and including twenty meetings in one year. The secretary is James L. Doyle, appointed January 1, 1904, compensation $300 per annum.

Notice of competitive examinations is given at least five days in advance by publishing in two daily papers. Examinations are prepared and papers rated by the commissioners. Applications, examination answer papers of candidates, ratings and eligible lists are open for public inspection. There were no appeals from ratings, and no exceptions from examination under the provisions of section 14, subdivision 4, of the civil service law. With regard to the provision of the law giving preference to veterans, the commission states that no veterans tried examinations during the year.

The provision of the law regarding certification of payrolls and accounts for services has been strictly complied with except in two cases, viz.: the board of health and board of education, whose employees are paid without certification by the commission. The provisions of the law regarding registration of laborers and employments in the labor class only after certification by the commission from the registration list have not been strictly complied with, as fifty-four laborers were employed during the year while only forty were registered. The commission has not a complete roster of city employees but states that the roster and its other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

Auburn

The commission is composed of Charles A. Smith, wholesale meat and produce dealer; Frank S. Wright, attorney at law, and Charles G. Adams, secretary of the Auburn Business Men's association. The salary of each commissioner is $5 per meeting up to and including twenty meetings. If more than twenty meetings are held during the year the commissioners receive no compensation for the additional meetings. The secretary is E. H. Herrling, appointed January 25, 1901, at an annual salary of $200.

"Notice of the time and place of receiving applications and holding competitive examinations is either given by posting a notice on the bulletin board of the commission in the city hall or by posting the notice in the city hall and inserting an additional notice in two daily newspapers. Examination papers are invariably prepared by the commission except in cases of examinations for electricians, engineers or where expert knowledge is required, in which cases an expert is secured to make up the questions; the commission does the rating except in special cases when the opinion of the expert is secured as to whether the answers are proper. In all cases of examinations the commission adheres strictly to practical questions bearing on the duties to be performed. The application papers, answers to questions, and ratings are open for public inspection."

Provisional examinations, in accordance with section 14, subdivision 1, of the civil service law, were held for the positions of fireman, fire department; fireman, water department; and foreman of construction and repairs, water department. Subsequently competitive examinations were held and eligible lists established for the positions of fireman, fire department, and foreman of construction and repairs. In the case of fireman, water department, the vacancy was only temporary and therefore competitive examination was not held.

No candidates appealed from ratings given by the commission. There were no exceptions from examinations under section 14, paragraph 2, of the civil service law.

The provisions of the law giving preference to veterans, and with regard to the certification of payrolls and accounts for services have been strictly complied with. Payrolls are reviewed and certified by the secretary of the commission, and all fiscal or disbursing officers require such certification. The provisions of the law regarding the registration of laborers and certifications from labor lists, the commission states, have been complied with so far as possible. The commission has a complete roster of all city employees, showing names, titles of positions, dates of appointment and salaries. There were no important changes in the number of persons in the civil service of the city, except in the fire and police departments, as compared with 1903.

Digitized by Google

In concluding its report the commission says: "The commission is highly pleased with the results of the application of the civil service in the different departments of the city government during the year 1904."

Binghamton

The commissioners are Burr W. Mosher, (president) attorney at law, appointed December 9, 1904; Austin S. Bump, merchant, appointed December 9, 1904, and Benjamin A. Bauman, real estate agent, appointed February 15, 1904. The commissioners serve without compensation. Lawrence B. Mason is secretary, appointed February 4, 1902. His salary is $300 per annum. Commission has no other employees.

"Notice of the time and place of receiving applications and holding of competitive examinations is posted on the bulletin board of the commission in the lobby of the municipal building, and also in the office of the commission. All examination papers are prepared and rated by the commissioners, who conduct the examinations. All applications, examination answer papers of candidates, ratings and eligible lists are on file at the office of the commission and are open for public inspection if desired."

In more than half of the competitive examinations held during the year, three or less candidates competed. The commission is unable to account for the lack of competition in a number of the examinations. Seven provisional non-competitive examinations have been held for the positions of sidewalk inspector, helper field work, engineer's department, stenographer, inspector bridge painting, assistant engineer, city hall; clerk, bath house attendant. With but two exceptions competitive examinations were subsequently held and eligible lists established.

There were no appeals from ratings and no exceptions from examination under section 14, paragraph 2 of the civil service law. The provisions of the law giving preference to veterans, and with relation to the certification of payrolls and accounts for services have been strictly complied with. Payrolls are reviewed and certified by the secretary. All fiscal or disbursing officers require the certificate of the commission upon all payrolls and accounts for services. Accounts of employees of the water department are not certified, as this department is deemed to be

Digitized by Google

distinct from the city government. The provision of the law regarding registration of laborers has been strictly complied with and all employments in the labor class are made after certification by the commission from the registration lists. The commission has a complete roster, showing the essential facts regarding all city employees, and in the opinion of the commission the roster and its other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons now in the classified service.

"The commission has endeavored at all times to enforce the civil service law to the letter, and all departments of the city government are complying with the rules of the local commission."

Buffalo

The commission is as follows:

NAME	Occupation	Date of appointment	Salary
Charles B. Wheeler	Lawyer	February 19, 1902	None
Joseph L. Whittet	Merchant	December 18, 1902	None
Henry W. Sprague	Lawyer	February 19, 1902	None
Thomas M. Crowe	Doctor of medicine	February 19, 1902	None
Bartholomew Connors	Secretary Grain Shovelers Union, Local 109	February 19, 1902	None
Philip Stern	Lawyer	July 29, 1904	None
Clark D Roberts	Coal dealer	Nov. 6, 1914	None

The employees of the commission are as follows:

NAME	Position	Date of appointment	Salary
William D. Cushman	Secretary	April 1, 1902	$1,000
Ida A. Wood	Stenographer and clerk	April 1, 1902	720

"Notice of examination is published six times in the official paper (the 'Commercial'). The other daily papers take the matter up and give notice among news items. Bulletins are also posted in conspicuous places in the city hall and at the rooms of this commission. The examination papers are prepared and rated by committees of the commission which are appointed by the board. Applications, ratings and eligible lists are preserved

and are open to the public. The examination answer papers of candidates are preserved but are exhibited only to the person who wrote such papers or his authorized attorney."

There have been no exceptions from examination under the provisions of section 14, paragraph 2, of the civil service law.

The provisions of the law giving preference to veterans, regarding certification of payrolls and accounts for services and the registration of laborers and certifications from the list have been strictly complied with, and all fiscal or disbursing officers of the city or of city moneys, require the certificate of the commission upon all payrolls and accounts for services. The commission has a complete roster of all city employees, and states that the roster and other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

One candidate in examination appealed from the rating given, and the appeal was sustained by the commission.

"In reference to appointments of laborers this commission reports that it is unable to give accurate data because the greater portion of the laborers employed by the city of Buffalo are men employed temporarily in the department of public works where their employment lasts only a few months or weeks as the particular work upon which they are engaged demands."

Fifteen non-competitive provisional or emergency examinations were held during the year. In each case, except chainmen, competitive examinations were subsequently ordered. The chainmen qualified provisionally were dismissed when the emergency service was finished.

Cohoes

The commissioners are William B. LeRoy, postmaster, appointed May 9, 1896; Louis Boudrias, dentist, appointed May 9, 1896, and John Maguire, appointed February 21, 1903. They receive no compensation. The secretary is William S. Clark, appointed February 21, 1899. The secretary's salary is $100 per annum.

Notice of time and place of receiving applications and holding competitive examinations is given by six insertions in two daily papers, and by postal to applicants. Examination questions are

Digitized by Google

prepared and answers rated by the commissioners. Applications, examination answer papers of candidates, ratings and eligible lists are preserved and are open for public inspection.

No provisional or emergency examinations have been held during the year, and there have been no exceptions from examination under section 14, paragraph 2, of the civil service law.

Report states that the provisions of the law giving preference to veterans have been strictly complied with.

The following questions and answers are copied from the commission's report:

Question: Has the provision of the law regarding certification of payrolls and accounts for services been strictly complied with? By whom are the payrolls and accounts reviewed and certified? Answer: No. What payrolls are certified are reviewed by the clerk and signed.

Question: Are there any employees in departments or divisions of public service in the city whose accounts for services are paid without certification by commission? If so, explain fully. Answer: Yes. The fire board, water board, school board and police are the only bills which the commission receives for their certification.

Question: Has the provision of the law regarding registration of laborers been strictly complied with and are all employments in the labor class made after certification by the commission from the registration list? If not, explain fully. Answer: No laborers have requested their registration.

Question: Has the commission a complete roster of all the city employees, showing names, titles of positions, dates of appointment and salaries? If not, explain fully. Answer: In preparation at present time. No records of appointments have delayed the commission.

Question: Are the roster and other records of commission sufficiently complete so as to make it possible to establish the legality of the appointment of all persons now in the classified service? If not, explain fully. Answer: No.

Question: Do all fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services? Answer: No.

Digitized by Google

"The reason for the delay in this report has been that the commission cannot find out the dates of appointments of the different boards. Said boards never notify this commission whom they select from eligible lists."

Corning

The commission was appointed in March, 1904, and consists of the following persons, none of whom receive compensation: John Garty, foreman cutting shop; John Owen, retail merchant; A. F. Williams, retail merchant; John Skelly, retail merchant; F. J. Bantley, railway ticket agent. H. D. Jones, the secretary, who receives a salary of $50 per annum, was appointed in August, 1903, and reappointed by the present commission in March, 1904.

Ratings and eligible lists are open for public inspection. The commission has held no examinations of any kind during the year. There have been no exceptions from examination under section 14, paragraph 2, of the civil service law. No laborers were registered and none appointed. So far as the commission knows, the provisions of the law giving preference to veterans have been strictly complied with. The provision of the law regarding certification of payrolls and accounts for services has been strictly complied with. Certification is made by the secretary of the commission. Fiscal or disbursing officers of the city require the certificate of the commission upon all payrolls and accounts for services, and there are no employees in the public service whose accounts are paid without certification. The commission has a roster of city employees taken from the city clerk's records. The roster and other records of the commission are deemed sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

Cortland

The commissioners are Frank J. Peck, cashier, and Edward D. Blodgett, editor, appointed May 15, 1900, and James R. Schermerhorn, real estate agent, appointed February 5, 1901. The commissioners receive no compensation except Commissioner Schermerhorn, who was elected secretary May 6, 1901, and receives an annual salary of $50.

Digitized by Google

Notice of competitive examinations is published in official papers of the city; the commissioners prepare the examinations and rate the answers of candidates; the papers of candidates, ratings and eligible lists are open for public inspection. The only examinations held during the year were for three positions in the non-competitive class. There were no appeals from ratings, and no exceptions from examination under section 14, paragraph 2, of the civil service law.

The provisions of the law giving preference to veterans, and regarding registration and appointment of laborers have been strictly complied with.

In answer to question 19, inquiring as to compliance with the provision of the law regarding certification of payrolls and accounts for services, commission reports: "Secretary certifies to all employees of police department, labor department and driver of city fire team." Commission reports, in answer to the question, "Are there any employees in departments or divisions of public service in the city whose accounts for services are paid without certification by commission?" that the only payrolls presented to it for certification are the ones referred to in question 19. Report states that all fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services.

The commission has a roster of all city employees, and it and the other records of the commission are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

"No vacancies have occurred during the past year."

Dunkirk

The commissioners are C. C. Jones, teacher; J. E. Wirtner, merchant, and C. L. Hayes, clerk. The secretary is H. G. Sherwood, city clerk. The commissioners and secretary were appointed January 1, 1904, and all serve without compensation.

Notice of time and place of receiving applications and holding competitive examinations is given by announcement in all local papers. Examinations are prepared and candidates' papers rated by the commissioners and expert assistants. Applications, examination answer papers of candidates, ratings and eligible lists are preserved and are open for public inspection.

No non-competitive emergency examinations have been held during the year, and no persons excepted from examination under section 14, paragraph 2, of the civil service law.

No appeals from ratings have been made to the commission. During the year there has been no occasion for the application of the provisions of the law giving preference to veterans. The provision of the law regarding certification of payrolls and accounts for services is complied with. The secretary does the certifying; and all fiscal or disbursing officers require the certificate of the commission except in the case of employees of the water and electric light department, who are paid by warrant issued by the secretary of the water board independent of the general city government, and whose accounts are not certified by the commission.

The provisions of the law regarding registration of laborers and certification by the commission from the registration list for all employments in the labor class, have been strictly complied with. The commission has a roster of the city employees. The roster and other records, the commission states, are sufficiently complete to make it possible to establish the legality of the appointment of all persons now in the classified service.

Elmira

The commission consists of Fred C. Potter, insurance agent; William H. Boliker, clerk, and Robert S. Hill, clerk. The commissioners were appointed January 1, 1904, and each receives as compensation $5 per meeting. The secretary, Charles E. Frydenborg, was appointed January 1, 1904, and receives a salary of $25 per month.

Notice of competitive examinations is given by posting on official bulletin board and by advertising in city papers.

The commission held no non-competitive provisional examinations and made no exceptions from examination under section 14, paragraph 2, of the civil service law.

The provisions of the law regarding preference of veterans, the certification of payrolls and accounts for services, registration of laborers and their appointment from the registration list, have all been complied with.

No candidates in examinations have appealed from the ratings accorded them by the commission.

commissioners receive no salary. The secretary, Grove R. Watson, appointed January 1, 1902, receives a salary of $120 per year.

Notice of the time and place of receiving applications and holding competitive examinations is posted on bulletin board of the city clerk at least five days prior to such examination and is also published in city papers. Examination papers are prepared and rated by one or more members of the commission, assisted by the secretary. All papers are open for inspection if wanted. They are in the custody of the secretary.

One non-competitive provisional examination was held for the position of engineer at pumping station to fill a vacancy necessitating the employment of some one at once. A competitive examination was subsequently held and an eligible list established.

The following exception from examination was made under the provisions of section 14, paragraph 2, of the civil service law: "James C. McGonagle for temporary appointment as civil engineer, by request of board of public works, no other suitable man being available. Referred to State Civil Service Commission and approved by them on or about May 8, 1904."

So far as the commission knows the provisions of the law giving preference to veterans have been strictly complied with. The provisions of the law regarding certification of payrolls and accounts for services are strictly complied with. Payrolls of all persons in the classified service are reviewed and certified by the secretary. Only persons in the unclassified service are paid without the commission's certificate.

In regard to compliance with the provisions of the law regarding registration of laborers and employments in the labor class after certification by the commission from the registration list, report reads as follows:

"We report, as has been done each year, that we believe the intent of the law is complied with. This was fully explained to State Civil Service Commissioner Charles F. Milliken when he examined this commission on the 7th day of January, 1904, and covered by him in his report to the State Civil Service Commission of January 11, 1904. Nearly all of the laborers are employed by the Board of Public Works. Each applicant for registration and employment as laborer fills out, or has filled out, a

form of application. His name is then entered on the eligible list and certified to the Superintendent of Public Works as being on such list. At some seasons of the year many more laborers are required than at others. Many register and if employment is not given them at once, secure other work. The superintendent is obliged to employ from those on the eligible list as the needs of the service require and as he is able to obtain them. This is the only practical method in a place of this size."

The commission considers its roster and other records complete in every way and such as to make it possible to establish the legality of the appointment of all persons in the classified service.

Gloversville

The members of the commission are N. M. Banker, lawyer; R. B. Parsons, real estate agent, and J. E. Belden, bookkeeper, all appointed on January 1, 1904. The commissioners receive $10 each per meeting for the examination of candidates. Commission has no employees. Commissioner Belden acts as secretary.

a few times. The commission is of the opinion that said firemen should pass an examination as this is the first year of their appointment at a salary. In explanation more fully regarding the fourteen firemen, the local commission would like instructions from the proper authorities as to the manner of appointment of the firemen in question. As we were not called upon to give them an examination of any kind, I placed them under the head of the non-competitive class, they having been appointed during the year 1904. As before stated, the secretary has certified to said payrolls a few times under protest, as he did not wish to deprive the employees of their pay for the time being."

The provision of the law regarding registration of laborers has been strictly complied with and all employments in the labor class are made after certification by the commission from the registration list.

With reference to the roster of city employees, the commission states that it has such roster but has not the dates of all the appointments. "In explanation, the city clerk has been ill during the summer and unable to attend to the matter." With reference to the roster and other records of the commission it is stated "they are complete so as to establish the legality of all appointments with the exception of the above firemen as stated."

Hornellsville

The commissioners are George A. Waldorf, merchant, appointed August 1, 1900; Fred A. Gross, merchant, appointed June 18, 1900; H. A. Pratt, retired merchant, appointed April 20, 1904. Each receives $75 per annum. The secretary is City Clerk M. B. Smith, appointed in April, 1899; no compensation.

Announcement of competitive examinations is made by publishing in daily papers at least six days and by posting notice on bulletin board. Examination papers are made out by the commissioners and secretary and are rated by the commissioners. All examination papers are open for inspection.

These are stated to be entirely distinct, being maintained by a separate tax and having machinery for collection for payment. Aside from this case all fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services. Payrolls are reviewed and certified by the secretary.

In answer to the question, "Has the commission a complete roster of all the city employees, showing names, titles of positions, dates of appointment and salaries?" the report gives the following statement: "Yes, the regular payrolls serve as such." The commission states that the roster and its other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

"By reference to the answers to the various questions submitted by your honorable body you will see that little, if any, change has been made in the service of the city during the year. Will report that the laws affecting the various branches of the service have been observed throughout and that the various boards of appointment have manifested a disposition to consult with the commission in all matters connected with the civil service law."

Little Falls

The commissioners are Charles D. Crowley, printer, appointed February 2, 1904; George D. Ferguson, bookkeeper, appointed February 2, 1904, and Norman D. Olmstead, originally appointed in 1899, and reappointed February 2, 1904. H. W. Warren was appointed secretary of the commission February 2, 1904, but was succeeded by James G. Hazlett, the city clerk, on April 12, 1904.

Each commissioner receives a salary of $50 per year and the secretary $100 per year.

The commission makes this statement in explanation of the small number of persons who enter competitive examinations, "Salaries not attractive to good men, and small chance of appointment of poor ones."

"Notices of competitive examinations are posted in the post office about ten days in advance, and usually published in official papers. Examination papers are prepared and rated by commissioners except in subjects of a technical character, when experts are employed. Applications, examination papers and answer papers are kept on public inspection."

The commission held non-competitive provisional examinations for positions of assistant city engineer, inspector of public works, fireman and electrician. Subsequently competitive examinations were held and eligible lists established for each position.

There were no appeals from ratings, and no cases of suspension of competition under section 14, paragraph 2, of the civil service law. The provisions of the law giving preference to veterans have been strictly complied with; also the provisions regarding certification of payrolls and accounts for services.

Review and certification of payrolls are made by the secretary, and the disbursing officer of the city requires certification of all accounts for services except school employees. Payrolls of all school employees are not certified by the commission, it having been decided by the court in the case of Kerns vs. The Treasurer of the city of Little Falls, that the education department is distinct from the general city government and not subject to the civil service law and rules.

The provisions of the law regarding registration of laborers and certifications from the registration list for employments, are strictly complied with. The commission has a roster of the city service which, in connection with the commission's other records, is sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

In conclusion the commission reports that "The civil service law is enforced without friction and the several appointing powers respect its provisions."

Lockport

There have been no changes in the organization of the commission since last year when the annual report stated that, "On January 1, 1903, Mayor Baker appointed Charles M. Southworth, George L. Smith and Horatio H. Woods to be municipal civil service commissioners, and at a meeting of the commission held on the 7th day of January, 1903, Charles M. Southworth was duly elected president and George L. Smith was duly elected examiner for the purpose of organization. Mr. Southworth, by profession, is an attorney at law; Mr. Smith is foreman in the Holly Manufacturing Company of this city, and Mr. Woods is a merchant. The commissioners serve without compensation. Frank C. Averell, the secretary of the commission, is the only person employed by it, and he receives a salary of $250 per year."

The commission states that "there have been no vacancies in, and no appointments to, positions in the police department. The examination for policeman was asked for in order to provide an eligible list from which policemen could be appointed in case the same were needed, but no such appointments have thus far been made."

"When the date of an examination is definitely decided upon, prospective candidates are notified by newspaper notice of the time and place of holding the examination and filing applications. The rules provide that five days written notice be given each person who has filed an application, and that a written notice of the time and place of holding examination be posted upon the bulletin board at least five business days prior thereto. Hence persons who have not filed applications at least five days before examination receive no direct notice, but must depend upon notice on bulletin board, as provided by the rules."

"Examination papers are prepared and read by the members of the commission."

"All papers are preserved on file by the commission and are open for reasonable public inspection. The papers of one candidate at any competitive examination have not been subject to inspection by other persons who were candidates at the same examination."

"All laborers employed by the city are duly registered, and the financial officer of the city requires a certificate showing such registration before disbursing any moneys on account of wages or salaries."

"There have been no violations or breaches of the civil service law in the city during the year, so far as can be ascertained by the commission, and the working of the law has been very satisfactory."

"The commission has closely followed the practice of last year in the conduct of examinations, and questions have been prepared testing the applicant's knowledge in practice as well as his technical ability."

"During the year several amendments to our civil service rules were suggested by your secretary. The matter was taken up by this commission, and the amendments proposed were adopted, with the approval of your commission. These amendments have since been incorporated as part of our printed rules."

"We desire to thank your commission for the assistance given us during the year in various matters, and particularly for the valuable aid rendered by your secretary in the adoption of the amendments above referred to."

Commissioners: Daniel W. Whitmore, merchant, appointed November 20, 1903; John G. Wintgen, manufacturer, appointed November 20, 1903; William D. Grant, manufacturer, appointed February 8, 1904. Secretary, Charles H. Stecker, journalist, appointed November 20, 1903. The commissioners and secretary each receive $5 per meeting.

"The legal notices for examinations are printed five times in the local daily papers and posted on the civil service bulletin board in the city hall. Experts usually prepare papers under the direction of the civil service commission. Applicants who have taken examinations may inspect their own papers. Where there is a lack of competition we believe it to be due to the insufficiency of salary offered and the fact that more remunerative positions can be obtained in the adjacent city of New York."

There have been no non-competitive provisional examinations held, and no exceptions from examinations under section 14, paragraph 2, of the civil service law. As to number of appeals from ratings and action thereon, commission reports, "one patrolman; candidate upon examination of his papers expressed himself as satisfied that justice had been done him."

"The municipal civil service commission is pleased to report that the importance of the workings of the civil service law are daily being given greater recognition in our city. All departments have been fully advised of their duties towards this board and are working in perfect harmony with it. The commission is grateful for the advice and assistance given by the secretary of the State Commission, John C. Birdseye, who paid an official visit to this city on October 7, 1904, and inspected this department. The only occurrence at variance with the rules of this board was that of inadvertently issuing the certification of the fifth name on the list of janitors for the new library, but when the attention of the library trustees was called to the error the candidate was dismissed and the rules complied with. The librarian and assistant librarian have been placed in the classified service by resolution of this commission adopted November 14, 1904, and approved by the State Civil Service Commission on December 16, 1904."

Commission reports, in answer to question, "Are there any employees in departments or divisions of public service in the city whose accounts for services are paid without certification by commission?" that, "No regular employees receive compensation without certification by this commission. During the year certain persons have been employed by the engineering department upon special work, and have been paid under a special appropriation by the common council. While these persons are not considered as regular employees of the city, this commission has entered a protest against this practice in cases where the employment has continued any length of time."

With regard to compliance with the provisions of the law in the matter of registration of laborers and employments in the labor class, the report reads as follows: "We have at times experienced some difficulty in securing a strict compliance with the law, with respect to the labor class, despite the fact that we have usually the cooperation of the officers employing the laborers. Owing to the varying demand for day laborers, it becomes necessary in the interest of economical administration that men in this class should be employed and laid off as occasion requires. If the appointing officer is compelled whenever he finds that he requires more laborers to make a formal requisition upon the commission and to give preference in appointing according to the date of the laborer's application, he frequently finds it necessary to wait an undue amount of time for his men and to select those who are not as efficient for the particular service required as others who have been subsequently registered."

The commission has a complete roster of the city service. The roster and other records of the commission are sufficiently complete so as to make it possible to establish the legality of the appointment of all persons in the classified service.

Of this number, 151 are monitors at compensation of $5 per day when employed, 10 are expert examiners at compensation of $10 per day when employed, and the remainder are regular salaried employees.

At least two weeks notice is given of the time and place of receiving applications and holding competitive examinations. Examination papers are prepared and answers rated by the examining board and (in special cases) experts. Applications, examination answer papers of candidates and ratings may be inspected by candidates themselves or by the heads of departments to whom their names are certified. Eligible lists are open to the inspection of the public.

Sixty-six non-competitive provisional or emergency examinations were held during the year, in which 341 candidates passed and 11 failed. Competitive examinations were subsequently held and eligible lists established in each case.

970 persons were notified for trade examinations; 141 failed to appear. Of the remainder, 565 passed and 264 failed.

14,104 persons were notified for physical examination; 4,371 failed to appear. Of those who were examined, 8,733 passed and 1,000 were rejected.

Of 3,849 appointments in the labor class, 3,173 were from the regular list and 676 from the preferred list.

There have been 3,319 appeals from ratings. 1,164 of the appeals were granted and 2,155 denied.

The commission has approved 37 appointments under municipal civil service rule XII, paragraph 4, and has excepted two persons from examination under paragraph 6 of the same rule.

The provisions of the law giving preference to veterans have been strictly complied with by appointing officers.

The provisions of the law regarding certification of payrolls and accounts for services have been strictly complied with. Payrolls and accounts are certified by the secretary or the assistant secretary after being verified by the payroll clerks. Fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services. The

only employees in departments or divisions of the public service in the city whose accounts for services are paid without certification by the commission are teachers in the department of education and employees in the library service with the exception of the Queens borough library.

The provisions of the law regarding registration of laborers and employments in the labor class after certification by the commission, have been strictly complied with.

The commission has a roster of city employees, showing names, titles of positions, dates of appointments and salaries, and this, with the other records, is sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

The commission appends to its report a financial statement and fourteen other statistical tables. These tables contain much valuable information concerning the public service and the work of the commission but are deemed too voluminous for summarizing in this volume. They may be inspected at the office of the State Civil Service Commission.

Niagara Falls

On January 5, 1905, the mayor appointed James Traverse, Charles E. Cowdrick and F. G. Anderson to be municipal civil service commissioners in place of John W. Cutler, James F. McGraw and John O. Chapin, and designated Commissioner Anderson as secretary of the commission at compensation of $30 per month, the other commissioners receiving no salary.

The commission gives as its reason for there being a small number of candidates in several competitive examinations, that, "Lack of competition is due to fact that but one appointment was to be made." Notice of time and place of holding competitive examinations is given by daily publication in two local papers for two weeks prior to the examination and three days notice by mail to every candidate having filed application. Examination papers are prepared and rated by the commissioners and secretary, principally the secretary. Applications, examination answer papers of candidates, ratings and eligible lists are all open to public inspection.

The commission held no non-competitive provisional examinations during the year 1904, received no appeals from ratings, and excepted no persons from competitive examination under the provisions of section 14, paragraph 2, of the civil service law. The provisions of the law giving preference to veterans and regarding certification of payrolls and accounts for services, are strictly complied with. The secretary of the commission reviews and certifies payrolls after they are approved by the heads of the respective departments. There are no employees in departments or divisions of the public service whose accounts are paid without the commission's certification. All disbursing officers require such certificate.

In response to the question "Has the provision of the law regarding registration of laborers been strictly complied with and are all employments in the labor class made after certification by the commission from the registration list," the report states "Registration has been and certification as far as possible."

The commission has a roster of all city employees, showing names, titles of positions, dates of appointments and salaries. This and the other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

The report is signed by Commissioners Traverse, Cowdrick and Anderson, and is concluded as follows: "The foregoing report is made up from the records as turned over to the present commissioners by the former commissioners and also from statements made by the former secretary."

North Tonawanda

No report having been received from the municipal civil service commission in response to the State Commission's communication of December 30, 1904, on February 1st, and again on April 4th, communications were addressed to the municipal commission calling attention to the matter. On April 10th, the State Commission received the following communication:

"MUNICIPAL CIVIL SERVICE COMMISSION,
CITY OF NORTH TONAWANDA, N. Y.,
Secretary's Office,
April 7, 1905.

Mr. JOHN C. BIRDSEYE, *Secretary. State Civil Service Commission, Albany, N. Y.:*

Dear Sir:—I enclose you herewith an incomplete report for the North Tonawanda municipal civil service commission for the year 1904, but it is the best that can be ascertained from the records of the old commission. The reason the report has been delayed so long is due to the fact that my predecessor, August Gardei, who is now at Niagara Falls, said he would make out the report and mail it to you. I supposed he had done so until I received your telegram. He has the report blank and question blank. As you see, I have sent you answers to the questions which were issued in 1903.

I am sorry I am obliged to submit to you such an unsatisfactory report, but hope to have a perfect report at the close of my first year.

Yours respectfully,
H. B. SOMMER,
Secretary."

The report submitted shows the following:

Commissioners: H. J. Hoadley, member of the Hoadley & Bennett Lumber Company; Hiram G. Fisher, foreman of Niagara River Planing Mill; Brookes Dawson, foreman of A. Weston & Sons Lumber Company plant. All appointed January 10, 1905, to serve without compensation.

Secretary, H. B. Sommer, salary $200 per year.

No record of any competitive examinations held during the year.

"Notices of examination are posted in ten conspicuous places and published at least five times in the official paper of city. The papers are prepared and rated by this commission. Since January 1, 1905, papers have been open to public inspection."

No record of any non-competitive examinations, nor of appointments, removals, resignations, transfers, promotions, or regarding compliance with the provisions of the law giving preference to veterans, concerning certification of payrolls and the registration of laborers.

Digitized by Google

"The old commission did not have a complete roster of all city employees. I am now preparing a new list and will send a complete list when same is arranged."

"Evidently the commission was lax in regard to payrolls."

Ogdensburg

The commissioners are: Daniel W. Mulligan, lawyer, appointed March 4, 1902; Wallace W. Overton, clerk, appointed March 4, 1902, and Silas E. Brown, physician, appointed May 25, 1899. Commissioners receive no compensation. D. J. Crichton, Jr., secretary, appointed March 15, 1900, receives no compensation.

Report shows that there were no competitive examinations during the year; also no appointments, removals or resignations.

Notice of the time and place of receiving applications and holding competitive examinations is given through the local newspapers and by posting on bulletin board. Examination papers prepared and rated by the commission. All records open for public inspection.

No examinations for positions in the non-competitive class have been held, nor non-competitive provisional examinations. Under list of exceptions from examination (under section 14, paragraph 2, of the civil service law), with reasons for the same, the report states as follows: "E. J. Burns, engineer of steamer, fire department; no applicants for position. This man carries chief engineer's papers (marine). Appointed to fill vacancy caused by death."

The provisions of the law giving preference to veterans, regarding certification of payrolls and accounts for services, and requiring registration of laborers and employments after certification by the commission from the registration list, have been strictly complied with. There are no employees in departments or divisions of the public service whose accounts are paid without certification. The secretary reviews and certifies payrolls. All fiscal or disbursing officers of the city, or of city funds, require the commission's certification on all accounts for services.

Commission has a complete roster of city employees. By means of the roster and other records the commission can establish the legality of the appointment of all persons in the classified service.

In conclusion the commission states, "The roster of the labor class enclosed shows the names of all laborers, who have what could be called steady employment. The balance of the labor list which includes a large number of names are only employed from day to day during the summer."

Olean

Commissioners: Creighton S. Andrews, attorney-at-law; M. G. Fitzpatrick, lumber merchant; William P. Hannifau, shoe merchant. The commission was appointed March 3, 1904. The commissioners receive no compensation except Mr. Andrews, who receives $100 per annum as secretary of the commission.

"The service of the city requires very few so-called skilled laborers or trades. For this reason most of those registered are registered as 'general laborers,' or as asking for employment in any department of the city service. The employing officer makes requisition on us for a list of those entitled to work and from the list furnished he selects those whom he desires to employ and uses their services from time to time as they are needed. They are not in the steady employ of the city, but work only as occasion demands."

It is the opinion of the commission that lack of competition for positions in the civil service of the city is due principally to lack of interest. "A printed notice of competitive examinations, showing time, place and character of examinations, is posted in two conspicuous and public places in the city (usually in the post office corridor and office of secretary of commission) all more than ten days before the examination. Also published in two daily newspapers in the city several days before the examination and for two or three times. All papers and records of such examinations are preserved for public inspection. Papers are prepared and rated by members of the commission."

There have been no non-competitive provisional examinations, no appeals from ratings, and no exceptions from examination under section 14, paragraph 2, of the civil service law. The provisions of the law giving preference to veterans have been strictly complied with. Payrolls and accounts for services are reviewed and certified by the secretary of the commission. The provision of the law regarding certification of payrolls and accounts for

Digitized by Google

services has been strictly complied with except by the water department. "The water department does not present to us their payrolls and accounts although the secretary has requested them so to do and the superintendent of the water department tells us he was fully aware of the provision of law in regard to it, but believed that their department was exempt from that provision. The secretary of the commission has endeavored to impress upon disbursing and fiscal officers the necessity of having their accounts and payrolls bear the certificate of the commission. They have all done so with the exception of the water department, although all of their laborers, mechanics and clerks have been registered or have taken the requisite examinations. In a certain sense this department is separate and apart from the other departments of city government, but there is no reason why they should not comply with this part of the law so long as they disburse the public funds. The superintendent is perfectly honest and conscientious about the matter and had no intention of violating the provision of the law but was acting entirely as he thought the law required. He has, however, been convinced of his error and promises hereafter to regularly present his payrolls and accounts for our certificate."

The provisions of the law regarding registration of laborers and employments after certification by the commission from the registration list, have been strictly complied with. The commission has a roster of the city employees, and believes that the roster and other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons of the classified service.

Oneida

The commission consists of Martin Cavana, physician, Edward R. McDougall, pharmacist, and Fred J. Baldwin, pharmacist. Commissioners Cavana and McDougall have held office since May 24, 1901. They receive no compensation. Commissioner Baldwin was appointed February 28, 1904, and receives $50 per annum for services as secretary of the commission.

Examination for paid fireman was the only one, out of nine competitive examinations held by the commission, that attracted more than three candidates. The commission is of the opinion that lack of competition is due to small compensation.

"Notice of time and place of receiving applications and holding competitive examinations is given by posting notice on the bulletin at office of city clerk at least five days previous to time of holding examination. Papers are prepared and rated by the commission. All papers and lists are preserved and are open for public inspection."

The commission held no non-competitive provisional examinations, and no case of suspension of competition under section 14, paragraph 2, of the civil service law, is reported. No candidates appealed from ratings. The provisions of the law giving preference to veterans and in regard to certification of payrolls have been strictly complied with. Payrolls are reviewed and certified by the commission. Fiscal officers require the certificate of the commission of all payrolls and accounts for services. The only employees of the city whose compensation is paid without certification are those in the unclassified service.

In regard to registration of laborers and employments from the registration list after certification by the commission, it is reported that, "It has been necessary to employ laborers in emergencies that were not registered and under these conditions the law could not be strictly complied with."

The commission has a complete roster of all the city employees, showing names, titles of positions, dates of appointments, and salaries. Records of the commission are sufficiently complete, together with the roster, to establish the legality of the appointment of all persons in the classified service.

Oswego

The commissioners are C. A. Sheridan, M. D., president; appointed January 1, 1904; F. H. Hinman, machinist, appointed January 1, 1904, and Edward J. Igoe, merchant, appointed January 13, 1903. Commissioners receive no salary. The secretary is Miles M. Kehoe, merchant, appointed January 1, 1904, at compensation of $400 per annum.

"Notice is given of the time and place of receiving applications and holding competitive examinations by publication in local newspapers and by posting on bulletin in city hall at least five days prior to the examination. Examination papers are prepared and rated by the commission, and all records are open to public inspection on application by any citizen."

There have been no non-competitive provisional examinations for emergency appointments; no appeals from ratings, and no exceptions from examination under section 14, paragraph 2, of the civil service law.

The provisions of the law giving preference to veterans, and regarding certification of payrolls and accounts for services are strictly complied with; also the provisions regarding registration of laborers and employments from the registration list. Teachers in public schools are the only persons in the public service whose accounts are paid without the commission's certification; otherwise all fiscal or disbursing officers of the city, or of city moneys, require payrolls to be certified.

The commission has a complete roster of all city employees. Roster and other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

"There have been 101 laborers employed at different times during the year and they receive $1.50 per day for eight hours work."

Plattsburg

The commissioners are John B. Riley, lawyer; David Agnew, lawyer, and E. A. Barnes, M. D. Mr. Agnew was appointed May 15, 1902, and Messrs. Riley and Barnes, March 1, 1904. The commissioners serve without compensation. Under a provision of the charter the city clerk, Thomas F. Mannix, is ex officio secretary of the commission. The city clerk receives no extra compensation for this service.

Notice of time and place of receiving applications and holding competitive examinations is given by advertisement in papers and by notices posted in three public places. Only one examination of any kind was held during the year; to wit, competitive examination for the position of fireman. No appeals from ratings, no removals, one resignation in competitive class, no transfers, no promotions, no exceptions from examination under section 14, paragraph 2, of the civil service law.

Provisions of the law giving preference to veterans and with relation to certification of payrolls and the registration of laborers and employments in the labor class after certification by the

commission, have been strictly complied with. Payrolls and accounts for services are reviewed and certified by the secretary, and there are no employees in departments or divisions of the public service whose accounts are paid without certification by the commission except those of the board of education.

The commission has a roster of all city employees. The roster and other records of the commission are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

Poughkeepsie

The commissioners are Charles P. Colwell, clerk of board of supervisors, appointed January 1, 1899; E. B. Sweet, manager of opera house, appointed January 1, 1901, and E. T. Sisson, auctioneer, appointed January 1, 1901. Mr. Sisson acts as secretary of the commission and receives compensation of $200 per annum. The other commissioners serve without compensation.

Information concerning competitive examinations is given by posting notice on bulletin board in city hall and by advertisement in local papers. Examination papers are usually prepared and rated by the commission. In examinations for engineers, etc., the commission has the assistance of the city engineer. The books and records of the commission are open for public inspection. There have been no appeals from ratings and no exceptions from examination under the provisions of section 14, paragraph 2, of the civil service law.

The provisions of the law regarding registration of laborers and certification from the registration list for employments in the labor class, have not been complied with. The commission keeps no register of laborers. Report states, however, that the provision of the law regarding certification of payrolls and accounts for services have been strictly complied with, certification being made by the secretary, but states that laborers are paid without certification.

There have been no provisional examinations, no appeals from ratings, and no exceptions from examination under section 14, paragraph 2, of the civil service law.

Provision of the law giving preference to veterans has been complied with. Commission has a complete roster of city employees except laborers.

Rensselaer

The commission was appointed on January 1, 1904 and consists of Benjamin F. Allen (president), machinist; Thomas Flynn, cigarmaker, and Alfred J. McAvoy, Jr., bookkeeper, who acts as secretary of the commission and receives compensation of $100 per annum, the other commissioners being non-salaried.

Announcement of time and place of receiving applications and holding competitive examinations is given by posting a written notice at least five days prior to examination and by personal written notice to each candidate as required by the rules of the commission. Examination papers are prepared by the secretary of the commission and answer papers are rated by the commissioners. Applications, examination answer papers of candidates, ratings and eligible lists are preserved and open for public inspection. The only examination held during the year was a competitive examination for the position of paying inspector, in which there was but one candidate. There have been no exceptions from examination under section 14, paragraph 2, of the civil service law.

With reference to the provisions of the law giving preference to veterans, report states "No case arising requiring that such preference be made." The provisions of the law regarding registration of laborers and employments after certification by the commission from the registration list, have been strictly complied with; also the provision relating to certification of payrolls and accounts for services. Fiscal or disbursing officers of the city, or of city funds, require the certificate of the commission upon all payrolls and accounts for services. Certification is made by the secretary.

The commission has a roster of all city employees, deemed sufficiently complete, with other records of the commission, to make it possible to establish the legality of the appointment of all persons in the classified service.

Rochester

The commission is composed as follows: A. M. Spiehler, wholesale perfumer, appointed January 1, 1902; Oswald J. Bryan, druggist, appointed January 29, 1901; George J. Oakes, merchant, appointed January 1, 1904. The members of the commission serve without compensation.

The commission has the following employees:

James L. Whitley, secretary and chief examiner, appointed January 1, 1902, salary $1,000 per annum.

Margaret A. Lucy, stenographer and clerk, appointed January 1, 1900, salary $600 per annum.

"In examinations where the successful candidates did not exceed three, lack of competition was due to the fact that the examinations were technical and persons not familiar with the position would be unable to compete."

"The date and nature of all examinations are printed in the local daily papers and a notice posted on the bulletin board in the city hall. Papers are prepared and rated by the secretary and chief examiner. All papers and records of the office are always open for public inspection.

The commission held no non-competitive provisional examinations during the year. Six appeals from ratings were received, all of which were dismissed. There were no cases of suspension of competition under section 14, paragraph 2, of the civil service law.

Provisions of the law giving preference to veterans, regarding certification of payrolls and in relation to the registration of laborers and employments in the labor class from the registration lists, have been strictly complied with. Payrolls are reviewed and certified by the secretary. In answer to question, "Are there any employees in departments or divisions of public service in the city whose accounts for services are paid without certification by commission? If so, explain fully," the commission reports: "None, except two examiners of principals and teachers in the public schools. This position the commission deems should come under civil service, and on November 18, 1904, amended its rules, placing said position in the non-competitive class, which amendment failed to receive the approval of the State Commission. The salary in each instance is $300 per annum."

With the above exception fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services.

Rome

The commission was appointed January 1, 1904, and is composed of the following persons: George A. Clyde, president; B. H. Beach, C. J. Aldridge. They receive no salary. The secretary is N. C. Gaylord, appointed January 1, 1904. His salary is $250 per annum.

Notice of time and place of receiving applications and holding competitive examinations is given by "advertising in daily papers three times, written notice five days in advance of examinations." Examinations are prepared and answers of candidates are rated by the commissioners. Applications, examination answer papers of candidates, ratings and eligible lists are preserved and are open for public inspection.

Non-competitive provisional examinations were held for the positions of examiner of accounts and inspector of paving, water and sewers. Competitive examinations were subsequently held and eligible lists established. There have been no appeals from ratings and no exceptions from examination under section 14, paragraph 2, of the civil service law.

The provisions of the law giving preference to veterans, and with regard to certification of payrolls and accounts for services have been strictly complied with, as well as the provisions regarding registration of laborers and employments after certification from the registration list by the commission. The commission answers the question, "Are there any employees in departments or divisions of public service in the city whose accounts for services are paid without certification by commission?" as follows: "Street superintendent, civil engineer," and answers in the negative the question "Do all the fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services?"

Payrolls are reviewed by the commissioners and certified by the secretary. The commission has a roster of all city employees, and

Announcement of time and place of receiving applications and holding competitive examinations is given by advertisement one week in official paper and notice posted in the city hall. Examinations are prepared and answers rated by the commissioners. All papers are preserved and are open to public inspection; examination answer papers of candidates only open to inspection by the author. In six of the competitive examinations held during the year there were three or less candidates only. The commission does not know the cause of the lack of competition. Commission reports non-competitive provisional examinations for janitor, chainman and stenographer, meter reader, treasury clerk, clerk to superintendent of schools, rodman, assistant civil engineer, instrument man and chief electrical engineer for water works. Competitive examinations were subsequently held and an eligible list established in each case.

There were no appeals from ratings. The commission suspended competition, with the approval of the State Commission, in the case of a bacteriologist to the board of health, under the provisions of section 14, paragraph 2, of the civil service law.

The provision of the law regarding certification of payrolls and accounts for services has been strictly complied with. No persons in the civil service of the city are paid without the certificate of the commission except those in the unclassified service. The comptroller refuses to audit all other payrolls unless they are certified by the civil service commission. Reviewing of payrolls and certification thereof are done by the secretary.

"The certification of laborers from the registration list has never been strictly complied with, owing to the necessity heretofore existing in employing laborers for emergency cases, but during the past year no laborer has been employed who has not registered."

The commission has a roster of all employees of the city except those in the unclassified service. Roster and other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

Syracuse

The commission is as follows :

NAME	Occupation	Date of appointment	Salary
Joseph Fisher	Contractor	Jan. 1, 1902	$600
Parke S. Wicks	Dentist	Jan. 1, 1904	300
Lawrence Foley	Advertising agent	Jan. 1, 1902	300

The employees of the commission are as follows:

NAME	Position	Date of appointment	Salary
J. Peter Pinzer	Secretary	Jan. 1, 1902	$720
Herbert B Myron	Chief examiner	Jan. 17, 1901	1,000

Five to ten days notice of competitive examinations is given by posting notice in city hall and publishing in newspapers. Examination papers are prepared and rated by the chief examiner. Applications, ratings and eligible lists are preserved and are always open for public inspection. Examination answer papers are preserved until the termination of the eligible list and candidates are always shown their papers and ratings and given ample opportunity to examine them and appeal from ratings.

As to number of non-competitive provisional or emergency examinations held during the year, titles of positions, etc., report states: "Physician—eligible list was subsequently established. Five appointments as inspector in department of public works. Appointments were on small contracts when regular inspectors were employed. Examination was not subsequently held."

Commission reports that laborers are not registered.

One appeal from rating, made in December, 1903, was decided. Commission ordered medical examiner to re-examine the candidate and as a result of said re-examination candidate's name was placed on the eligible list.

There were no exceptions from examination under section 14, paragraph 2, of the civil service law.

The provisions of the law giving preference to veterans have been strictly complied with by appointing officers. The provision of the law regarding certification of payrolls and accounts for services has been strictly complied with. Payrolls are reviewed and certified by the secretary. All fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services. Commission has a roster of all city employees, and this and the other records of the commission are considered sufficiently complete to make it possible to establish the validity of the appointment of all persons in the classified service.

"The law regarding the registration of laborers has not been strictly complied with. Laborers never present themselves for registration, consequently the commission never has a list of eligibles. Then over ninety per cent. of the laborers are employed in the department of public works and they are not employed reguuarly but only as the needs of the service require."

Tonawanda

The commission was appointed May 5, 1903, and is composed as follows: Edward H. Hubman, president, lumber dealer and manufacturer; Horatio S. Wende, veterinary surgeon and farmer; Augustus H. Crown, secretary, general insurance. The commissioners each receive $5 per meeting and the secretary $200 per year.

Few persons enter examinations and the commission states: "Lack of competition due to fear and timidity and small salaries paid for service in the positions for which examinations were held."

Notice of time and place of receiving applications and holding competitive examinations is given by notices on bulletin boards in common council chamber and office of the commission and by publishing in daily paper. "Examination papers are prepared and rated by different people. Librarian, Prof. F. K. Stuley, superintendent of schools, prepared questions and rated papers; Health Officer, Dr. Ernest Wende, ex-health officer city of Buffalo, prepared questions and rated papers; janitor and health inspector, papers prepared and rated by the municipal civil service commissioners; fireman at city waterworks, A. A. Archer, engineer of the North Tonawanda city waterworks, prepared and rated this examination. Applications, examination answer papers of candidates, ratings and eligible lists are preserved and open for public inspection."

The commission held no non-competitive provisional examinations. There were no appeals from ratings. There were no cases of suspension of competition under the provisions of section 14, paragraph 2, of the civil service law.

Provisions of the law giving preference to veterans, regarding certification of payrolls and also regarding registration of laborers and employments from the registration list after certification by the commission, have been strictly complied with, "excepting in a case of employing a gang of workmen to unload boat loads of cinders for the streets, then the superintendent would employ any one who applied for a day or two at a time."

All fiscal or disbursing officers of the city, or of city funds, require the certificate of the commission upon all payrolls and accounts for services. Payrolls and accounts are reviewed and certified by the secretary of the commission.

The commission has a roster of city employees, showing names, titles of positions, dates of appointments and salaries. The roster and other records are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

Troy

The municipal commission reports as follows:

Commission appointed May 12, 1904. Names, occupations and salaries: Robert T. Smith (president), assistant editor, $1,000; Thomas F. Duffy, bookkeeper, $500; David L. Beattie, salesman, $500.

Employees: Stephen Madden, executive clerk, assigned by an ordinance of the common council to act as secretary to board of civil service commissioners, passed December 21, 1899, salary $800.

Not less than five days notice of competitive examinations given. Examinations prepared and answers rated by the commissioners. Applications, examination answer papers of candidates, ratings and eligible lists preserved and open for public inspection. No non-competitive provisional examinations during year; no appeals from ratings; no exceptions from examination under section 14, paragraph 2, of the civil service law.

Provisions of law giving preference to veterans strictly complied with by the appointing officers. Provisions of law regarding certification of payrolls and accounts for services strictly complied with. Payrolls received and reviewed by the secretary and certified by the commissioners. No employees in departments or divisions of public service in the city whose accounts for services are paid without certification by commission.

Concerning registration of laborers and employments from the registration list after certification by commission: "The law referred to here has not been strictly complied with by the municipal improvements commission. During the year a number of men whose names were not among the list of eligible candidates for positions on the books of the civil service commission were appointed to places in the park and waterworks bureaus under the municipal improvements commission. This commission has refused to certify to the payment of wages to such appointees and no payments of wages to them have been made."

Commission has a complete roster of all city employees, showing names, titles of positions, dates of appointments and salaries. The roster and other records of commission are sufficiently complete so as to make it possible to establish the legality of the

appointment of all persons now in the classified service. All fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services.

Under the head of "Remarks," report states: "In reply to this question we are pleased to state that, with the exception noted in the answer to question 21, the several departments of the city government have cooperated with this commission in enforcing the civil service law and the rules and regulations of this commission which have been approved by the State Civil Service Commission."

Utica

The commissioners are: J. de Peyster Lynch, lawyer, appointed January 1, 1901; George M. Weaver, Jr., manufacturer, appointed January 1, 1901; Frank H. Thomas, merchant, appointed January 1, 1901. The commissioners each receive $50 per annum. William J. Cahill is secretary of the commission, appointed in 1894, salary $200 per year.

"A notice is posted on our bulletin board in a conspicuous place in the city hall, and each candidate who has filed an application is given a notice by postal card at least five days prior to date of examination. Papers are rated by commission, assisted by the party who prepared questions. All records are open for public inspection." There have been no appeals from ratings and no exceptions from examination under the provisions of section 14, paragraph 2, of the civil service law. No non-competitive provisional examinations have been held.

The provisions of the law giving preference to veterans and regarding the certification of payrolls and accounts for services have been strictly complied with. All fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services. The provisions of the law in the matter of the registration of laborers and certifications from the list have been complied with as far as possible. "At times during year it is necessary for engineer to put on additional laborers temporarily, at which times he has to take such laborers as he can get."

Commission has no knowledge of any employees in departments or divisions of the public service in the city whose accounts

for services are paid without its certification. Payrolls are reviewed and certified by the commission.

The commission has a roster of the city service and the roster and other records are considered sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

Watertown

The commissioners are: James M. Dorsey, merchant, appointed October 21, 1898; Gary M. Jones, principal of high school, appointed October 21, 1898; Charles J. Bellinger, newspaper man, appointed in 1900. The commissioners serve without compensation. The secretary of the commission is J. H. O'Brien, appointed October 7, 1899; compensation, $300 per annum.

"Notice of examination and other necessary information is always posted on the bulletin board in the city hall corridor, and news items of the same are published in the city papers among the locals. Occasionally regular advertisements have been published in city and county papers, but it has been found that no attention is paid to them and that a local notice as a news item is better."

"All examination papers are prepared and rated by Commissioner Jones and the secretary. Applications, ratings and eligible lists are open to the public and answer papers of candidates are open for the inspection of competitors."

One non-competitive examination was held for the position of assistant civil engineer under rule 40, providing that whenever a vacancy exists in the competitive class and there is no eligible list from which an appointment can be made thereto, and in an open competitive examination duly advertised there either are no applicants or none of the applicants appearing is found qualified, the head of the office may nominate a person to the commission for non-competitive examination for permanent appointment in case the nominee is found qualified.

Non-competitive provisional examinations in emergency cases were held for firemen and drivers, patrolmen, stenographer in city engineer's office, levelers and assistant engineers. "Competitive examinations were subsequently held and appointments thereafter made to these positions, except that of stenographer

Digitized by Google

and levelers. In these cases the service was for a short time only, with no idea of making it permanent, and such stenographer and levelers are not now so employed."

There was one case of suspension of competition under section 14, paragraph 2, of the civil service law, viz., for the position of chemist in the filtration plant. A non-competitive examination was given the candidate.

No candidates appealed from the ratings given them. The provisions of the law giving preference to veterans have been strictly complied with by appointing officers. Commission believes that the provision of the law regarding certification of payrolls and accounts for services have been strictly complied with. All payrolls are certified by the secretary when in the city. Otherwise, by the president of the commission.

In answer to question, "Are there any employees in departments or divisions of public service in the city whose accounts for services are paid without certification by commission?" report states: "The only case of which the commission is aware, and of which the commission is doubtful as to whether it comes under this heading, is as follows: The Flower Memorial Library was recently presented to the city of Watertown, upon condition that the city apply each year for its maintenance the sum of $5,000. A librarian and other employees are at work there. The first moneys raised were $1,200, which, pursuant to a resolution of the common council, the city treasurer turned over in bulk to the trustees of said library; which said trustees are by a special act of the Legislature city officials. As stated before, this commission is doubtful as to whether or not this method is legal, but as yet has not had the matter brought before it in any manner."

"The provisions regarding the employment of laborers are not strictly complied with, it being impossible, as already several times explained in prior reports. The service is not steady, and in a small place of this size it is impossible to get the same men each time laborers are desired or to get those who are rightfully entitled to it. We are assured by the heads of departments that they comply with the provisions as strictly as they can do so without waste."

Digitized by Google

"The commission has a complete roster of all city employees in the competitive and non-competitive classes, showing names, titles, dates of appointment and salaries. It has never considered it necessary to have any other list."

The commission believes that the roster and its other records are sufficiently complete to make it possible to establish the legality of appointment of all persons in the classified service; also, to the best of the commission's knowledge and belief, all fiscal or disbursing officers of the city, or of city moneys, require the certificate of the commission upon all payrolls and accounts for services.

"During the winter, including January, February and March, 1904, a typhoid epidemic existed in this city, when it became necessary to employ persons for different positions. It was necessary for the city to equip and maintain a hospital, hire nurses, cooks, assistants and laborers therein, water distributors, the ordinary supply being contaminated, sanitary expert, etc. At that time the necessity was immediate, and the local commission simply considered that such an emergency existed as justified the city officials in acting without regard for the civil service law. The matter was later gotten under civil service law in so far as it did not affect the services already established. The secretary, who has charge for the most part of the records, was one of the victims of the epidemic, and is therefore in considerable darkness as to the general status of the case at that time, but this commission is certain that all that was done was done in good faith."

Watervliet

The commissioners are: Harry M. Hulsapple, stationer, appointed July 18, 1901; Walter D. Burt, machinist, appointed January 9, 1901, and Thomas E. Shaughnessy, bottler, appointed July 26, 1901. The commissioners receive no salary. The secretary, Morris S. MacKenzie, appointed January 9, 1901, receives a salary of $150 per year.

"Five days notice, at least, of examinations is given on the bulletin of the commission. Papers are prepared and examined by the commissioners. All examination papers are subject to public inspection if desired."

No non-competitive provisional examinations have been held; there have been no appeals from ratings, and no suspensions of competition under section 14, paragraph 2, of the civil service law. The provisions of the law giving preference to veterans, regarding certification of payrolls and in regard to registration of laborers and employments from the labor list, are strictly complied with.

There are no employees in departments or divisions of the public service of the city whose accounts are paid without certification. All fiscal or disbursing officers of the city, or of city moneys, require certificate of the commission upon all payrolls and accounts for services. The certifying is done by the secretary.

The commission has a complete roster of the city service. With the roster and other records the commission states it is possible to establish the legality of the appointment of all persons in the classified service.

Yonkers

The commission consists of four members, appointed December 15, 1903, viz.: Louis F. A. Page (president), engineer; Theodore E. Terrell, lawyer; Robert H. Neville, liveryman; Francis G. Gertenbach, inspector. Each commissioner receives an annual salary of $150. Commissioner Gertenbach is secretary and receives an additional salary of $350.

Information as to time and place of receiving applications and holding competitive examinations is given by posting notice on bulletin board and by advertising in the daily press five days before examination.

There have been no provisional or emergency examinations; no appeals from ratings, and no exceptions from examination under section 14, paragraph 2, of the civil service law.

The provisions of the law giving preference to veterans, in relation to certification of payrolls and regarding registration of laborers and employments in the labor class from the registration list after certification by the commission, have been strictly complied with. All fiscal or disbursing officers of the city, or of city funds, require the certificate of the commission upon all

payrolls and accounts for services, and there are no employees in departments or divisions of the public service whose accounts are paid without certification. The secretary reviews and certifies payrolls. The commission has a complete roster of all the city employees, showing names, titles of positions, dates of appointments and salaries, and states that "as far as this commission is concerned" the roster and other records of the commission are sufficiently complete to make it possible to establish the legality of the appointment of all persons in the classified service.

COURT DECISIONS

Digest of Court Decisions relating to Civil Service Law

Public policy

A provision in the constitution of the volunteer association composed of sergeants of police in the city of New York, which provides that upon dismissal of a member of the association from the police force the association shall pay to him the sum of $350, is, at least so far as it relates to the member of the association dismissed for violation of his duties, contrary to public policy, in that it minimizes the punishment inflicted upon the dismissed officer. (McCormack *v.* McCarton, 95 App. Div. 426.)

Tenure of office

The provision of the Greater New York charter that deputy tax commissioners shall hold their offices during the pleasure of the board of taxes and assessments having been elminated by the amended charter such officers become subject to removal as provided by section 1543, and as the position of deputy tax commissioner is an office, and so denominated in the charter, the duration of which is not declared by law, the office is held during the pleasure of the authority making the appointment. (People *ex rel.* Ryan *v.* Wells, 178 N. Y. 135.)

Officer, local—Residence

To be eligible to a local public office one must be a resident of the political subdivision for which he shall be chosen, and his office becomes vacant when he ceases to be such resident. (*Matter of* Buhler, 43 Misc. 140.)

Officer—Classification

A comparing clerk in the office of the county clerk of New York county is a public officer. Such an officer cannot after being removed litigate his claim to the office by a mandamus proceeding while another person is holding the office under color of right and

Digitized by Google

is in receipt of the salary attached thereto. In changing the civil service rules by transferring a particular position from the competitive to the non-competitive class the state civil service commission acts in a judicial capacity, and such action cannot be reversed or set aside in a mandamus proceeding. (PEOPLE *ex rel.* O'TOOLE *v.* HAMILTON, 44 Misc. 577.)

OFFICER

The superintendent of sidewalks and sidewalk repairs of the city of Syracuse is an employee of the city and not an officer and his salary may legally be reduced by the board of estimate and appportionment in making up the annual budget of the city, and he cannot recover the difference between the later and the earlier salary in an action against the city. (GRIEB *v.* CITY OF SYRACUSE, 94 App. Div. 133.)

OFFICER—INJUNCTION

The superintendent of the Albany penitentiary who was appointed for a period of five years at a fixed yearly salary, and who cannot be removed except for cause, is not a mere employee and may maintain an action in equity to enjoin his illegal removal. (CORSCADDEN *v.* HASWELL, 88 App. Div. 158.)

CERTIORARI

Where material allegations of the petition affecting writ of certiorari to review the action of the head of the department in removing the relator from a position in the civil service are not denied in the return the presumption is that the officer making the return intended to omit such allegations. What circumstances justify the reversal of the decision of the head of the department and the restoration of the relator to his position. (PEOPLE *ex rel.* MCGUIRE *v.* MONROE, 97 App. Div. 283.)

PROMOTION

The permanent appointment of a patrolman of the city of New York as a telegraph operator in the telegraph bureau of the police force, which appointment carries with it the rank and salary of the police sergeant, constitutes a promotion and cannot be made except under a civil service examination. (PEOPLE *ex rel.* CAMPBELL *v.* PARTRIDGE, 89 App. Div. 497.)

Digitized by Google

The restoration of the salary previously enjoyed by the relator in a position whose duties have in no manner changed does not constitute a promotion. He should not be required to pass an examination as a condition of receiving such restoration of salary. (PEOPLE *ex rel.* HOYER *v.* MCCOOEY, *N. Y. Law Journal, June* 13, 1904.)

PROMOTION—TRANSFER

So-called transfers, which are in fact promotions to dissimilar positions requiring higher or different examinations, are illegal although the proposed transferees are upon the eligible list for the position to be filled, if they do not stand high enough on such list to be certified in regular order. (HALE *v.* WORSTELL, Supreme Court, Kings County, *May,* 1904, opinion of GAYNOR, J.)

PREFERRED LIST OF SUSPENDED EMPLOYEES

A decision by the municipal civil service commission that the duties of a newly created position are not the same as the duties of the position which has been abolished, the incumbent of which has been placed upon the preferred list of suspended employees, is quasi-judicial in character and cannot be reviewed by mandamus. (*Matter of* DONOVAN *v.* CANTOR, 89 App. Div. 50.)

Where the position of disbursing clerk in the department of finance was abolished and the name of the incumbent placed upon the preferred list of suspended employees the position may not be filled by a transfer of the person appointed as assistant to expert accountant in the exempt class, but must be filled by appointment from the preferred list. The municipal civil service commission had no right to consent to the transfer of the persons referred to as such transfer is in violation of sections 13 and 15 of the civil service law and the conduct of the comptroller operated as a determination that the services of the disbursing clerk were needed and as a request to the municipal civil service commission to certify the names of persons eligible to the position and the suspended employee had ipso facto the right to reinstatement by virtue of section 1543 of the charter. (PEOPLE *ex rel.* BIRMINGHAM *v.* GROUT, 45 Misc. 47.)

MANDAMUS TO COMPEL REINSTATEMENT

A mandamus proceeding instituted to secure the reinstatement of the relator in the department of correction of the city of New

Digitized by Google

York, from which he claims to have been illegally removed by the respondent, the official head of the department, abates upon the respondent ceasing to be commissioner of correction and the appointment of his successor. The relator is not entitled to have the respondent's successor substituted in the respondent's place. His remedy is to make a demand for reinstatement upon the successors of the officer who removed him, and if such successor refuses to reinstate him, to institute a new mandamus proceeding against him. (PEOPLE *ex rel.* HATCH *v.* LANGTRY, 88 App. Div. 583.)

What is a reasonable opportunity to make an explanation, considered. Under section 537 of the New York charter, providing for a writ of certiorari or other appropriate remedy for the purpose of reviewing a removal in the street cleaning department, mandamus is not an appropriate remedy. (PEOPLE *ex rel.* HOLDEN *v.* WOODBURY, 88 App. Div. 593.)

When the return filed by an appointing officer to an alternative writ of mandamus, requiring him to show cause why he should not reinstate the relator in a position from which he claims that he has been unlawfully removed, sets forth several affirmative defenses, but fails to incorporate in each of such defenses a denial of the allegation contained in the writ "that the relator was removed without being allowed an opportunity of making an explanation," each of such defenses is demurrable. (PEOPLE *ex rel.* MCENROE *v.* WELLS, 89 App. Div. 89.)

DEPUTY—REMOVAL

The superintendent of out-door poor for the borough of Richmond is not a deputy of the commissioner of public charities of the city of New York within the meaning of section 21 of the civil service law. (PEOPLE *ex rel.* KENNY *v.* FOLKS, 89 App. Div. 171.)

HEAD OF BUREAU

The water registrar for the borough of Brooklyn in the department of water supply, gas and electricity of the city of New York is not the head of a bureau within the meaning of section 1543 of the charter.

Digitized by Google

Section 458 of the charter construed. (PEOPLE *ex rel.* EASTMOND *v.* OAKLEY, 93 App. Div. 535.)

The restriction of section 1543 of the charter upon the removal of a "regular clerk" applies only to the clerks of one of the regular city departments, and does not apply to the chief clerk appointed by the coroners of the borough of Manhattan pursuant to section 1571 of the charter. (PEOPLE *ex rel.* HILLMAN *v.* SCHOLER, 94 App. Div. 282.)

RECOVERY OF SALARY

Where a municipal employee subject to removal only upon notice and for cause judicially established is removed and another appointed in his place, and upon certiorari his removal is declared illegal and void and is set aside and vacated by an order of the appellate division, of which decision the comptroller and mayor of the city had knowledge, and from which the city appealed and the court of appeals has affirmed the decision, and thereupon the employee was reinstated, he may maintain an action against the city for the salary of the office from the time that the city authorities were notified of the order of the appellate division vacating his discharge until the time he was reinstated, since it was the duty of the city to obey the order and not defy the decision of the court, and it is not protected from liability because it had paid the salary to the person holding the position. (JONES *v.* CITY OF BUFFALO, 174 N. Y. 45.)

The general rule is that where a city official has been illegally removed and another person has been appointed in his stead payment of the salary of the office to the *de facto* incumbent prior to the receipt by the city of notice of the illegality of the removal furnishes a complete defense to the claim for such salary on the part of the officer illegally removed. Veterans of the civil war have been excepted from the operation of this rule by chapter 637 of the laws of 1904. Said statute does not contravene section 10 of article 8 of the constitution which prohibits the giving of any money or property of the city to or in aid of an individual, nor section 9 of article 5 of the constitution providing for appointments and promotions in the civil service of the state and its civil divisions. (PEOPLE EX *rel.* BLAIR *v.* GROUT, 44 Misc. 526.)

VETERANS

Section 21 of the civil service law does not prevent an office from becoming vacant through the expiration of the term fixed by statute, and a veteran whose term of office expires is not removed within the meaning of that section. The provision of the charter of the city of Jamestown that the term of a policeman shall be one year is not so inconsistent with the subsequently enacted civil service law that the policeman whose term of office has expired and who has not been reappointed is entitled to a mandamus ordering his reinstatement on the ground that he is a veteran. (*Matter of* TIFFANY, 179 N. Y. 455.)

Section 1373 of the New York charter, which authorizes a justice of the municipal court to remove an attendant of the court upon giving him notice of the cause of his proposed removal and an opportunity to make an explanation is to be construed in the case of a veteran of the Spanish-American war in connection with and is limited by section 21 of the civil service law requiring a hearing upon due notice and upon stated charges. The fact that at the time of the relator's discharge his term of appointment had expired is not fatal to his right to obtain reinstatement in certiorari proceedings where it appears that he was not removed because his term of appointment had expired and that at the time he was removed he was recognized as properly holding his position. (PEOPLE *ex rel.* REILLY *v.* HOFFMAN, 98 App. Div. 4.)

Where it appears that in the administration of the department of highways in the borough of Manhattan, city of New York, the territory is divided into districts, and each district is in turn divided into sub-districts, and one gang of employees is regularly assigned to each sub-district, the right of a member of one of such gangs who is an honorably discharged veteran of the civil war to a preference in employment under the civil service law is limited to the particular gang and district to which he has been assigned. The fact that on days when there is no work to be done in the district to which his gang is assigned members of other gangs who are not veterans are employed in other districts in the city does not entitle the veteran to be assigned to work in one of such other districts, and as he is not prevented from working through the arbitrary action of the head of the department he cannot recover wages for days on which he did not render any service. (SCHUYLER *v.* CITY OF NEW YORK, 95 App. Div. 305.)

Digitized by Google

VETERAN FIREMAN

It is not necessary that a veteran fireman, claiming the protection of section 21 of the civil service law, should have been a member of the fire department officially connected with the municipality; it is sufficient that he was a member of an incorporated fire company, the object of which was to render the public service in the extinguishment of fires.

The section does not violate the 14th amendment of the Federal Constitution which provides: "No State shall deny to any person * * * the equal protection of the law." The right to be appointed to a non-elective office is only a privilege, and a State may pass laws to regulate the privileges and immunities of its own citizens, so long as it does not abridge their privileges and immunities as citizens of the United States. (PEOPLE *ex rel.* KENNY *v.* FOLKS, 89 App. Div. 171.)

REDUCTION OF SALARY

Any reduction of salary or change in compensation not amounting to removal, made after the passage of chapter 186 of the laws of 1898, is within the purview of section 3 of that act, and no such reduction is valid unless compliance has first been had with its requirement that the reasons of the reduction shall be stated in writing, etc. (WATERS *v.* CITY OF NEW YORK, 43 Misc. 154.)

Section 1. Short title.—This chapter shall be known as the civil service law.

§ 2. Definitions.—When used in this chapter.

1. The term "commission" or "state commission" means the state civil service commission.

2. The term "municipal commission" means the municipal civil service commission of a city.

3. The "civil service" of the state of New York or any of its civil divisions or cities includes all offices and positions of trust or employment in the service of the state or of such civil division or city, except such offices and positions in the militia and the military departments as are or may be created under the provisions of article eleven of the constitution.

4. The "state service" shall include all such offices and positions in the service of the state or of any of its civil divisions except a city.

5. The "city service" shall include such positions in the service of any city.

6. The term "appointing officer" signifies the officer, commission, board or body having the power of appointment to subordinate positions in any office, court, department, commission, board, or institution.

§ 3. State civil service commission.—The governor is authorized to appoint, by and with the advice and consent of the senate, three persons, not more than two of whom shall be adherents of the same political party, as civil service commissioners, and said three commissioners shall constitute the state civil service commission. They shall hold no other official place under the state

of New York. The governor may remove any commissioner, and any vacancy in the position of commissioner shall be so filled by the governor, by and with the advice and consent of the senate, as to conform to said conditions for the first selection of commissioners. The three commissioners shall each receive a salary of three thousand dollars a year, and each of said commissioners shall be paid his necessary traveling expenses incurred in the discharge of his duty as commissioner. [As amended by chap. 66, Laws of 1900.]

§ 4. **Officers and employees of the commission.**—The commission may elect one of its members to be president, and may employ a chief examiner, a secretary, and such other officers, clerks and examiners as it may deem necessary or proper to carry out the purposes of this act, and such employees shall hold office during the pleasure of the commission. The chief examiner shall be entitled to receive a salary at the rate of three thousand six hundred dollars a year, and he shall be paid his necessary traveling expenses incurred in the discharge of his duty. The secretary, and other officers, clerks and examiners shall receive salaries to be fixed by the commission, and the secretary shall also be paid his necessary traveling expenses incurred in the discharge of his duty. The commission may select suitable persons in the official service of the state or any of its civil divisions, after consulting the head of the department or office in which such persons serve, to act as examiners under its direction. Persons so selected shall be entitled to compensation from the commission for their necessary expenses occasioned by the service actually rendered, in addition to the regular service required in the department or office where they are regularly employed. The compensation of examiners shall not exceed five dollars per day, except in the case of special and expert examiners employed in the preparation of questions and rating of candidates; the commission shall not expend or authorize the expenditure of moneys for any purpose in excess of the sums appropriated therefor by law.

§ 5. **Rooms and accommodations.**—It shall be the duty of the trustees of public buildings to cause suitable and convenient rooms and accommodations to be assigned or provided, and to be furnished, heated and lighted, at the capitol in the city of Albany, for carrying on the work and examinations of said commission,

and said commission may order the necessary stationery, postage stamps, an official seal and other articles to be supplied, and the necessary printing to be done for its official use. It shall be the duty of the officers of the state of New York or of any civil division thereof, at any place where examinations are directed by the commission or its rules to be held, to allow the reasonable use of public buildings, and to heat and light the same for holding such examinations, and in all proper ways to facilitate the same.

§ 6. The powers and duties of the commission.—The state civil service commission shall

First. Prescribe, amend and enforce suitable rules and regulations for carrying into effect the provisions of this act and of section nine of article five of the constitution of the state of New York, as herein provided. The rules prescribed by the state and municipal commissions pursuant to the provisions of this act shall have the force and effect of law.

Second. Keep minutes of its own proceedings and records of its examinations and other official action.

Third. Make investigations concerning and report upon all matters touching the enforcement and effect of the provisions of this act and the rules and regulations prescribed thereunder, concerning the action of any examiner or subordinate of the commission and any person in the public service, in respect to the execution of this act, and in the course of such investigations each commissioner and the secretary and the chief examiner shall have power to administer oaths.

Fourth. Have power to subpœna and require the attendance in this state of witnesses and the production thereby of books and papers pertinent to the investigation and inquiries hereby authorized and to examine them and such public records as it shall require in relation to any matter which it is required to investigate. And for the purposes of the examination hereby directed, the commission possesses all the powers conferred by the legislative law upon a committee of the legislature or by the code of civil procedure upon a board or committee, and may invoke the power of any court of record in the state to compel the attendance and testifying of witnesses and the production thereby of books and papers as aforesaid.

Fifth. Make an annual report to the governor for transmission to the legislature, showing its own action, the rules and regulation and the exceptions thereto in force, and the practical effects thereof and any suggestions it may approve for the more effectual accomplishment of the purposes of this act.

Sixth. Meet in Albany at least once in each calendar month, except the month of August, and hold such other meetings as the needs of the public service may require. A majority of the members of the commission shall constitute a quorum.

§ 7. **Duties of public officers.**—It shall be the duty of all officers of the state of New York or of any city or civil division thereof to conform to and comply with and to aid in all proper ways in carrying into effect the provisions of this act, and the rules and regulations prescribed thereunder and any modification thereof. No officer or officers having the power of appointment or employment shall select or appoint any person for appointment, employment, promotion or reinstatement except in accordance with the provisions of this act and the rules and regulations prescribed thereunder. Any person employed or appointed contrary to the provisions of this act or of the rules and regulations established thereunder, shall be paid by the officer or officers so employing or appointing, or attempting to employ or appoint, him, the compensation agreed upon for any services performed under such appointment or employment, or in case no compensation is agreed upon, the actual value of such services, and any expenses incurred in connection therewith, and shall have a cause of action against such officer or officers or any of them for such sum or sums and for the costs of the action. No public officer shall be reimbursed by the state or any of its civil divisions for any sums so paid or recovered in any such action.

§ 8. **Unclassified service; classified service.**—The civil service of the state and of each of its civil divisions and cities shall be divided into the unclassified service and the classified service. The unclassified service shall comprise all elective offices, all offices filled by election or appointment by the legislature on joint ballot; all persons appointed by name in any statute; all legislative officers and employees, all offices filled by appointment by the governor, either upon or without confirmation by the sen-

ate, except officers and employees in the executive offices; all election officers, the head or heads of any department of the government, and persons employed in or who seek to enter the public service as superintendents, principals or teachers in a public school or academy or in a state normal school or college. The classified service shall comprise all positions not included in the unclassified service. All appointments or employments in the classified service, except those of veterans of the civil war, honorably discharged from the military or naval service of the United States, shall be for a probationary term not exceeding the time fixed in the rules. [As amended by chap. 270, Laws of 1902.]

§ 9. **Rules for the classified state service.**—Within one month after the passage of this act, the commission shall make rules for the classification of the offices, places and employments in the classified service of the state, and thereafter from time to time rules for the classification of the offices, places and employments in such other civil divisions thereof, except cities, as after due inquiry by the commission shall be found practicable, and for appointments and promotions therein and examinations therefor, not inconsistent with the constitution and the provisions of this act, and shall amend the same from time to time. No examination or registration shall be required of persons to be employed as laborers in the state service. Such rules and any modifications thereof, shall take effect when approved by the governor. Due notice of the contents of such rules, and of any modifications thereof, shall be given by mail to appointing officers and heads of departments affected thereby, and such rules shall be printed for public distribution. Subject to the provisions of this act and of the rules established thereunder, the commission shall make regulations for and have control of examinations for the service of the state and the civil divisions thereof, except cities, and shall supervise and preserve the records of the same, but such examinations shall be held at least once a year in each of the following places:* Albany, Amsterdam, Auburn, Binghamton, Buffalo, Dunkirk, Elmira, Geneva, Hornellsville, Ithaca, Jamestown, Johnstown, Kingston, Lockport, Malone, Middle-

*NOTE.—The appropriations for expenses of examinations (chap. 728, Laws 1904) provide for examinations in the following places: Albany, Amsterdam, Auburn, Binghamton, Buffalo, Elmira, Hornellsville, Ithaca, Jamestown, Kingston, Lockport, Malone, Newburg, New York, Ogdensburg, Olean, Plattsburg, Poughkeepsie, Rochester, Syracuse, Utica and Watertown.

town, Newburgh, New York, Ogdensburg, Olean, Oneonta, Oswego, Plattsburg, Poughkeepsie, Rochester, Saratoga, Syracuse, Utica and Watertown; and shall cover in each place all offices and positions for which competitive examinations are required, except such examinations as require special tools, machinery, appliances, or laboratory facilities.

§ 10. **The classified city service.**—The mayor of each city in this state, shall appoint and employ suitable persons to prescribe, amend and enforce rules for the classification of the offices, places and employments in the classified service of such city, and for appointments and promotions therein and examinations therefor; and for the registration and selection of laborers for employment therein, not inconsistent with the constitution and the provisions of this act and shall amend the same from time to time. Such persons shall be municipal civil service commissioners and shall constitute the municipal civil service commission of such city. All appointments or designations of municipal civil service commissioners shall be made in such manner that not more than two-thirds of such commissioners in any city shall at any time be adherents of the same political party. Such rules herein prescribed and established, and all regulations now existing for appointment and promotion in the civil service of said city, and any subsequent modification thereof, whether prescribed under the authority of a general law or of any special or local law, shall be valid and take or continue in effect only upon the approval of the mayor of the city and of the state civil service commission. The authority by this section conferred shall not be so exercised as to take from any policeman or fireman any right or benefit conferred by law, or existing under any lawful regulation of the department in which he serves. All examinations herein authorized shall be public, and all rules shall be published, and, with all the proceedings and papers connected with said examinations, shall be at all times subject to the inspection of said state commission and its agents; and said commission shall set forth in its reports the character and practical effects of such examinations, together with its views as to the improvement and extension of the same, and also copies of all rules made under the authority hereby conferred. Subject to the provisions of this act, and of said rules, the municipal commission of any

city shall make regulations for and have control of examinations and registrations for the service of such city, and shall supervise and preserve the records of the same. In case, for any reason, the mayor of any city within sixty days after he has the power to appoint, fails to appoint such municipal commissioners the state commission shall appoint them to hold office until the expiration of the term of the mayor then in office and their successors are appointed and qualify. It shall be the duty of such persons to prepare and to procure the approval of the rules herein provided for, and, if they fail to do so within sixty days after their appointment, the state commission shall forthwith make said rules. It shall be the duty of such persons to make reports from time to time to the state commission, whenever said commission may request, of the manner in which this law, and the rules and regulations thereunder, have been and are administered, and the results of their administration in such city, and of such other matters as said commission may require, and annually on or before the fifteenth day of January, to make such a report to said commission; and it shall be the duty of said state commission in its annual report to set out either these reports, or a sufficient abstract or summary thereof, to give full and clear information as to their contents. A copy of the roster of the classified civil service of such city shall be transmitted to the state commission with the annual report aforesaid, and shall be filed in the office of said commission as a public record. The mayor may at any time remove any municipal civil service commissioner appointed by him. Said state commission may also, by unanimous vote of the three commissioners, with the written approval of the governor, remove any municipal civil service commissioner appointed or employed under the authority of this section, for incompetence, inefficiency, neglect of duty or violation of the provisions of this act, or of the rules and regulations in force thereunder, or of any of them, specifying in writing the particulars of the incompetency, inefficiency, neglect of duty or violation charged, and filing the same as a public document in the office of the city clerk, or if there be no city clerk, in the office of the clerk of the board of aldermen, and a certified transcript thereof in the office of the state civil service commission, first giving him an opportunity to make a personal explanation

in self-defense. Whenever a municipal civil service commissioner has been removed by the unanimous vote of the three state commissioners, with the written approval of the governor, or whenever any municipal commissioner shall resign or be removed by the mayor pending an investigation by the state commission of the administration of the civil service of the city in which such person is a municipal commissioner, or whenever any municipal commissioner shall resign or be removed by the mayor pending a hearing by the state commission of charges preferred against such municipal commissioner, the state commission and not the mayor of such city shall have power to appoint persons to fill such vacancies, and such persons so appointed by the state commission shall hold office as municipal civil service commissioners of such city until the expiration of the term of the mayor then in office and until their successors are appointed and qualify. Said state commission may at any time, by unanimous vote of the three commissioners, amend or rescind any rule, regulation or classification prescribed under provisions of this section, provided that said state commission shall state the reasons for such action in writing and file the same and a certified transcript thereof as a public document as hereinbefore provided, and give an opportunity to the municipal civil service commissioners concerned to make a personal explanation and to file papers in opposition to such action. The said state commission, however, shall not take such action upon any ground other than that the provisions or purposes of this act are not properly or sufficiently carried out by such rule, regulation or classification, nor without specifying in writing and detail in what particular such provisions or purposes are not carried out, nor shall said state commission exempt from competitive examination any position, or place or employment in any city without the consent of the municipal commission of such city. [As amended by chap. 675, Laws of 1900.]

§ 11. **Classification.**—The offices and positions in the classified service of the state or of any city or civil division thereof for which civil service rules shall be established pursuant to this act, shall be arranged in four classes to be designated as the exempt class, the competitive class, the non-competitive class and, in cities, the labor class.

§ 12. **The exempt class.**—The following positions shall be included in the exempt class:

1. The deputies of principal executive officers authorized by law to act generally for and in place of their principals;

2. One secretary of each officer, board and commission authorized by law to appoint a secretary;

3. One clerk, and one deputy clerk if authorized by law, of each court, and one clerk of each elective judicial officer;

4. In the state service, all unskilled laborers and such skilled laborers as are not included in the competitive class or the non-competitive class; and in addition thereto there may be included in the exempt class all other subordinate offices for the filling of which competitive or non-competitive examination may be found to be not practicable. But no office or position shall be deemed to be in the exempt class unless it is specifically named in such class in the rules, and the reasons for each such exemption shall be stated separately in the annual reports of the commission. Not more than one appointment shall be made to or under the title of any such office or position, unless a different number is specifically mentioned in such rules. Appointments to positions in the exempt class may be made without examination.

§ 13. **The competitive class.**—The competitive class shall include all positions for which it is practicable to determine the merit and fitness of applicants by competitive examination, and shall include all positions now existing, or hereafter created, of whatever functions, designations or compensation, in each and every branch of the classified service, except such positions as are in the exempt class, the non-competitive class or the labor class. Appointments shall be made to or employment shall be given in all positions in the competitive class that are not filled by promotion, reinstatement, transfer or reduction under the provisions of this act and the rules in pursuance thereof, by appointment of those graded highest in open competitive examinations conducted by the state or municipal commission, except as herein otherwise provided. The term of eligibility shall be fixed for each eligible list at not less than one nor more than four years. Appointment shall be made from the eligible list most nearly appropriate for the group in which the position to be filled is classified, and a new list shall be created for a stated position or group of

positions only when there is no appropriate list existing from which appointment may be made. No person shall be appointed or employed under any title not appropriate to the duties to be performed, and no person shall be transferred to, or assigned to perform the duties of, any position subject to competitive examination, unless he shall have previously passed an open competitive examination equivalent to that required for such position, or unless he shall have served with fidelity for at least three years in a similar position. Appointments to positions in the state service, the duties of which are confined to a locality outside of Albany county, shall, so far as practicable, be made from residents of the judicial district including such locality. The examinations shall be public and shall be practical in their character and shall relate to those matters which will fairly test the relative capacity and fitness of the person examined to discharge the duties of that service into which they seek to be appointed. Such commissions shall prepare lists of preliminary requirements and subjects of examination for the several positions or groups of positions in the competitive class and shall publish its rules and such information, and advertise such examinations in such manner as the nature of the examinations may require. Each of such commissions shall require intending competitors to file it its office a reasonable length of time before the date of any examination, a formal application in which the applicant shall state under oath:

1. His full name, residence and postoffice address.
2. His age, the place and date of his birth.
3. His health and physical capacity for the public service.
4. His right of preference by reason of military or naval service.
5. His business or employment, and residence for at least the previous five years.
6. Such other information as may reasonably be required touching the applicant's merit and fitness for the public service.

Blank forms for such applications shall be furnished by said commissions without charge to all persons requesting the same. Such commissions may require in connection with such application such certificates of citizens, physicians, public officers or others having knowledge of the applicant, as the good of the service may require. Such commissions may refuse to examine

an applicant, or after examination to certify an eligible, who is found to lack any of the established preliminary requirements for the examination or position for which he applies; or who is physically so disabled as to be rendered unfit for his performance of the duties of the position to which he seeks appointment; or who is addicted to the habitual use of intoxicating beverages to excess; or who has been guilty of a crime or of infamous or notoriously disgraceful conduct; or who has been dismissed from the public service for delinquency or misconduct; or who has intentionally made a false statement of any material fact, or practiced, or attempted to practice, any deception or fraud in his application, in his examination, or in securing his eligibility or appointment. When the position to be filled involves fiduciary responsibility, the appointing officer, where otherwise permitted by law, may require the appointee to furnish a bond or other security and shall notify the state or municipal commission of the amount and necessary details thereof.

§ 14. **Exceptions from competitive examinations.**—Positions in the competitive class may be filled without competition as follows:

1. Whenever there are urgent reasons for filling a vacancy in any position in the competitive class and there is no list of persons eligible for appointment after competitive examination, the appointing officer may nominate a person to the state or municipal commission for non-competitive examination, and if such nominee shall be certified by such commission as qualified after such non-competitive examination, he may be appointed provisionally to fill such vacancy until a selection and appointment can be made after competitive examination, but such provisional appointment shall not continue for a longer period than two months nor shall successive temporary appointments be made to the same position under this subdivision.

2. In case of vacancy in a position in the competitive class where peculiar and exceptional qualifications of a scientific, professional or educational character are required, and upon satisfactory evidence that for specified reasons competition in such special case is impracticable and that the position can be best filled by the selection of some designated person of high and recognized attainments in such qualities, the state or municipal com-

mission may suspend the provisions of the rule requiring competition in such case, but no such suspension shall be general in its application to such place, and all such cases of suspension shall be reported in the annual reports of such commissions with the reasons for the same.

3. When the services to be rendered by an appointee in the state service are for a temporary period not to exceed one month and the need of such service is important and urgent, the appointing officer may select for such temporary service any person on the proper list of those eligible for permanent appointment without regard to his standing on such list. [As amended by chap. 355, Laws of 1902.]

§ 15. **Promotion, transfer, reinstatement, reduction.**—Vacancies in positions in the competitive class shall be filled, so far as practicable, by promotion from among persons holding positions in a lower grade in the department, office or institution in which the vacancy exists. Promotions shall be based upon merit and competition and upon the superior qualifications of the person promoted as shown by his previous service, due weight being given to seniority. For the purposes of this section an increase in the salary or other compensation of any person holding an office or position within the scope of the rules in force hereunder beyond the limit fixed for the grade in which such office or position is classified, shall be deemed a promotion. No promotion, transfer or reinstatement shall be made from a position in one class to a position in another class unless the same be specially authorized by the state or municipal commission, nor shall a person be promoted or transferred to a position for original entrance to which there is required by this act or the rules an examination involving essential tests or qualifications different from or higher than those required for original entrance to the position held by such person, unless he shall have passed the examination or attained a place upon the eligible list of such higher position.

§ 16. **The non-competitive class.**—The non-competitive class shall include such positions as are not in the exempt class or the labor class and which it is impracticable to include in the competitive class. Appointments to positions in the non-competitive class shall be made after such non-competitive examination as is prescribed by the rules.

§ 17. **The labor class in cities.**—The labor class in cities shall include unskilled laborers and such skilled laborers as are not included in the competitive class or the non-competitive class. Vacancies in the labor class in cities shall be filled by appointment from lists of applicants registered by the municipal commissions. Preference in employment from such lists shall be given according to date of application. There shall be separate lists of applicants for different kinds of labor or employment, and the commissions may establish separate labor lists for various institutions and departments. Where the labor service of any department or institution extends to separate localities, the commissions may provide separate registration lists for each district or locality. The commissions shall require an applicant for registration for the labor service to furnish such evidence or pass such examination as they may deem proper with respect to his age, residence, physical condition, ability to labor, skill, capacity and experience in the trade or employment for which he applies.

§ 18. **Official roster; reports of appointing officers.**—No person shall be appointed to or employed in any position in the classified service of the state or of any city or civil division thereof for which rules have been prescribed pursuant to the provisions of this act, until he has passed an examination or is shown to be especially exempted from such examination in conformity with such rules and the provisions of this act. It shall be the duty of each appointing officer of the state or any such civil division thereof, except cities, to report to the state civil service commission forthwith upon such appointment or employment the name of such appointee or employee, the title and character of his office or employment, the date of the commencement of service by virtue thereof and the salary or compensation thereof, and to report from time to time and upon the date of official action in or knowledge of each case, any separation of a person from the service, or other change therein, and such other information as the commission may require, in order to keep the roster hereinafter mentioned. The commission shall keep in its office an official roster of the classified civil service of the state and of each of the civil divisions thereof for which rules have been

prescribed pursuant to this act, except cities, and shall enter thereon the name of each and every person who has been appointed to, employed, promoted or reinstated in any position in such service, upon such evidence as it may require or deem satisfactory that such person was appointed to, promoted or reinstated in the service in conformity with the provisions of law and the rules prescribed pursuant to this act. The official roster shall show opposite or in connection with each name the date of appointment, employment, promotion or reinstatement, the compensation of the position, the date of commencement of service, and date of transfer in or separation from service by dismissal, resignation, cancellation of appointment or death. In like manner the municipal commission of each city shall keep in its office an official roster of the classified civil service of such city, and shall enter thereon the name of each and every person who has been appointed to, employed, promoted or reinstated in any position in such service, upon such evidence as it may require or deem satisfactory that such person was appointed to, or employed, promoted or reinstated in the service in conformity with the provisions of law and of the rules, and it shall be the duty of each appointing officer of such city to report to such municipal commission in like manner as is hereinbefore provided for reports from appointing officers to the state commission.

§ 19. **Disbursing officers.**—It shall be unlawful for the comptroller or other fiscal officer of the state or any city or civil division thereof for which civil service rules have been prescribed pursuant to this act, to draw, sign or issue, or authorize the drawing, signing or issuing of any warrant on the treasurer or other disbursing officer of the state or such city or civil division thereof, for the payment of, or for the treasurer or other disbursing officer of the state or of such city or civil division thereof, to pay any salary or compensation to any officer, clerk or other person in the classified service of the state or of such city or civil division thereof, unless an estimate, payroll or account for such salary or compensation, containing the names of the persons to be paid, shall bear the certificate of the state civil service commission, or in case of the service of a city, the certificate of the municipal civil service commission of such city, that the persons named in such estimate, payroll or account have

been appointed or employed or promoted in pursuance of law and of the rules made in pursuance of law. Any officer, clerk or other person entitled to be certified by said commission, or either of them, to the comptroller, treasurer or other fiscal or disbursing officer of the state or any city or civil division thereof, as having been appointed or employed in pursuance of law and of the rules made in pursuance of law, and refused such certificate, may maintain a proceeding by mandamus to compel such commission or commissions to issue such certificate. Any sums paid contrary to the provisions of this section may be recovered from any officer or officers making such appointment in contravention of the provisions of law and of the rules made in pursuance of law, or any officer signing or countersigning, or authorizing the signing or countersigning of any warrant for the payment of the same, and from the sureties on his official bond, in an action in the supreme court of the state, maintained by a citizen resident therein, who is assessed for and is liable to pay, or within one year before the commencement of the action, has paid a tax therein. All moneys recovered in any action brought under the provisions of this section must, when collected, be paid into the treasury of the state or such civil division thereof, except that the plaintiff in any such action shall be entitled to receive for his own use the taxable costs of such action.

§ 20. **Preferences allowed honorably discharged soldiers, sailors and marines.**—In every public department and upon all public works of the state of New York and of the cities, counties, towns and villages thereof, honorably discharged soldiers, sailors and marines from the army and navy of the United States in the late civil war who are citizens and residents of this state, shall be entitled to preference in appointment and promotion without regard to their standing on any list from which such appointment or promotion may be made to all competitive and non-competitive positions, provided their qualifications and fitness shall have been ascertained as provided in this act and the rules and regulations in pursuance thereof; and the persons thus preferred shall not be disqualified from holding any position in the civil service on account of age or by reason of any physical disability provided such age or disability does not render him

incompetent to perform the duties of the position applied for. Whenever any list of eligible persons, prepared under authority of this act, shall contain the names of honorably discharged soldiers, sailors and marines, entitled to preference as aforesaid, any reference in this act or in the rules and regulations in pursuance thereof to the persons standing highest on such list, shall be deemed to indicate those standing highest of those entitled to preference by the provisions of this section, and such persons shall be given preference on any list of registered applicants for employment in the labor service, in accordance with the dates of their several applications as though such applications had been filed prior to those of any persons on such lists not entitled to the preference provided by this section. A refusal to allow the preference provided for in this and the next succeeding section to any honorably discharged soldier, sailor or marine, or a reduction of his compensation intended to bring about his resignation, shall be deemed a misdemeanor, and such honorably discharged soldier, sailor or marine shall have a right of action therefor in any court of competent jurisdiction for damages, and also a remedy by mandamus for righting the wrong. [As amended by chap. 270, Laws of 1902.]

§ 21. **Power of removal limited.**—Every person whose rights may be in any way prejudiced contrary to any of the provisions of this section shall be entitled to a writ of mandamus to remedy the wrong. No person holding a position by appointment or employment in the state of New York or in the several cities, counties, towns or villages thereof who is an honorably discharged soldier, sailor or marine, having served as such in the Union army or navy during the war of the rebellion, or who is an honorably discharged soldier, sailor or marine, having served as such in the volunteer army or navy of the United States during the Spanish war or who shall have served the term required by law in the volunteer fire department of any city, town or village in the state, or who shall have been a member thereof at the time of the disbandment of such volunteer fire department shall be removed from such position except for incompetency or misconduct shown after a hearing upon due notice upon stated charges, and with the right to such employee or appointee to a review by a writ of certiorari. If the position so held by

any such honorably discharged soldier, sailor or marine or volunteer fireman shall become unnecessary or be abolished for reasons of economy or otherwise, the said honorably discharged soldier, sailor or marine or volunteer fireman holding the same shall not be discharged from the public service, but shall be transferred to any branch of the said service for duty in such position as he may be fitted to fill, receiving the same compensation therefor, and it is hereby made the duty of all persons clothed with power of appointment to make such transfer effective. The burden of proving incompetency or misconduct shall be upon the person alleging the same. In every county of the state wholly included within the limits of a city but not comprising the whole of such city, no regular clerk or head of a bureau or person holding a position in the classified state civil service, subject to competitive examination, shall be removed until he has been allowed an opportunity of making an explanation; and in every case of a removal the true grounds thereof shall be forthwith entered upon the records of the department of the office in which he has been employed, and a copy filed with the state civil service commission. In case of a removal, a statement showing the reasons therefor shall be filed in the department or office where such clerk, head of a bureau or person had been employed. Whenever such offices, positions or employments in every county of the state hereinbefore specified are abolished or made unnecessary, it shall be the duty of the head of the department or office in which such persons had been employed, to furnish the names of the person or persons affected to the state civil service commission, with a statement in the case of each of the date of his original appointment in the service. It shall be the duty of the state civil service commission forthwith to place the names of said persons upon a list of suspended employees for the office or position of* for the class of work in which they have been employed, or for any corresponding or similar office, position or class of work, and to certify the said persons for reinstatement or reemployment in the order of their original appointment before making certification from any other list. tion in the same county and at the same salary or wages as the position formerly held by him, shall be held to be a relinquishment of his right to reinstatement as herein stated. Nothing in this section shall be construed to apply to the position of private secretary, cashier or deputy of any official or department. [As amended by chap. 270, Laws of 1902, and chap. 697, Laws of 1904.]

§ 22. **Misdemeanor to obstruct right of examination; false representation; impersonation in examination.**—Any commissioner, or examiner, or any other person who shall wilfully by himself or in co-operation with one or more persons, defeat, deceive or obstruct any person in respect of his or her right of examination, or registration, according to any rules or regulations prescribed pursuant to the provisions of this act, or who shall wilfully and falsely mark, grade, estimate or report upon the examination or proper standing of any person examined, registered or certified, pursuant to the provisions of this act, or aid in so doing, or who shall wilfully make any false representations concerning the same, or concerning the person examined, or who shall wilfully furnish to any person any special or secret information for the purpose of either improving or injuring the prospects or chances of any person so examined, registered or certified, or to be examined, registered or certified, or who shall personate any other person, or permit or aid in any manner any other person to personate him, in connection with any examination or registration, or application or request to be examined or registered, shall for each offense be deemed guilty of a misdemeanor.

§ 23. **Recommendations for appointment or promotion.**—No recommendation or question under the authority of this act shall relate to the political opinions or affiliations of any person whatever; and no appointment or selection to or removal from an office or employment within the scope of the rules established as aforesaid, shall be in any manner affected or influenced by such opinions or affiliations. No person in the civil service of the state or of any city or civil division thereof, is for that reason under any obligation to contribute to any political fund or to render any political service, and no person shall be removed

or otherwise prejudiced for refusing so to do. No person in the said civil service shall discharge or promote or reduce, or in any manner change the official rank or compensation of any other person in said service, or promise or threaten so to do for giving or withholding or neglecting to make any contribution of money or service or any other valuable thing for any political purpose. No person in said service shall use his official authority or influence to coerce the political action of any person or body, or to interfere with any election.

§ 24. **Political assessments prohibited.**—No officer, agent, clerk, or employee under the government of the state of New York or any civil division or city thereof shall, directly or indirectly, use his authority or official influence to compel or induce any other officer, clerk, agent or employee under said government, or any civil division or city thereof, to pay or promise to pay any political assessment, subscription or contribution. Every said officer, agent, clerk or employee who may have charge or control in any building, office or room occupied for any purpose of said government, or any said division or city thereof, is hereby authorized to prohibit the entry of any person, and he shall not knowingly permit any person to enter the same for the purpose of therein making, collecting, receiving or giving notice of any political assessment, subscription or contribution; and no person shall enter or remain in any said office, building or room, or send or direct any letter or other writing thereto, for the purpose of giving notice of, demanding or collecting a political assessment, nor shall any person therein give notice of, demand, collect or receive any such assessment, subscription or contribution; and no person shall prepare or make out, or take any part in preparing or making out, any political assessment, subscription or contribution with the intent that the same shall be sent or presented to or collected of any officer, agent or employee, subject to the provisions of this act, under the government of the state of New York, or that of any civil division or city thereof, and no person shall knowingly send or present any political assessment, subscription or contribution to or request its payment of any said officer, agent or employee. Any person who shall be guilty of violating any provision of this section shall be deemed guilty of a misdemeanor.

§ 25. **Officers or candidates not to promise influence, et cetera; "public officer" and "public employee" defined.**—Whoever, while holding any public office, or in nomination for, or while seeking a nomination or appointment for any public office, shall corruptly use or promise to use, whether directly or indirectly, any official authority or influence (whether then possessed or merely anticipated) in the way of conferring upon any person; or in order to secure or aid any person in securing any office or public employment, or any nomination, confirmation, promotion or increase of salary, upon the consideration or condition that the vote or political influence or action of the last named person, or any other, shall be given or used in behalf of any candidate, officer or party, or upon any other corrupt condition or consideration, shall be deemed guilty of bribery or an attempt at bribery. And whoever, being a public officer, or having or claiming to have any authority or influence for or affecting the nomination, public employment, confirmation, promotion, removal or increase or decrease of salary of any public officer, shall corruptly use, or promise, or threaten to use any such authority or influence, directly or indirectly, in order to coerce or persuade the vote or political action of any citizen or the removal, discharge or promotion of any officer or public employee, or upon any other corrupt consideration, shall also be guilty of bribery or of an attempt at bribery. Every person found guilty of such bribery, or an attempt to commit the same, as aforesaid, shall, upon conviction thereof, be liable to be punished by a fine of not less than one hundred dollars nor more than three thousand dollars, or to be imprisoned not less than ten days nor more than two years, or to both said fine and said imprisonment in the discretion of the court. The phrase "public officer" shall be held to include all public officials in this state, whether paid directly or indirectly from the public treasury of the state, or from that of any civil division thereof, or by fees or otherwise; and the phrase "public employee" shall be held to include every person not being an officer who is paid from any said treasury.

§ 26. **Attendance of witnesses; fees.**—Witnesses and officers to subpœna and secure the attendance of witnesses before said commission, shall be entitled to the same fees as are allowed witnesses in civil cases in courts of record. Such fees need not be

prepaid, but the comptroller shall draw his warrant for the payment of the amount thereof, when the same shall have been certified to by the president of the commission, and duly proved by affidavit or otherwise to the satisfaction of the said comptroller; and all state, county, town, municipal and other officers and their deputies, clerks, subordinates and employees shall afford the said board all reasonable facilities in conducting the inquiries specified in this act, and give inspection to said board of all books, papers and documents belonging, or in any way appertaining to the respective offices, and shall also produce said books and papers, and shall attend and testify when required to do so by said commission.

§ 27. **Taxpayer's action.**—The right of any taxpayer to bring an action to restrain the payment of compensation to any person appointed to or holding any office, or place or employment in violation of any of the provisions of this act, shall not be limited or denied by reason of the fact that said office, or place or employment shall have been classified as, or determined to be, not subject to competitive examination; provided, however, that any judgment or injunction granted or made in any such action shall be prospective only, and shall not affect payments already made or due to such persons by the proper disbursing officers, in accordance with the civil service rules in force at the time of such payments.

§ 28. **Saving clause.**—All rules, regulations and classifications for appointment or promotion in the civil service of the state or any city or civil division thereof, not inconsistent with the provisions of this act, established with the approval of the governor or the state commission under authority of law prior to the passage of this act, shall continue in full force and effect until annulled or amended pursuant to the provisions of this act; and the state civil service commissioners and the municipal civil service commissioners of any city, now in office, appointed or designated under the provisions of law prior to the passage of this act, shall continue in office until their successors are appointed and qualify, and shall have the same tenure and all the powers and duties which they would have if appointed under the provisions of this act. All merit and eligible lists of persons examined prior to the passage of this act, under the civil service rules

and regulations in force at the time of such examination, shall be continued in full force and effect as if formed under the provisions of this act, subject, however, to such reasonable regulation and revision as the rules shall prescribe.

§ 29. **Repeal.**—Of the laws enumerated in the schedule hereto annexed, that portion specified in the last column is repealed. All other acts or parts of acts, whether general, special or local, and all rules, regulations and classifications for appointment or promotion in the civil service of the state or any civil division thereof, inconsistent with the provisions of this act are hereby repealed; provided, however, that any act done or right accruing, accrued or acquired, or liability, penalty, or punishment incurred prior to the passage of this act shall not be affected or impaired; but the same may be asserted, enforced, prosecuted or inflicted as fully, and to the same extent, as if the several acts herein referred to had not been amended or repealed.

§ 30. **When to take effect.**—This act shall take effect immediately.

CHAPTER 521, LAWS OF 1901

AN ACT to classify and grade, and to establish rates of compensation for clerks and other employes in the service of the state.

SECTION 1. The provisions of this act shall apply to all clerks, bookkeepers, stenographers, copyists, messengers and other employes whose duties are of a clerical character in all the state departments, bureaus, commissions and offices, except those otherwise fixed by law, or whose salaries were January first nineteen hundred and one more than the maximum fixed herein.

§ 2. All clerks, bookkeepers, stenographers, copyists, messengers, pages or other employes performing clerical service in the state departments, bureaus, divisions, commissions and other offices excepting deputies, heads, chiefs and assistant heads and chiefs of divisions or bureaus shall from and after October first nineteen hundred and one be classified in one of the following grades, in accordance with the appropriations made by the legislature for such purpose. Such classification shall be made by the head of the department or commission subject to the approval of the governor and filed with the comptroller on or before October first.

§ 3. The annual salaries of employes for each grade shall not be to exceed the following: First grade, three hundred sixty dollars; second grade, four hundred eighty dollars; third grade, six hundred dollars; fourth grade, seven hundred twenty dollars; fifth grade, nine hundred dollars; sixth grade, twelve hundred dollars; seventh grade, fifteen hundred dollars; eighth grade, eighteen hundred dollars; ninth grade, twenty-one hundred dollars; tenth grade, twenty-four hundred dollars.

§ 4. No person holding a position or employed in any department, bureau, commission or office to which this act applies and for which a definite salary or compensation has been appropriated or designated, shall receive any extra salary or compensation in addition to that so fixed.

§ 5. All departments, bureaus, commissions or offices which have been granted an appropriation for temporary clerical service, may appoint in accordance with the provisions of this act an employe or employes in any of the grades heretofore speci-

fied below the eighth grade, which employe or employes shall be paid from the special appropriation made for such purpose, but from no other fund.

§ 6. Original appointment to the position of clerk, bookkeeper, stenographer, copyists or messenger shall be made so far as practicable to the lowest grade established in the department, bureau, commission, or office in which the appointment is made, and no position above such grade shall be filled by original appointment of a person not in the service, if there is employed in the same office or department in a similar position in a lower grade any person who is competent to perform the duties of the higher position who can be promoted. Promotions shall be made by successive grades so far as practicable, and no person shall be promoted to a position in the higher grade who has not served at least six months in the next lower grade.

§ 7. All acts or parts of acts inconsistent with this act are hereby repealed.

§ 8. This act shall take effect immediately.

STATE CIVIL SERVICE RULES

STATE OF NEW YORK

STATE CIVIL SERVICE COMMISSION

ALBANY, *May* 18, 1899

In compliance with the provisions of section 9 of article V of the constitution, and of chapter 370 of the Laws of 1899 of the State of New York, the State Civil Service Commission hereby prescribes the following rules for the regulation of the classified civil service of the State of New York, to take effect and have the force of law, revoking all other rules to that end when approved by the governor.

WILLARD A. COBB
SILAS W. BURT
WM. MILLER COLLIER
State Civil Service Commissioners.

Rule I—Definition of terms

The several terms hereinafter mentioned, whenever used in these rules or in any regulations thereunder, shall be construed as follows:

1 Chapter 370 of the Laws of 1899 shall be known as "The Civil Service Law."

2 The term "commission" or "state commission" means the state civil service commission.

3 The term "municipal commission" means the municipal civil service commission of a city.

4 The "civil service" of the state of New York or any of its civil divisions or cities includes all offices and positions of trust or employment in the service of the state or of such civil division or city, except such offices and positions in the militia and the military departments as are or may be created under the provisions of article XI of the constitution.

5 The "state service" shall include all such offices and positions in the service of the state, or of any of its civil divisions, except a city.

6 The "city service" shall include such positions in the service of any city.

7 The term "appointing officer" signifies the officer, commission, board or body having the power of appointment to subordinate positions in any office, court, department, commission, board or institution.

8 The term "class" refers to the divisions of the classified civil service based upon the distinctive methods of appointment to the positions comprehended therein.

9 The term "group" refers to the divisions in a class based upon the character of the duties of the positions, without regard to the salaries received.

10 The term "subdivision" refers to the divisions of positions in a group more specially arranged according to details for the purpose of examinations, identical in whole or in part.

11 The term "grade" refers to the divisions of any group or subdivision upon the basis of salary or compensation received.

12 The word "compensation" shall be construed as the annual salary of the position or its equivalent when stated by the day, week or month, and shall include proper commutation for lodgings and board, or either, when the same are furnished free as a part of such compensation, and such rate of commutation shall be fixed by regulation of the commission.

13 The term "veterans" refers to honorably discharged soldiers and sailors from the army and navy of the United States, in the late civil war, who are citizens and residents of this state.

14 The terms "laborer" and "unskilled laborer" are used synonymously and shall be construed as applying only to persons employed as ordinary laborers, and shall not include mechanics, artisans, tradesmen and other skilled laborers, and no person shall be deemed a "laborer" who receives a compensation greater than two dollars for each day of actual service or sixty dollars per month, unless facts relating to the work done by such person are presented to the commission showing that such work is that of an ordinary unskilled laborer. (As amended April 18, 1902.)

15 The masculine pronoun "he" and its derivatives shall include the feminine pronoun "she" and its derivatives.

16 Whenever in these rules there is a direction that the

commission shall report any matter to the legislature it shall be construed as referring to the next ensuing annual report of the commission to the legislature, as required by law.

Rule II—General provisions

1 The violation of any of the provisions of the civil service law or of these rules by any person in the civil service of the state or of any civil division or city thereof shall be considered a good cause for the dismissal of such person from the service.

2 No person in the civil service of the state or of any civil division or city thereof shall use his official authority or influence to coerce the political action of any person or body; or shall dismiss or cause to be dismissed, or make any attempt to procure the dismissal of, or in any manner change the official rank or compensation of, any person in such service, because of his political opinions or affiliations.

3 No question in any examination, or form of application or other proceeding by or under the state commission or any municipal commission or their examiners shall be so framed as to elicit information concerning, nor any other attempt be made to ascertain the political opinions or affiliations of any applicant, competitor or eligible, and all disclosures thereof shall be discountenanced by the commission and its examiners, and no discrimination shall be exercised, threatened or promised against or in favor of any applicant, competitor or eligible, because of his political opinions or affiliations.

4 No recommendation of an applicant, competitor or eligible involving any disclosure of his political opinions or affiliations shall be received, filed or considered by the commission, by an examining board, or by any nominating or appointing officer.

5 No appointment or selection to or removal from an office or employment within the scope of any rules established under the civil service law shall be in any manner affected or influenced by any political opinions or affiliations.

6 No person in the civil service of the state or of any civil division or city thereof shall be obliged to contribute to any political fund or to render any political service; nor shall any such person, directly or indirectly, use his authority or official influence to compel or induce any other person in such service

to pay or promise to pay any political assessment, subscription or contribution.

7 In making removals or reductions, or in imposing penalties for delinquency or misconduct, in the state service or city service penalties like in character shall be imposed for like offenses and action thereon shall be taken irrespective of the political opinions or affiliations of the offenders.

Rule III—Classification of the state service

1 The civil service of the state and of each of its civil divisions shall be divided into the unclassified service and the classified service.

2 The unclassified service shall comprise all elective offices; all offices filled by election or appointment by the legislature on joint ballot; all persons appointed by name in any statute; all legislative officers and employees; all offices filled by appointment by the governor, either upon or without confirmation by the senate, except officers and employees in the executive offices; all election officers; the head or heads of any department of the government; and persons employed in or who seek to enter the public service as superintendents, principals or teachers in a public school or academy or in a state normal school or college.

3 The classified service shall comprise all positions not included in the unclassified service and shall be arranged in three classes; the exempt class, the competitive class, and the non-competitive class.

4 The classification by or under these rules in the competitive class of any position previously exempt from examination or subject to non-competitive examination shall not be deemed to confer upon the persons holding such position at the time of such change in classification any right or privilege of transfer or promotion to a position in the competitive class under these rules, except as permitted by sections 13 and 15 of the civil service law. (As amended April 18, 1902.)

5 If at the time of promulgation of these rules there are in any office, department or institution more persons holding any position classified hereby in the exempt class than the number specified in such class by these rules, no further appointments

shall be made under such exemption until the number of such persons in the service in said position shall have fallen below the number so specified.

Rule IV—Appointments to and employment in the classified service

1 In pursuance of the provisions of section 9 of article V of the constitution and of the civil service law there shall be provided, to ascertain merit and fitness for admission to the classified service, examinations to be made under the general direction of the commission.

2 No person shall be appointed to or employed in any position in the classified service of the state or of any city or political division thereof for which rules have been prescribed pursuant to the provisions of the civil service law until he has passed an examination, or is shown to be especially exempted from such examination, in accordance with such rules and the provisions of the civil service law.

3 No person shall be appointed or employed under any title not appropriate to the duties to be performed, and no person shall be transferred to or assigned to perform the duties of any position subject to competitive examination, unless he shall have previously passed an open competitive examination equivalent to that required for such position, or unless he shall have served with fidelity in a similar position for at least three years. (As amended April 18, 1902.)

4 Appointments to positions in the state service the duties of which are confined to a locality outside of Albany county, shall, so far as practicable, be made from residents of the judicial district including such locality.

5 Appointments to positions in the service of any county to which the provisions of these rules apply shall be made from residents of such county, provided, that such requirement as to residence may be specially suspended by the commission as to any position requiring high professional, scientific or technical qualifications, or in cases where through low compensation for services such requirement is disadvantageous to the public interests, but all such cases, whether of individual or groups, with the reasons therefor, shall be reported to the legislature. (Added June 16, 1900; amended April 18, 1902, February 17, 1903.)

Rule V—The exempt class

The following positions shall be included in the exempt class:

1 The deputies of principal executive officers authorized by law to act generally for and in place of their principals.

2 One secretary of each officer, board and commission authorized by law to appoint a secretary.

3 One clerk, and one deputy clerk, if authorized by law, of each court, and one clerk of each elective judicial officer.

4 All unskilled laborers and such skilled laborers as are not included in the competitive class or the non-competitive class.

5 All such other subordinate positions as the commission may deem it impracticable to fill by competitive or non-competitive examinations.

No office or position shall be deemed to be in the exempt class unless it is specifically named in this rule, nor shall more than one appointment be made to or under the title of any such office or position, unless a different number is specifically mentioned in this rule, or unless the salary of such office or position is paid wholly from the salary or official emoluments of the head of the office, no part of which is to be returned or accounted for as public funds. 5 Superintendents of hatcheries.

6 Other positions, except those specifically named in this classification as in other groups, or hereafter included in them.

1 The omission in the above classification of any official designation or appellation of a position in the service shall not exclude such position from the classification, as it will be comprised in the group and subdivision to which it belongs by the general definition and specifications of such group and subdivision.

2 The commission may further subdivide for the purpose of examination the positions in any group or subdivision thereof, so as to test practically the special qualifications requisite for such positions.

3 The classification of all positions shall be governed solely by the respective duties and functions of such positions, and in requesting from the commission certifications from eligible lists for selection for appointment, the heads of offices shall give in detail the duties attached to such positions, and shall name so near as may be the groups and subdivisions that comprise respectively such duties and functions.

4 For the purpose of orderly arrangement and of regulated promotion, the positions in each subdivision of each group shall

be divided into grades based upon the rates of annual compensation.

Grades of employment fixed by law, or by regulation of any department, office or institution made in pursuance of law, shall be the grades for purposes of promotion under this rule. In the supreme court, county of Kings, positions shall be graded as follows:

Grade A—Court officers or court attendants, salaries from $1,200 to $1,800 per annum, inclusive.

Grade B—Clerks and assistant clerks, salaries from $2,500 to $4,000 per annum.

Grade C—Court interpreters, salaries $1,500 to $2,500 per annum.

Grade D—Court stenographers, salaries $3,000 per annum.

Promotions from Grade A to Grade B will be allowed upon competitive examination. (As amended January 13, 1900.)

In all other cases positions shall be graded as follows:

Grade 1—All positions, the compensation of which is at the rate of not more than $360 per annum.

Grade 2—All positions, the compensation of which is at the rate of more than $360, but not more than $480 per annum.

Grade 3—All positions, the compensation of which is at the rate of more than $480, but not more than $600 per annum.

Grade 4—All positions, the compensation of which is at the rate of more than $600, but not more than $720 per annum.

Grade 5—All positions, the compensation of which is at the rate of more than $720, but not more than $900 per annum.

Grade 6—All positions, the compensation of which is at the rate of more than $900, but not more than $1,200 per annum.

Grade 7—All positions, the compensation of which is at the rate of more than $1,200, but not more than $1,500 per annum.

Grade 8—All positions, the compensation of which is at the rate of more than $1,500, but not more than $1,800 per annum.

Grade 9—All positions, the compensation of which is at the rate of more than $1,800, but not more than $2,100 per annum.

Grade 10—All positions, the compensation of which is at the rate of more than $2,100, but not more than $2,400 per annum.

Grade 11—All positions, the compensation of which is at the rate of more than $2,400, but not more than $3,000 per annum.

Grade 12—All positions, the compensation of which is at the rate of more than $3,000 per annum.

(As amended April 18, 1902.)

Rule VIII—Appointments to positions in the competitive class

1 Appointments shall be made to or employment shall be given in all positions in the competitive class that are not filled by promotion, reinstatement, transfer or reduction under these rules by selection from the persons graded highest on the most nearly appropriate eligible list resulting from open competitive examination held by the commission, except as herein otherwise provided. (As amended May 8, 1900.)

2 Whenever an appointing officer shall request a certification from the commission for appointment to or employment in any position in the competitive class, he shall specify the title, duties and compensation of such position, so that certification may be made from the proper eligible list, or that when necessary a proper eligible list may be prepared as the result of an open competitive examination held for that purpose. The secretary shall thereupon as soon as practicable certify to the appointing officer for appointment, from the eligible list most nearly appropriate to such position, as it may then exist, the names of the three persons, if there be so many, standing highest on such eligible list, indicating such of them, if any, as are honorably discharged soldiers, sailors or marines from the army or navy of the United States in the late civil war, citizens and residents of this state, together with the average percentages and post office addresses of such persons. If the appointing officer shall notify the commission of more than one vacancy at any time, the secretary shall certify to the appointing officer the names of as many persons as there are vacancies to be filled, with the addition of two names. No person shall be certified from an eligible list more than three times to the same appointing officer for the same or a similar position, except at the request of said officer, unless the person so certified as a veteran, in which case his name shall continue to be certified so long as it remains on the eligible list under these rules. Whenever the sex of those whose names are to be certified is fixed by any law, rule or regulation, or is specified in the request

Digitized by Google

for certification, the names of those of the sex so fixed or specified shall be certified, but in other cases certification shall be made without regard to sex. When an eligible certified for appointment shall fail to accept an offer of appointment by mail within the four business days next succeeding the mailing of notice of appointment, or shall fail to accept an appointment within the same or next succeeding business day when notification is sent him by telegram, he shall be deemed to have declined the appointment, and upon proper notice of such fact from the appointing officer the secretary shall certify from the list an additional name or names to replace the names of persons so declining. An eligible who has declined an appointment shall not thereafter be certified for a position at the same or any less salary except upon his written request to the commission. Whenever one or more eligibles shall have declined any appointment offered and an eligible whose relative standing is lower shall have been appointed to the position, the salary or compensation of such appointee shall not be increased within a period of six months after his appointment beyond that offered to the persons so declining. (As amended May 8, 1900.)

3 From the persons whose names are so certified the officer shall make selection to fill the vacancy or vacancies, subject however to the provisions of the constitution giving preference in appointment to veterans. Whenever the appointing officer who shall have made a requisition to fill a certain number of vacancies shall appoint a number smaller than that of the vacancies named by him, he shall not make selection from the whole number certified to him but only from that number of names standing highest upon the list that would have been certified to him had the requisition stated the number of vacancies which he actually filled. Whenever the eligible list certified contains less than three names, the appointing officer in his discretion may make a selection for appointment from such list or proceed as provided in section 4 or section 10 of this rule, subject however to the provisions of the constitution giving preference in appointment to veterans. (As amended May 8, 1900; August 24, 1903.)

4 Whenever there are urgent reasons for filling a vacancy in any position in the competitive class, and there is no list of persons eligible for appointment after competitive examination, or

Digitized by Google

the existing list contains less than three names, the appointing officer may nominate a person to the commission for non-competitive examination, and if such nominee shall be certified by such commission as qualified after such non-competitive examination, he may be appointed provisionally to fill such vacancy until a selection and appointment can be made after competitive examination, but such provisional appointment shall not continue more than ten days after notice to the appointing officer that an eligible list has been prepared for such position, nor in any case for a longer period than two months. (As amended August 24, 1903.)

5 In case of vacancy in any position in the competitive class, where peculiar and exceptional qualifications of a scientific, professional or educational character are required, and upon satisfactory evidence that for specified reasons competition in such special case is impracticable, and that the position can be best filled by the selection of some designated person of high and recognized attainments in such qualities, the Commission may suspend the provisions of the rule requiring competition in such case, but no such suspension shall be general in its application to such place, and all such cases of suspension shall be reported to the legislature, with the reasons for the same.

6 When the services to be rendered by an appointee in the state service are for a temporary period, not to exceed one month, and the need of such service is important and urgent, the appointing officer may select for such service any person on the proper list of those eligible for permanent appointment, without regard to his standing on such list.

7 No person shall be eligible to temporary appointment to any position in the competitive class if he has received a temporary or provisional appointment within the previous four months.

8 The acceptance by an eligible of a temporary appointment shall not affect his standing on the register for a permanent employment, nor shall the period of temporary service be counted as part of the probationary service, in case of subsequent appointment to a permanent position.

9 The commission may by special action exempt from examination under these rules any person engaged in private business who shall render any professional, scientific, technical or other expert

service of an occasional and exceptional character to any state officer, and whose compensation in any one year shall not exceed $300; provided, that such limitation of compensation shall not apply to any such person employed by the governor, comptroller or attorney-general; and further provided, that the commission may suspend such limitation of compensation by special resolution in other cases. All exceptions granted under this section, with the reasons therefor, shall be set forth by the commission in its next annual report.

10 Whenever a vacancy exists in a position in the competitive class, and an open competitive examination duly advertised does not result in an eligible list of at least three names for such position, the head of the office may nominate a person to the commission for non-competitive examination, and if such nominee shall be certified by the commission as qualified, he may be appointed to fill such vacancy. In case there is a person serving in such a position under provisional examination, and no one applies to compete with him in an open competitive examination duly advertised, the provisional appointment of such person may be made permanent. (As amended August 24, 1903.)

11 A person legally holding a position by appointment for a fixed term, may be retained without examination at the expiration of such term upon receiving a reappointment, but otherwise the position shall be deemed vacant for the purpose of choosing his successor. (Added November 14, 1900.)

Rule IX—Applications to enter examinations

1 No person shall be admitted to any examination for a position in the competitive class, until as provided by the civil service law, he shall have filed an application under oath upon a form prescribed by the commission and accompanied by such certificates as may be prescribed.

2 Every applicant for examination must be a citizen of the United States, and an actual resident of the State of New York at the time of his application, provided, that such requirements as to citizenship and residence may be specially suspended by the commission as to any position requiring high professional, scientific or technical qualifications, or in cases where through low

compensation for services such requirements are disadvantageous to the public interests, but all such cases, whether of individuals or groups, with the reasons therefor, shall be reported to the legislature.

3 No application for examination shall be accepted, unless the applicant is within the age limitations fixed by the commission for entrance to the position to which he seeks to be appointed.

4 The commission may refuse to examine an applicant, or after examination to certify an eligible who is found to lack any of the established preliminary requirements for the examination or position for which he applies; or who is physically so disabled as to be rendered unfit for the performance of the duties of the position to which he seeks appointment; or who is addicted to the habitual use of intoxicating beverages to excess; or who has been guilty of a crime or of infamous or notoriously disgraceful conduct; or who has been dismissed from the service for delinquency or misconduct; or who has intentionally made a false statement in any material fact, or practiced or attempted to practice, any deception or fraud in his application or examination, or in securing his eligibility or appointment. Any of the foregoing disqualifications shall be good cause for the removal of an eligible from the service after his appointment.

5 In applications for examination for positions requiring scientific, professional or technical qualifications, the Commission may require evidences of special education for, or of practical experience for a satisfactory term in, such science, profession, art or trade; and shall require the production of such certificates of competency and licenses as are provided by the statutes of this state as necessary to enable the practice of any profession, art or trade.

6 Any application for a position in the civil service made in contravention of the provisions of section 4 of rule II, will be rejected.

Rule X—Examinations

1 All examinations shall be public and shall be practical in their character and relate to such matters as will fairly test the relative capacity and fitness of the persons examined to discharge the duties of that service into which they seek to be appointed.

Digitized by Google

2 The commission shall prepare lists of preliminary requirements and subjects of examination for the several positions and groups of positions in the competitive class, and under its direction and subject to its approval the chief examiner shall from time to time, prepare such examinations for the positions and groups of positions aforesaid as shall be pertinent to them, under the provisions of the preceding section of this rule. (As amended April 18, 1902.)

3 The commission may further direct oral examinations or special practical tests of fitness for any particular positions requiring any scientific, professional or technical knowledge or manual skill.

4 For the purpose of making examination of applicants, from time to time, as may be required, the commissioners shall designate and select suitable persons to be local examiners at such places as it deems necessary, and shall duly commission such persons as examiners; and the commission may at any time substitute any other person in place of any one so selected. When persons selected as examiners are in the official service of the state, the head of the office in which such persons serve shall be consulted; and in the discharge of their duties as examiners, the persons so selected from the official service shall be responsible solely to the Commission, and shall act under its regulations and directions. The local examiners in any place where more than one is required shall not all be adherents of one political party when other persons are available and competent to serve. (As amended October 26, 1903.)

5 Examinations of a general character shall be held at least once a year in each of the places for which provision is made by law, and may be held more often in such places, or at other places for specific purposes in the discretion of the Commission; and under its direction the chief examiner shall advertise such examinations in such manner as their nature may require. Previous notice of examinations shall be mailed to all persons who have made application in due form, with copies of such general or special regulations as the commission shall prescribe. (As amended April 18, 1902.)

6 Whenever physical qualifications are of prime importance in the proper discharge of duties in any position, applicants must pass a physical examination and be certified as qualified in such

respect, either before admission to examination, or before record in the proper eligible list, or before certification for appointment, as the commission may determine.

7 Whenever, in its opinion, any position to be filled in the competitive class has a fiduciary or executive character, the commission may require, as a part of the examination, such special certificates by reputable and responsible citizens as to the character, trustworthiness and business experience of an applicant or eligible as it may deem proper and expedient. All such special certificates shall be properly filed and retained as public records in the office of the commission.

8 When the position to be filled involves fiduciary responsibility, the appointing officer, where otherwise permitted by law, may require the appointee to furnish a bond or other security and shall notify the commission of the amount and necessary details thereof.

9 No person who has entered any competitive examination for a position in the classified service shall be admitted within nine months from the date thereof to a new examination for the same position. (As amended November 28, 1899.)

10 Examination papers shall be rated on a scale of 100, and the subjects therein shall be given such relative weights as the commission may prescribe. After a competitor's papers have been rated he shall be duly notified of the results thereof.

Rule XI—Eligible lists

1 Every competitor who attains an average percentage of 75 or over on all the obligatory subjects in any examination, and whose standing on every such obligatory subject is 60 or over, shall be eligible for appointment to the position for which he was examined; and the names of eligibles shall be entered in the order of their average percentages, on the proper register of eligibles; provided that the names of competitors who have passed as above and whose claims for preference under section 9 of article V of the constitution have been allowed by the commission, shall be placed in the order of their respective average percentages at the head of the proper register of eligibles.

2 When two or more eligibles on a register have the same average percentage, preference in certification shall be determined

Digitized by Google

by the order in which their applications were filed, but neither priority in the date of application nor of examination will give any other advantage in position on the registers of eligibles.

3 Appointment shall be made from the eligible list most nearly appropriate for the group in which the position to be filled is classified, and a new list shall be created for a stated position or group of positions only when there is no appropriate list existing or when the existing list from which certification is to be made is likely to be exhausted.

4 The commission shall prescribe the character of the distinct eligible lists, designating the positions that may be filled by certification from each of such lists. (As amended April 18, 1902.)

5 The term of eligibility shall be fixed by the regulations of the commission at not less than one nor more than four years, with reference mainly to the probable number and frequency of certifications to be made from such lists respectively.

6 Merit lists for appointment in the state service existing at the time of the passage of the civil service law shall be continued as the eligible lists from which appointments are to be made until an examination for similar positions shall be held and reported by the commission under these rules, and all eligible lists prepared as the results of fitness examinations are hereby abolished.

Rule XII—Term of probation

1 Except in the case of veterans of the civil war, honorably discharged from the military or naval service of the United States, every original appointment to or employment in any position in the competitive class shall be for a probationary term of three months, and an appointing or nominating officer in notifying a person certified to him for appointment or employment shall specify the same as for a probationary term only; and if the conduct, capacity and fitness of the probationer are satisfactory to the appointing officer, his retention in the service after the end of such term shall be equivalent to his permanent appointment, but if his conduct, capacity or fitness be not satisfactory he may be discharged at the end of such term.

Whenever two or more persons appointed from the same eligible list are serving as probationers in the same department, and there is necessity for a reduction of the force of such department affect-

ing such persons, they shall be preferred for retention in the order of their original standing upon such list. (As amended March 21, 1900; April 18, 1902.)

2 Every officer under whom any probationer shall serve during any part of his probation shall carefully observe the quality and value of the services rendered by such probationer, and his conduct, and if so required shall report in writing to the proper appointing officer the facts observed by him, showing the character and qualifications of such probationer, and of the service rendered by him, and such reports shall be preserved on file.

Rule XIII—Season positions

1 All positions in the competitive class, where the nature of service is such that it is not continuous through the year, but recurs in each successive calendar year, shall be designated as season positions and shall be subject to the provisions of these rules applicable generally to positions in such class, except as herein otherwise provided.

2 Any person originally appointed to or employed in a season position, under the provisions of these rules, and who has been temporarily separated from the service by the expiration thereof in any year, shall be entitled to reappointment to or re-employment in the same position in the next ensuing year, upon filing in the office of the commission, in such form as it may prescribe, a request for such reappointment or re-employment within six weeks previous to and at least thirty days before the date of resumption of such short term service. The commission shall certify to the proper appointing or employing officer the names and post-office addresses of the persons who have made such formal requests, and they shall be reinstated in the positions vacated by them in the previous year in the order of the date of their original appointment or latest promotion in the several grades, provided that in the meantime they are not disqualified from any of the causes recited in the fourth section of rule IX.

Rule XIV—Promotions

1 Except as otherwise provided in this rule whenever a vacancy occurs in any position in the competitive class above the lowest grade in any group, the chief examiner shall forthwith arrange to

hold a promotion examination limited to those persons who have for more than six months served with fidelity in the next lower grade in such group in the same office, department or institution, provided, that if there are no persons who have served with fidelity for six months in the next lower grade, or provided all persons in the next lower grade fail in any promotion examination, then all persons in the second lower grade who have served with fidelity for six months in the same group in the same office, department or institution, shall have the right to compete in said promotion examination. On the request of the appointing officer, sufficient and proper reasons being set forth in detail in writing showing that the competition in the promotion examination should not be limited to the persons heretofore mentioned, the commission may permit the incumbents of any of the following classes of positions to enter a promotion examination: first, persons who for more than six months have served in any of the lower grades in the same group in the same office, department or institution; second, persons who for more than six months have served in another group but in a similar position in the same office, department or institution; third, persons who for more than six months have served in the same or another group but in a similar position in other offices, departments or institutions; provided, however, that no persons in any of the three classes of positions aforementioned shall be permitted to enter such promotion examination unless the commission shall first find, after due inquiry, that the nature of the duties of the positions held by the persons in the said classes who seek to enter such promotion examination are such as naturally and properly to fit them to perform the duties of the position to which they seek promotion as fully as the duties of the persons holding positions in the next two lower grades in the same group in the same office, department or institution; but all promotions of clerks, bookkeepers, stenographers, copyists, messengers, pages, and other employees whose duties are of a clerical character in all the state departments, bureaus, divisions, commissions and offices, shall be subject to the provision of section 6 of chapter 521 of the laws of 1901, to wit: "Promotions shall be made by successive grades so far as practicable, and no person shall be promoted to a position in the higher grade who has not served at least six months in the next lower grade."

Whenever it is found by the state commission not practicable to fill a vacancy in any position through promotion in the manner herein prescribed, such vacancy shall be filled by original appointment through competitive examination in accordance with the provisions of subdivision 1 of rule VIII. (As amended July 29, 1899; October 2, 1899; September 24, 1900; April 18, 1902.)

2 As provided by the civil service law an increase in the salary or other compensation of any person holding an office or position within the scope of these rules beyond the limit fixed for the grade in which such office or position is classified shall be deemed a promotion.

3 No promotion can be made from a position in one class or group to a position in another class or group, unless the same be specially authorized by the commission, but a person employed in any position shall not, because of such appointment, be barred from the open competitive examination provided for original entrance to any other position.

4 The test of actual service being the main factor in fitness for promotion there shall be kept in every office continuous and comparative records of the efficiency, punctuality, attention and general good conduct of all persons employed therein. Such records shall at all times be open to inspection by the state commission and if the same have been regularly and properly kept they shall constitute one of the elements in such promotion examination, with such relative weight as shall be assigned to them by the chief examiner. If such records have not been regularly and properly kept the chief examiner shall prescribe such tests as to him may seem best calculated to determine the relative merit and fitness of the person entitled to enter the promotion examination.

5 The appointing officer shall notify the commission of any vacancy in a position in his office to be filled by promotion, and thereupon, after consultation with the appointing officer, the commission shall direct a competitive examination of those entitled to enter the same under the provisions of this rule, and shall publish the same by notice, giving date and place, posted conspicuously in the office where such vacancy exists, and sent by mail to those eligible to such examination.

6 The written part of the examination shall be confined to the duties of the office in which the vacancy occurs, and particularly

Digitized by Google

to the duties of the position to be filled. Due weight will be given to the candidates' seniority and past record in the office and to any special fitness for the duties of the higher position. (As amended December 28, 1903.)

7 The conduct of such examination and the preparation of the eligible list shall be subject to the general provisions of rules X and XI, provided, however, that no eligible list for promotion shall be valid beyond one year. The commission shall certify from the eligible list for promotion in the same manner provided in section 2 of rule VIII for certification for original appointment, except that where vacancies in the position of first assistant physician in any of the state hospitals are to be filled, the commission shall certify in addition to the three highest names upon the eligible list the names of all persons at that time connected with the institution in which the vacancy exists whose rating is 85 per cent. or over. (As amended May 8 and July 10, 1900.)

8 No recommendation of any person for promotion, whether verbal or written, shall be entertained or received, unless made in the ordinary course of duty by his immediate official superiors, and the presentation of any recommendation other than that of such superiors shall be considered an unwarrantable interference with the public service, and the person so recommended may be required to show, before being certified for promotion, that such recommendation was not made by his request or connivance.

9 Whenever there is but one person entitled to promotion to fill a vacancy and willing to compete therefor, or whenever an appointing officer is desirous of promoting all the persons in a particular grade entitled to compete for promotion, and also whenever the salary or compensation of a person holding a position is to be increased without any change whatever in the duties of the position, such person or persons may be promoted to the next higher grade without examination upon a certificate of the facts and the approval of the commission; provided that for original entrance to the position to which promotion is sought there is not required an examination involving essential tests or qualifications different from or higher than those required for original entrance to the position then held by such person. (Added October 2, 1899; amended April 18, 1902.)

Rule XV—Transfers

(As amended April 18, 1902.)

Transfers may be made, upon request of the heads of the departments affected, as follows:

1 A person who has received an appointment from an eligible list and has served the required probationary term may be transferred to a similar position in the same group, subdivision and grade. When a proposed transfer involves a change in grade only, the same may be allowed in the discretion of the commission.

2 A transfer of a person holding a position in the competitive class, who has served the required probationary term, to a position in a different group or subdivision may be allowed in the discretion of the commission, provided said person has attained a place upon the appropriate eligible list for the latter position in force at the time the request for the transfer is made.

3 A person holding a position in the competitive class who did not enter the service after qualifying in an open competitive examination, may be transferred to a similar position in the same group, subdivision and grade, provided he has served at least three years in the position from which he desires transfer, or has attained a place upon the appropriate eligible list in force at the time the request for the transfer is made.

4 A transfer of a person holding a position in the exempt or non-competitive class to a position in the competitive class may be allowed in the discretion of the commission only when the person to be transferred has qualified in an open competitive examination and his name is upon the appropriate eligible list in force at the time the request for the transfer is made.

5 A transfer from a position in the competitive class of the civil service of the state to a similar position in the same class in any of the cities or civil divisions thereof, and vice versa, may be allowed in the discretion of the commission only when the person to be transferred obtained his appointment by virtue of an open competitive examination conducted by or under the direction of the state civil service commission, or has served the required probationary term in the city service in a position obtained by virtue of an open competitive examination and has attained a place upon the appropriate eligible list for the state service in force at the

time the request for transfer is made, and when the proposed transfer is in accord with sections 1, 2 and 3 of this rule. (As amended April 27, 1903: January 2, 1904.)

Rule XVI—Reinstatement in service

1 Any person who has held a position by appointment under the civil service rules, and who has been separated from the service through no delinquency or misconduct on his part, may be reinstated without re-examination in a vacant position in the same office and in the same group, subdivision and grade, within one year from the date of such separation, provided that for original entrance to the position proposed to be filled by reinstatement there is not required by these rules, in the opinion of the commission, an examination involving essential tests or qualifications different from or higher than those involved in the examination for original entrance to the position formerly held by the person proposed to be reinstated.

2 Whenever in any department or institution an office or position is abolished, or whenever the number of positions of a certain character is reduced, or whenever by reason of a lack of appropriation or otherwise it becomes necessary to discharge or suspend one or more of several persons holding the same position, veterans of the civil war, veterans of the volunteer army or navy of the United States in the Spanish war, and exempt volunteer firemen shall be entitled to preference in retention in such positions over other persons. (As amended April 18, 1902.)

3 Persons legally holding such positions at the time of such reduction or discharge shall be entitled to reappointment or reinstatement to the same position or positions if they are thereafter within one year re-established under the same or any other designation. The names of such persons shall be entered upon lists of suspended employees and shall remain thereon for a period of one year, and upon notice of a vacancy in the same or a similar position in any department, names from such lists of suspended employees shall be certified to the appointing officer in preference to names from the eligible lists. Preference in certification from such lists of suspended employees shall be given in the following order: first, veterans of the civil war in the order of their separation from the service; second, veterans of the Spanish war and

exempt volunteer firemen in the order of their separation from the service; third, other persons in the order of their separation from the service. Persons specified in the first and second classes above mentioned shall be entitled to certification for positions to which they are eligible in any department or institution, but persons specified in the third class shall be entitled to certification only to the department from which they were discharged. (Added April 18, 1902.)

Rule XVII—Certificates for promotion, transfer and reinstatement

1 Upon the written request of an appointing officer, stating the essential facts in regard to any proposed promotion, transfer or reinstatement, the commission will, if such promotion, transfer or reinstatement be in accordance with law and the provisions of these rules, issue its certificate of that fact to such officer.

2 All promotions, transfers and reinstatements herein authorized shall be made only after the issuance of such certificate, except those which may be specifically exempted from such condition by regulation of the commission.

Rule XVIII—Definition of the non-competitive class

The non-competitive class shall include such positions as are not in the exempt class and which it is impracticable to include in the competitive class.

It shall comprise the following positions and such positions as may hereafter be added; provided, that from time to time, the commission shall transfer positions from this class to the competitive class whenever it may be found practicable to hold competitive examinations to fill them:

Rule XIX—Employment in the non-competitive class

1 The positions in the non-competitive class must be filled by such persons as upon proper non-competitive examinations shall be certified as qualified to discharge the duties of such positions by an examiner or examiners selected or appointed for that purpose by the commission. The head of any office, department or institution in which there may be a vacancy or vacancies in any position or positions in this class, may name for examination a person for each vacancy. The commission may provide by special regulation that in any institution where a number of persons are employed in the same grade, the employing officer may name for examination more than one person, in order that there may be a list of qualified persons from which to make an immediate selection in case of vacancy. Such nomination may be made to the commission, or to an examiner or board of examiners, as the commission may prescribe by regulations.

2 The commission shall select, appoint and commission examiners or boards of examiners to test the qualifications of persons named for employment in positions in the non-competitive class, and they shall be subject to the provisions of the fourth section of rule X.

3 Examinations for positions in the non-competitive class shall be such as shall determine the following qualifications:

First. That the person examined is within the limits of age prescribed for the position or employment to which he has been named;

Second. That he is properly certified as free from any physical defect or disease which would be likely to interfere with the proper discharge of his duties;

Third. That his character is such as to qualify him for such position or employment; and

Fourth. That he possesses the requisite knowledge and ability to enter on the discharge of his duties in the service.

To preserve a uniform standard in such qualifications for like positions and employments in the several institutions and offices

of the state service, the commission, after consultation with the principal officers concerned, may by regulations prescribe uniform limitations and tests for the government of the examiners.

Rule XX—Reports of appointing officers

For the purpose of certification to the comptroller, or other fiscal officer, for the payment of salaries and to enable the commission to keep an official roster of the classified service as required by law, each appointing and employing officer, from time to time after the date of the promulgation of these rules and *upon the date of the official action in or knowledge of each case*, shall report to the commission as follows:

(a) Every appointment or employment, whether probationary, temporary, or otherwise, in the classified service, with the date of commencement of service and the title and compensation of the position.

This includes every employment or designation of any person to render any service, whether permanent, temporary or special, to the State of New York or any of its civil divisions to which these rules shall be extended, in any capacity whatever, compensation for which is to be made to the person employed or designated, except in the military service and the unclassified service as defined by law and by section 2 of rule III.

(b) Every failure to accept an appointment under him by a person entitled thereto, with copies of the offer or notice of appointment and the reply thereto, if any.

(c) Every discharge during or at the end of a probationary term, with the date thereof.

(d) Every vacancy in a position, whether caused by dismissal, resignation or death, with the date thereof.

(e) Every position abolished, with the date of such abolition.

(f) Every change of compensation in a position, with the date thereof.

(g) Every promotion, giving positions from which and to which made, with the salaries and date thereof.

(h) Every transfer, giving the positions from which and to which made, with the date and salaries thereof.

(i) Every reinstatement in a position, with the date and salary thereof.

Rule XXI—The official roster

The commission shall keep in its office an official roster of the classified state service, and shall enter thereon the name of each and every person who has been appointed to, employed, promoted or reinstated in any position in such service upon such evidence as it may require or deem satisfactory that such person was appointed to, or employed, promoted or reinstated in the service in conformity with the provisions of law and of these rules. The official roster shall show opposite, or in connection with each name, the date of appointment, employment, promotion or reinstatement, and the office in which and the compensation of the position, date of commencement of service, and the date of transfer in or separation from the service by dismissal, resignation, cancellation of appointment, or death.

Rule XXII—Certification for payment for services

For the purpose of certification of payrolls, estimates and accounts as required by section nineteen of the civil service law, appointing officers and heads of departments shall furnish the commission with payrolls, estimates, accounts and certificates in form and manner as follows:

1 Heads of departments, offices and institutions in the state service, whose employees are paid individually direct from the treasury of the state or any civil division thereof, shall furnish the commission, at least five days before payment is to be made, payrolls in duplicate, showing the names of the persons to be paid, the title of the position held or kind of service performed by each person, the rate and amount of compensation to which he is entitled, and the period for which he is to be paid, and shall certify that the persons named therein are employed solely in the proper duties of the positions and employments indicated, and that persons described as or proposed to be paid as "laborers" are employed at ordinary unskilled labor only, and that each person employed under rule VIII, subdivision 9, is actually engaged in private business and that the services rendered by him are expert services of an occasional and exceptional character. After examination and certification by the commission as hereinafter prescribed, such payrolls shall be transmitted by it to the comptroller or fiscal officer of such civil division for

further examination and payment as required by law, and one of said duplicates shall accompany the warrant on the treasurer or other disbursing officer. (As amended November 12, 1903.)

2 For payments for irregular or occasional services, and for advances of salary to regular employees, the head of such a department, office or institution shall transmit to the commission the original account or a special payroll or a request for advance payment, bearing his written approval, which approval shall be deemed to be a certificate of the facts required by the preceding section to be certified on the regular payrolls. Upon examination and certification by the commission such account, payroll or request shall be forwarded to the comptroller or other fiscal officer.

3 Heads of departments, offices or institutions whose employees are paid directly by the department without previous detailed estimate to the comptroller, shall furnish the commission, before payment is made, or in case of employees of the department of public works and of the state engineer and surveyor on the canals, outside of Albany, before credit is claimed from the comptroller on such payrolls, the payrolls and certificates as required in section 1 hereof, and except in the case noted, disbursing officers of such departments, offices and institutions shall not pay such persons until the commission shall certify as hereinafter prescribed. Heads and disbursing officers of such departments, offices and institutions shall file the payrolls certified by the commission as vouchers in claiming credit from the comptroller or other fiscal officer for such payments.

4 The estimates for payment of officers and employees, and for services of state hospitals and charitable institutions required by law to render detailed estimates in advances, under what is known as the "estimate system," containing the names, titles of positions held or kind of service performed and rate of compensation of all officers and employees in the classified service with the certificate specified in section 1 hereof, shall be submitted to the commission for certification before approval by the comptroller or other department having power of revision of such estimates, and no vouchers for payments for services shall be received unless in accord with such estimates, and the certificate of the commission.

5 The secretary or assistant secretary of the commission shall compare such payroll, estimate or account for services with the official roster and shall attach thereto or place thereon a certificate in form substantially as follows:

I hereby certify that the person (or persons) named in this (or the attached) payroll (or estimate or account) for services rendered to the State of New York in the ..... containing ..... names have been appointed or promoted to or employed in the positions or places and at the rates of compensation indicated in pursuance of the civil service law, and the rules made in pursuance thereof as shown by the official roster of the state service except

(Here insert names in regard to which the payroll, estimate or account disagrees with the official roster.)

.....

Secretary of the State Civil Service Commission.

To provide for the making of such certifications and for other purposes the commission shall designate an employee in its office to act as assistant secretary of the commission, under and by direction of the secretary when that officer is on duty and for him and in his stead in his absence.

6 Upon satisfactory evidence, that with intent to evade the provisions of law and of these rules, any person appointed to or employed in any position in the classified service has been assigned to perform duties other than those for which he was examined and certified, or under any title not appropriate to the duties to be performed, the commission will refuse certification and remove his name from the official roster.

7 When legal proceedings have been instituted against the state commission, attacking the classification of any position in the competitive class, and after a decision has been rendered in the lower courts adverse to the state commission on the merits, and when the commission has determined by unanimous vote that a reasonable doubt exists as to the correctness of its classification of such position, it may, in its discretion, pending the settlement or final determination of such legal proceedings, direct the certification of the payrolls of any person who has been appointed to such position, without regard to the existing classification, but such certification shall be without prejudice to the

existing classification and temporary only. In all such cases the secretary shall attach to such payrolls, in addition to the usual certificate, the following:

"This certificate is attached by special direction of the commission, pursuant to the provisions of rule XXII, subdivision 7, and without prejudice to the right of the commission to withhold same in the event of the favorable settlement or final determination of litigation now pending, involving the correctness of its classification." (Added November 19, 1903.)

Rule XXIII—Causes for removal

(Added July 29, 1899; repealed October 17, 1901.)

Rule XXIV—Extension of rules

These rules shall not be deemed to extend to the offices, places and employments in the civil divisions of the state until after due inquiry by the commission it shall be found practicable, of which finding proper and timely notice shall be given.

In pursuance of the foregoing provision, these rules have been extended to the offices, places and employments in the civil service of the counties of Erie, Kings, New York, Queens and Richmond, to take effect from and after June 16, 1900. (As amended June 16, 1900.)

Rule XXV—Administrative regulations

The commission shall prescribe and enforce suitable regulations for carrying into effect the provisions of these rules and those of the civil service law and of section 9 of article V of the Constitution, not inconsistent therewith; and shall prescribe blank forms for all applications, certificates, reports, records and returns required under these rules and the regulations made in pursuance thereof.

STATE OF NEW YORK

EXECUTIVE CHAMBER, *June* 8, 1899.

The foregoing rules prescribed by the State Civil Service Commission are hereby approved.

GENERAL REGULATIONS

Adopting order

The State Civil Service Commission, under the authority conferred by section 9 of the civil service law and rule XXV of the rules prescribed pursuant thereto, approved by the Governor, and promulgated on the 8th day of June, 1899, hereby makes the following regulations, reserving the right to modify the same from time to time, and to prescribe such special regulations as may be expedient for the proper enforcement of the rules aforesaid.

Regulation A. The president

The president, subject to the direction of the commission, shall have such general authority and responsibility in the administration of the law, rules and regulations as shall not be inconsistent with the powers reserved to the commission or vested in some other officer. (Added November 27, 1903.)

Regulation I—Chief examiner

The chief examiner, subject to the direction of the commission, shall have charge of all matters pertaining to examinations and in connection therewith he shall:

1 Prepare blank forms for application for examination.

2 Receive applications for competitive examination and determine all questions relating to eligibility of candidates.

3 Advertise and issue authority to hold all examinations, and supervise the preparation of questions and other preliminary arrangements for such examinations and, so far as practicable, attend them.

4 Grant authority to candidates to enter examinations.

5 Prepare, after consultation with appointing officers concerned, schemes of examination, including age limits and other preliminary requirements for candidates.

Digitized by Google

6 Assign and direct the work of examiners and take care to secure accuracy, uniformity and justice in their proceedings, and such proceedings and all papers pertaining thereto shall at all times be open to him. Whenever the qualifications for a position are of professional, scientific, technical or expert character, the chief examiner may obtain such advice and assistance from competent and trustworthy sources as may be expedient and available. In case a vacancy occurs in any position of examiner during a recess of the commission, the chief examiner may, when necessary, select a person to fill such vacancy temporarily, pending a permanent selection by the commission.

7 He shall take care that the rules and regulations are complied with and bring any case of their infraction to the attention of the commission. He shall also from time to time inspect the proceedings and papers connected with the examinations for the service of cities, and make investigations into complaints regarding such examinations, and make report of such inspections and investigations to the commission.

8 He shall perform such other appropriate duties as may be specified in these regulations or assigned to him by the commission.

Regulation II—Secretary

(As amended May 15, 1903.)

The secretary shall, subject to the direction of the commission:

1 Keep the minutes of the proceedings of the commission and have charge of the books, records, papers, official seal and other property in its office.

2 Notify candidates of the results of their examinations and enter the names of successful competitors upon the proper register of eligibles.

3 Make certification to appointing officers, upon their requisition, of those eligible to appointment or employment.

4 Keep the official roster and have charge of the certifications of payrolls and estimates for payment of compensation.

Regulation III—Examiners

1 The examiners of the commission are classified as salaried examiners, special and expert examiners, local examiners, institution boards of examiners.

2 The salaried examiners shall devote their whole time to the work of the commission under the direction of the chief examiner.

3 Special and expert examiners shall be designated and employed by the commission from time to time as the work is required to prepare questions and rate candidates in competitive examinations. Such examiners shall be paid such compensation as shall be agreed upon and shall be subject to the general direction of the chief examiner.

4 Local examiners shall be appointed in the various cities in which competitive examinations are required by law to be held. The chief examiner shall designate the examiner or examiners to hold each examination. The number of local examiners to be employed shall not exceed:

For 1 to 3 competitors, one examiner.

From 4 to 30 competitors, two examiners.

From 30 to 60 competitors, three examiners.

For more than 60 competitors, four or more examiners.

The compensation of local examiners shall be:

In first-class cities, $5 per day.

In second-class cities, for examiner in charge and one assistant, $5 per day; for other assistants, $4 per day.

In other places, for examiner in charge and one assistant, $5 per day; for other assistants, $3.50 per day.

Local examiners shall not incur expense in connection with examination beyond necessary stationery and supplies, except at the direction of the commission or the chief examiner.

5 Boards of examiners shall be established in the several state hospitals and institutions to conduct the examination of persons nominated for positions in the non-competitive class by the proper appointing officer. Such boards shall consist of three or more members, one of whom shall act as secretary and two or more of whom may conduct an examination in the absence of the others. The secretary shall keep a record of the proceedings of the board and of the examinations held by it, and shall report

to the commission the names of persons examined and the results of their examinations. The application and examination papers of candidates shall be forwarded to the commission with the report.

6 Examiners shall take care to secure uniformity and fairness in the conduct of examinations. They must not disclose the details of answers of candidates. No examiner or other person serving under the commission shall attempt to influence the marking or grading of any candidate, or the selection, nomination, appointment or employment of any person in the civil service.

Regulation IV—Application

1 All applications for admission to examination shall be made upon the blank forms prescribed and furnished by the commission, and no one will be admitted who has not made such application in satisfactory form.

2 In every application for examination for original appointment in the competitive class, the applicant must state on oath and in his own handwriting: (1) the position or kind of examination desired; (2) his full name, residence and post-office address; (3) his term of residence in this state; (4) his citizenship, and if naturalized, the date and place of his naturalization; (5) the date and place of his birth; (6) his previous employment in the civil service, if any; (7) his business or employment for the last preceding five years; (8) his education; (9) if in the army or navy of the United States in the late civil war and honorably discharged therefrom, the name of organization or vessel to which attached, date of enlistment or commission, position or rank, and date and cause of discharge from the service; (10) such other information as the commission may require touching his eligibility and fitness for the public service.

3 The application must be accompanied (1) by a certificate of a practicing physician of good repute that he has examined the applicant and found him free from any physical defect or disease that would interfere with the proper discharge of his duties in the position applied for; (2) by the certificates of not less than three nor more than five reputable citizens that they have been personally acquainted with the applicant for at least one

year and believe him to be of good moral character, of temperate and industrious habits and in all respects fit for the service he wishes to enter, and that they are willing that such certificate shall be published for public information, and (3) if the applicant is an honorably discharged soldier or sailor of the late civil war, by the adjutant-general's certificate of his honorable discharge or other satisfactory evidence of the same.

4 In addition to the information above mentioned applicants for positions requiring special qualifications shall furnish the evidences, certificates and licenses required under the provisions of section 5 of rule IX.

5 The limits of age at the time of application for the following named positions are as follows: Stenographer, telegrapher, stenographer and telegrapher, messenger, chainman, minimum, eighteen years; regents' clerk, minimum, sixteen years; page, minimum, fourteen years and maximum, eighteen years; junior clerk, minimum, sixteen years and maximum, twenty-one years; reformatory guard, minimum, twenty-five years. For all other positions the minimum age limit is twenty-one years, with no maximum limit. (As amended September 27, 1899; January 24, 1900; September 16, 1904.)

6 Defective applications will be suspended and applicants notified to amend the same, but no such notice will be given or opportunity granted a second time.

7 Applications must be filed at least five days before the date of examination to entitle the applicant to enter the same.

8 The date of the reception of all applications shall be indorsed thereon, and entered of record by the commission, and if the applicants for any position are in excess of a number that can be examined at a single examination, they will be notified to appear in their order on the respective records, provided that veterans shall have precedence in such notification.

9 Applications and accompanying certificates, not returned for correction, will remain on file in the office of the commission, and under no circumstances will be returned to the applicant.

10 All applications for admission to examinations must be directed to the "State Civil Service Commission, Albany, N. Y."

11 Candidates for examinations for positions in the non-competitive class shall file applications on blank forms prescribed

by the commission containing such information as the commission shall deem necessary in regard to their eligibility and fitness for the positions applied for. Such applications may be presented at the time of examination and shall be forwarded to the commission by the examiners together with the examination papers.

Regulation V—Examinations

1 Competitive examinations will be held from time to time for such positions as shall be specially requested by appointing officers and for those for which in the opinion of the commission, the number of applicants or lack of eligibles renders an examination desirable. The preliminary requirements, subjects of examinations and relative weights for positions in the competitive class shall be published from time to time. The place and date of an examination for any position, when determined, and any other material information in regard thereto, will be posted in the office of the commission in the capitol at Albany at least ten days before the date of such examination.

All examinations of a public and general interest shall be advertised by the chief examiner, so far as practicable, in every county of the state at least ten days before the date of the examination by one insertion of a suitable notice in one or more prominent newspapers of the county; examinations of a professional and technical nature shall be advertised, so far as practicable, in suitable periodicals published in the state.

2 Notice of examination will be mailed ten days previous to the date thereof to each applicant then entitled to enter the same. If any applicant fails to receive due notice of an examination, or gives satisfactory reasons for failure to attend an examination, he shall be notified to attend the next examination for the same subdivision and group, provided such examination occurs within one year from the date of filing the original application.

3 Applicants must present themselves promptly at the hour and place specified in their official notification signed by the chief examiner of the commission, and no one will be admitted to an examination except upon the production of such notification.

4 In order to properly identify competitors, each person presenting himself for examination shall fill out a "Declaration Sheet" on which he shall state the essential facts contained in his application paper. Each declaration sheet shall bear a different number which shall be used to designate the examination papers of the competitor. The name of the competitor shall not appear on his examination papers except on the declaration sheet. (Added November 23, 1899.)

5 For the further identification of appointees and for the prevention of impersonation in examinations, every person appointed after a competitive examination shall be required to fill out an identification sheet to be called "Declaration of Appointee." Said declaration shall require a reiteration of the essential facts of the application and declaration sheet and the statement of such other facts as the chief examiner shall require, and shall be filled out by the appointee in the presence of the appointing officer or his representative who shall attach his certificate of such fact. Such declaration shall be forwarded with the notice of appointment to the state civil service commission and shall be filed with the examination papers of the appointee. (Added November 23, 1899.)

6 The relative weights given to the several subjects or qualifications in an examination shall be fixed before the date thereof by the chief examiner under the direction of the commission.

7 Non-competitive examinations for provisional appointments under the provisions of rule VIII shall be in their scope and character the same as competitive examinations to fill vacancies in the same positions.

8 Whenever an oral examination shall be prescribed as part of any scheme of examinations, a stenographic record of the oral questions and answers shall be made and the transcript thereof shall be preserved with the examination papers or report.

Regulation VI—Marking and grading of examination papers

1 So soon as practicable after an examination the papers of the competitors shall be marked and the general average of each ascertained. Such marking and ascertainment shall be under the direction of the chief examiner, and, so far as practicable, shall be made at the office of the commission.

Digitized by Google

2 The marking of each competitor's papers shall be made on the scale of 100, which maximum shall represent the highest attainable accuracy, and 0 shall represent entire ignorance. The average of the marking of the several answers upon any one subject shall be the standing on that subject.

No person shall have his name entered upon an eligible list who fails to attain an average percentage of 75, or over, on all the obligatory subjects in the examination, and a percentage of 60 or over on every such obligatory subject.

3 The absolute or general average standing of each competitor will then be made up in form substantially as follows, in accordance with the respective weights accorded to the subjects:

Examination of .....

SUBJECTS.	Relative weights.	Standing on subjects.	Products.
1 Writing from dictation.....	3	95	285
2 Copying from manuscript.....	2	78	156
3 Handwriting	4	80	320
4 Spelling	3	98	294
5 Arithmetic	4	62	248
6 Geography and history.....	1	70	70
7 Constitutional questions	1	63	63
8 Making a summary.....	2	75	150
Total weight and product.....	20	.....	1,586
General average standing.....			79.30

It will be observed that the standing on each subject is multiplied by the weight given that subject and that the product placed in the third column, and the sum of these products, divided by the sum of the weights, gives the general average standing.

4 Within five days after the filing of the report of any competitive examination, each competitor will be advised by mail by the secretary of the commission as to the result of his examination and his relative position on the eligible list. Prior to that time no inquires to the commission or its officers will be answered, nor will any letters, explanatory of errors presumed to have been made in examination, receive any attention.

Digitized by Google

5 A competitor receiving such notice may, in person or by duly authorized agent, in the presence of any officer of the commission, inspect his examination papers, and if, in his opinion, injustice has been done him, he may, within fifteen days after the receipt of notice, appeal to the commission, specifying particularly and in detail the cause of complaint. Such appeal will be considered by the commission, and, if necessary, it will direct the revision of the marking or grading of the appellant's papers, or otherwise do justice in the premises.

6 The commission shall appoint a committee on appeals, consisting of one commissioner, to whom all appeals shall be re- thereon at the next meeting of the commission. (Added December 19, 1902.)

Regulation VII—Eligible lists

1 After an examination for positions in any grade or subdivision in the competitive class, the names of such competitors as are eligible under the provisions of rule XI shall be entered upon an eligible list for such position in order as follows:

First, the names of veterans in the order of their rating; and, second, the names of other eligibles in the order of their rating. Opposite the name of each eligible shall be entered his post-office address and his rating. The accuracy of all such lists shall be checked by two officials in the office of the commission.

2 The eligible list so prepared shall be entered by the secretary in the proper place in the register of eligible lists, which may be kept by the card system, or otherwise, as deemed most convenient. Whenever there remain on the register any eligibles for any position at the time when the eligibles ascertained by a new examination are to be entered thereon, the names of all the eligibles shall be subject to the above regulation as to the order in which they shall be entered.

3 The term of eligibility shall be one year from the date of filing of the report of the examination, or until a new list of eligibles for the same positions shall be filed, if longer than one year, unless otherwise prescribed by the commission. The term of eligibility shall be two years for the following positions: Court stenographer, state hospital matron, assistant civil engineer, woman physician, regents' examiner, court interpreter, engineer-

ing draughtsman, architectural draughtsman, apothecary, examination clerk, technical and trade instructors, chemist, steward, milk expert, butter expert, cheese expert, vinegar expert, chief engineer, inspector of boilers and engines, building inspector, inspector of nurseries, junior physician, librarian and library assistant. Whenever a person whose name is on an eligible list for any position shall enter a new examination for the same position within his term of eligibility, his eligibility on account of the former examination shall cease from the date of filing of the report of the new examination, and from such date he shall be credited with the mark and relative position obtained in the new examination. If he fail in the new examination, his name shall be stricken from the eligible list. (As amended August 20, 1903.)

4 Copies of eligible lists shall not be furnished by the commission except to the appointing officers having the right of selection from such lists. The lists will be open to public inspection.

5 The secretary shall certify eligibles upon the requisition of an appointing officer in accordance with the provisions of section 2 of rule VIII in such form as the commission may prescribe. No appointment shall be made from any certificate of eligibles after the expiration of the eligible list from which such certificate is drawn, nor after receipt by the commission of a report of examination providing new eligibles for such list. If the appointment shall be made of any person other than one of the three standing highest on the eligible list, the appointing officer shall forward to the commission with the notice of appointment copies of all correspondence to and from the persons declining such appointment, in accordance with the provisions of rule XX and section 2 of rule VIII. (As amended May 7, 1900.)

6 Section 13 of the civil service law requiring appointments to positions in the state service, the duties of which are confined to a locality outside of Albany county, to be made, so far as practicable, from residents of the judicial district including such locality, shall be applied as follows:

(a) In certifications from the eligible lists of clerks, junior clerks, bookkeepers, stenographers, pages, teachers, storekeepers, messengers, janitors, assistant steam engineers, assistant electri-

cal engineers, firemen, court stenographers, court attendants, court clerks, building inspectors, milk experts, butter experts, barber examiners, veal inspectors, housekeepers, nurses, supervisors, watchmen, florists and gardeners. (As amended November 17, 1899; December 15, 1900; January 2, 1901; August 20, 1903; November 18, 1904.)

(b) In certification from the eligible list of prison guards, residents of the first and second judicial districts shall be certified for appointment in Sing Sing prison, residents of the third, fourth and fifth judicial districts for appointment in Clinton prison, and residents of the sixth, seventh and eighth judicial districts for appointment in Auburn prison.

(c) In certification from the eligible list for the position of foreman, department of public works, residents of the first, second, third and fourth judicial districts shall be certified for employment at any locality within those districts; residents of the fifth and sixth judicial districts for employment at any locality within those districts; residents of the seventh judicial district for employment at any locality within that district; residents of the eighth judicial district for employment at any locality within that district. (Added January 2, 1901.)

(d) In certification from the eligible list of court attendants for appointment in the appellate division of the supreme court, residents of the judicial department in which the vacancy exists shall be preferred. (Added March 15, 1901.)

When the services to be performed in any position for which eligibles are to be certified from any of the eligible lists mentioned in this section, are confined to a locality outside of Albany county, the secretary shall certify from the proper eligible list the person or persons standing highest who are residents of the judicial district in which the service is located or of the judicial districts indicated above; but if there be no eligibles who are residents of such judicial district, or if all such eligibles shall decline the appointment, the person or persons standing highest on the whole eligible list shall be certified unless it appears to the satisfaction of the commission that it is not practicable to appoint from outside of the judicial district, in which case the general eligible list shall not be deemed a list of

persons eligible for appointment for such judicial district. (As amended April 24, 1903.)

For the purpose of certification under this regulation, the residence of any person shall be deemed to be the place stated by such person in his application to be his legal residence at the time such application is filed, but in case any person has removed from the judicial district in which he resided at the time of the filing of his application for examination, such person shall no longer be eligible to appointment from that district, but shall, after three months, be on the eligible list for the judicial district into which he has moved. (As amended February 6, 1900.)

7 Whenever an appointing officer to whom certification is made from the list of physicians, first and second grades, shall show that the conditions of residence in his institution are such as to require that only unmarried physicians be appointed, and that one or more of the persons certified is unsuitable for the reason that he is married, an additional name or names may be certified in place of those to whom objection is made. (Added January 1, 1902.)

Regulation VIII—Accounts

1 All accounts for compensation as examiners or for preparation of questions or marking of answers and papers, or other expenses of examinations, shall be certified by the chief examiner.

2 All accounts for other expenses of the commission, except those for salaries and official expenses fixed by statute, and those certified as above by the chief examiner, shall be certified by the secretary.

3 All accounts certified by the chief examiner and secretary shall be approved by the commission before payment.

Regulation IX—Information

1 General abstracts from the provisions of the law, rules and regulations, and other pertinent matter will be published by the commission from time to time, for the information of appointing officers, applicants, candidates and others concerned.

2 The commission cannot undertake to answer inquiries relating to cases which are not officially before it for decision, nor can it decide, except in cases of actual candidates, questions respecting the application of the rules and regulations.

Digitized by Google

3 Particular answers cannot be given to inquiries which are answered expressly or by implication in published regulations or other similar documents.

4 The commission cannot give any information upon the following points: (a) regarding positions in the unclassified service or in the exempt class of the classified service; (b) regarding vacancies in any positions existing or prospective; (c) regarding the duties of positions except as indicated by their classification; (d) regarding the personal interests of any intending or actual applicant, candidate or eligible.

5 The examination papers of a competitor will be exhibited only to the competitor or his duty authorized representative, or to the appointing officer to whom his name is certified.

6 Copies of questions used in examinations cannot be furnished except in cases where they are published by the commission for general information.

7 The qualifications of applicants and subjects of examination, as prepared from time to time, will be published, but in regard to certain positions in which vacancies are rare the nature and extent of the examination may not be determined until vacancies occur.

8 Eligible lists may be published with the standing of the persons named in them, but under no circumstances will the names of persons passing below the minimum standing be published, nor will their examination papers be exhibited or any information given about them, except as provided in the fifth section of this regulation.

Regulation X—Residence and citizenship

The restrictions of section 5 of rule IV and section 2 of rule IX as to residence and citizenship shall not apply to the following positions:

(a) On account of low compensation:

Attendants, nurses and orderlies in asylums and hospitals and similar institutions.

(b) On account of professional or scientific requirements:

All positions as scientists, technical and trade instructors and positions requiring special training and education, provided that if the eligible list resulting from any examination held for such
